INTERIM REVIEW REPORT ON INTERIM FINANCIAL INFORMATION

(Convenience translation of the independent auditor's report originally issued in Turkish, See Note I of Section three)

To the Board of Directors of Türkiye Cumhuriyeti Ziraat Bankası A.Ş.:

Introduction

We have reviewed the consolidated balance sheet of Türkiye Cumhuriyeti Ziraat Bankası A.Ş. ("the Bank") and its consolidated subsidiaries at 31 March 2015 and the related consolidated income statement, consolidated statement of income and expense items under shareholders' equity, consolidated statement of changes in shareholders' equity, consolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the consolidated financial statements for the three-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial statements in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority, (together referred as BRSA Accounting and Reporting Legislation) and Turkish Accounting Standard 34 "Interim Financial Reporting" other than subjects regulated by BRSA Accounting and Reporting Legislation. Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements (ISRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards of Turkey and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Basis for the Qualified Conclusion

As mentioned in Section II. Note 7.d1 of Explanations and Notes to the Consolidated Financial Statements; as of the balance sheet date, the accompanying consolidated financial statements include a free provision amounting to TL 1.320.000 thousand, provided by the Bank management in line with the conservatism principle considering the circumstances that may arise from any changes in the economy or market conditions.

Qualified Conclusion

Based on our review except for the effect of the matter on the financial statements described in the basis for the qualified conclusion paragraph nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not give a true and fair view of the financial position of Türkiye Cumhuriyeti Ziraat Bankası A.Ş. and its consolidated subsidiaries at 31 March 2015 and of the results of its operations and its cash flows for the three-month-period then ended in all aspects in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority and Turkish Accounting Standard 34 "Interim Financial Reporting" other than subjects regulated by BRSA Accounting and Reporting Legislation.

Additional Paragraph for Convenience Translation:

The effects of differences between accounting principles and standards explained in detail in Section Three and accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES

I. BASIS OF PRESENTATION

The consolidated financial statements are prepared within the scope of the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” related with Banking Law numbered 5411 published in the Official Gazette no.26333 dated 1 November 2006 and other regulations related to reporting principles on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority (together referred as BRSA Accounting and Reporting Legislation) and in case where a specific regulation is not made by BRSA, Turkish Accounting Standards, within the scope of interim reporting Turkish Accounting Standards 34 and Turkish Financial Reporting Standards (“TFRS”) and related appendices and interpretations (referred as “Turkish Accounting Standards” or “TAS”) put into effect by Public Oversight Accounting and Auditing Standards Authority (“POA”) (all referred as “BRSA Principles”).

The format and content of the publicly announced consolidated financial statements and notes to these statements have been prepared in accordance with the “Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements”, published in Official Gazette no. 28337, dated 28 June 2012, and amendments to this Communiqué. The Bank maintains its books in Turkish Lira in accordance with the Banking Law, Turkish Commercial Code and Turkish Tax Legislation.

The financial statements of subsidiaries operating abroad have been prepared in accordance with the law and regulations of the country they operate. However, in order to provide fair presentation according to TFRS, necessary adjustments and reclassifications are reflected to these consolidated financial statements.

The consolidated financial statements have been prepared in thousand Turkish Lira (“TL”), under the historical cost convention as modified in accordance with inflation adjustments applied until 31 December 2004, except for the financial assets and liabilities carried at fair value.

Consolidated balance sheet and consolidated statement of off-balance sheet accounts as of 31 March 2015 are presented comparatively with balances as of 31 December 2014 while consolidated income statement, consolidated statement of income and expense items accounted under shareholders’ equity, consolidated cash flows and consolidated changes in shareholders’ equity are presented comparatively with balances as of 31 March 2014.

Unless otherwise specified, all balances in the financial statements and footnotes are expressed in Thousand Turkish Lira (“TL”).

The preparation of financial statements requires the use of certain critical estimates on assets and liabilities reported as of balance sheet date or amount of contingent assets and liabilities explained and amount of income and expenses occurred in related period. Although these estimates rely on the management’s best judgment, actual results can vary from these estimates. Judgements and estimates are explained in related notes.

The accounting policies and valuation principles applied in the preparation of these financial statements are defined and applied in accordance with TAS. Those accounting policies and valuation principles are explained in Notes II. to XXV. below.

Additional paragraph for convenience translation into English:

The differences between accounting principles, as described in the preceding paragraphs, and accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

II. EXPLANATIONS ON THE STRATEGY OF USING FINANCIAL INSTRUMENTS AND FOREIGN CURRENCY TRANSACTIONS

Main activity of the Parent Bank comprises of banking services, such as; launching all kinds of cash and non-cash loans in terms of Turkish Lira and foreign currencies, performing transactions in local, international money and capital markets, supporting agricultural sector financially and collecting deposits in Turkish Lira and foreign currencies. The Parent Bank’s main funding source is Turkish Lira deposits, repurchase agreements, issued securities shareholders’ equity and government funds transferred from the budget, ministerial offices and other public resources to the Bank by means of legislative and administrative decisions. The Parent Bank directs these funds to assets with high return and low risk. These assets include predominantly domestic government bonds and loans. The Parent Bank’s liquidity structure covers the financing of all liabilities at due date. Although most of the sources in the Parent Bank’s balance sheet are with fixed interest rate, some of the securities in assets have floating interest rate. Since the remaining time to re-pricing date of sources is short, cost of sources is repriced in short periods based on the market conditions. Moreover, the Parent Bank adopts high return principle for its long-term placements. Loans and securities are instruments from which the Parent Bank gets returns above the average returns within its lines of activity. Letter of guarantees, bank loans, and commercial letter of credits, repayment commitments for cheques and expense limit commitments for credit cards are the most important risk areas within the off-balance sheet accounts.

Since the Parent Bank’s total debt to the market is low among its total liabilities, the Parent Bank can borrow easily from short-term markets, such as; Borsa Istanbul (“BIST”), Central Bank of the Republic of Turkey, Money Market or Interbank Money Market in case of need. In case of a liquidity crisis, the deposit base of the Parent Bank is not presumed to be significantly affected from such a case since the Parent Bank is a public bank with an extensive branch network.

Cost and return of foreign currency assets are subject to a close follow up. Positive margin of profit is sustained by adjusting deposit interest rates in line with the market interest rates.

Foreign currency operations are recognized at transaction date and valued by Parent Bank’s prevailing counter currency buying rate. At period ends, foreign currency asset and liability balances are valued at the Parent Bank’s period end counter currency buying rates and translated to Turkish currency and the resulting exchange differences are recognized as a “foreign exchange gain or loss”.

Foreign currency capital amounts transferred to the equity participations operating abroad are evaluated and presented on the financial statements with the exchange rate on the date of the transfer.

Assets, and liabilities and income statement items of the abroad branches of the Parent Bank are translated into Turkish Lira with the Bank’s prevailing counter currency buying rates at the balance sheet date.

III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES, SUBSIDIARIES AND JOINT VENTURES

a. Consolidation principles applied:

The consolidated financial statements have been prepared in accordance with the procedures listed in the “Communiqués related to the Regulation on the Preparation of the Consolidated Financial Statements of Banks” and the “Consolidated Financial Statements” (“TFRS 10”) published in the Official Gazette No. 26340 dated 8 November 2006.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES, SUBSIDIARIES AND JOINT VENTURES (Continued)

a. Consolidation principles applied (Continued)

1. Consolidation principles for subsidiaries:

Subsidiaries (including special purpose entity) are all entities, in which the Group has power to control the financial and operating policies for the benefit of the Parent Bank, either (a) through the power to exercise more than 50% of the voting rights relating to shares in the companies owned directly and indirectly by itself; or (b) although not having the power to exercise more than 50% of the using rights, otherwise having the power to exercise control over the financial and operating policies.

Control is evident when the Parent Bank owns, either directly or indirectly, the majority of the share capital of the company or owns the privileged shares or owns the right of controlling the operations of the company in accordance with the agreements made with other shareholders or owns the right of appointment or the designation of the majority of the board of directors of the company.

Subsidiaries are consolidated with full consolidation method by considering the outcomes of their activities and the size of their assets and shareholders’ equity in scope of the materiality principle. Financial statements of the related subsidiaries are included in the consolidated financial statements beginning from their acquisition date. Where necessary, accounting policies of subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

In accordance with the full consolidation method, balance sheet, income statement and off balance sheet items of the subsidiaries have been consolidated line by line with the balance sheet, income statement and off balance sheet of the Parent Bank. The book value of the investments of the Group in each subsidiary has been netted off with the portion of each subsidiary’s capital that belongs to the Group. Unrealized gains and losses and balances resulting from the transactions among the subsidiaries included in consolidation have been eliminated. In order to determine the net income of the Group, minority shares in the net income of the consolidated subsidiaries have been identified and deducted from the net income of the subsidiary. In the consolidated balance sheet, minority shares have been presented separately from the liabilities and the shares of the Group shareholders. Also, in the income statement, minority shares have been presented separately.

The subsidiaries included in consolidation, their title, their place of incorporation, their main activities and their effective shareholding rates are as follows:

Title	Address (City/Country)	Main Activities	31 March 2015		31 December 2014

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES, SUBSIDIARIES AND JOINT VENTURES (Continued)

a. Consolidation principles applied (Continued):

2. Consolidation principles of associates and joint ventures:

An associate is a partnership with which the Parent Bank participates in its capital and has significant effect on it although it has no capital or management control, whose main operation is banking and which operates according to special legislation with permission and license and is established abroad. The related associate is consolidated with equity method in accordance with materiality principle.

Significant effect refers to the participation power on the constitution of the financial and management policies of the participated associate. If the Parent Bank has 10% or more voting right on the associate, as long as it is not proved otherwise, it will be accepted that the Parent Bank has significant effect on that associate.

Equity method is an accounting method which foresees the increase or decrease of the book value of capital share in an associate from the changed amount in the associate participating shareholder’s equity during the period by the portion of the participant and the deduction of the dividend from the associate from the changed value of the associate amount.

The associates and joint ventures consolidated with the equity method, their title, their place of incorporation, their main activities and their effective shareholding rates are as follows:

Title	Address (City/Country)	Main Activities	31 March 2015		31 December 2014	
			Parent Bank’s Share Percentage (%)	Parent Bank’s Risk Group Share Percentage (%)	Parent Bank’s Share Percentage (%)	Parent Bank’s Risk Group Share Percentage (%)

Uzbekistan- Turkish Bank	Tashkent/Uzbekistan	Banking	50,00	50,00	50,00	50,00
Arap Türk Bankası A.Ş.	Istanbul/Turkey	Banking	15,43	15,43	15,43	15,43

3. Principles applied during share transfer, merger and acquisition: None.

4. Transactions with minority shareholders:

The Group considers transactions with minority shareholders as transactions within the Group. For acquisitions from minority shareholders, the difference between the acquisition cost and related portion of net assets’ booked value is deducted from equity. Profit or loss resulting from sales to minority shareholders is booked under equity.

b. Presentation of unconsolidated subsidiaries and associates in consolidated financial statements:

Turkish lira denominated unconsolidated associates and subsidiaries are booked at cost value, less any impairment if any, in accordance with “Consolidated Financial Statements” (“TFRS 10”) are recognized in the consolidated financial statements.

When the cost of investments, associates and share certificates which are classified under available for sale portfolio is higher than the net realizable value, the carrying amount is reduced to the net realizable or fair value if any, considering whether the value decrease is temporary or permanent and the ratio of the value decrease.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

IV. EXPLANATIONS ON FORWARD TRANSACTIONS, OPTIONS AND DERIVATIVE INSTRUMENTS

The Parent Bank’s derivative transactions mostly include currency and precious metal swaps and exchange purchase and sale transactions. The Parent Bank has no embedded derivative instruments separated from the host contract.

The derivative instruments of the Parent Bank are classified as trading or hedging instruments in accordance with Turkish Accounting Standard on TAS 39 “Financial Instruments: Recognition and Measurement”. The Parent Bank has no derivative instruments for hedging purposes as of the balance sheet date. Accordingly, the Parent Bank is not subject to conditions whether derivative instruments do not meet the determination criteria for being classified as hedging instruments or whether such derivative transactions are finalized through sale, term expiry or fulfillment of obligations under the contract.

Derivative instruments are recognized at fair value on contractual date and subsequently re-valued at their fair values and associated with the income statement. If the fair value of derivative financial instruments is positive, it is disclosed under the main account “financial assets at fair value through profit or loss” in “trading derivative financial assets” and if the fair value difference is negative, it is disclosed under “financial liabilities at fair value through profit or loss” in “trading derivative financial liabilities”. Fair value changes are recorded under “Derivative Financial Transactions Gains/Losses” in income statement.

The fair values of the derivative financial instruments are calculated using quoted market prices or by using discounted cash flow models.

Liabilities and receivables arising from the derivative instruments are followed in the off-balance sheet accounts from their contractual values.

V. EXPLANATIONS ON INTEREST INCOME AND EXPENSE

Interest income and expenses are recognized on an accrual basis using the internal rate of return method in conformity with TAS 39 “Financial Instruments: Recognition and Measurement”. In accordance with the Communiqué on “Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions” came into force after being published in the Official Gazette numbered 26333 dated 1 November 2006, no interest accrual is calculated for non-performing loans. Realized interest accruals calculated for non-performing loans and recognized as income although not collected are reversed and interest income related to these loans is recognized as interest income only when they are collected.

VI. EXPLANATIONS ON FEE AND COMMISSION INCOME AND EXPENSE

Commission income from banking, agency, intermediary services is recognized as income on the date they are collected. Whereas, commission income from individual, corporate and entrepreneurial cash loans are recognized on an accrual basis by using internal rate of return method and transferred to the income statement in accordance with the matching principle. Other fees and commission expenses are recorded as expense on the date they are paid.

VII. EXPLANATIONS ON FINANCIAL ASSETS

Financial instruments comprise financial assets and liabilities and derivative instruments. They are included in the balance sheet of the Group, if the Group is a legal party to these instruments.

Financial assets mainly constitute the Group’s commercial activities and operations. These instruments have the ability to expose, affect and diminish the liquidity, credit and interest rate risks in the financial statements.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VII. EXPLANATIONS ON FINANCIAL ASSETS (Continued)

Financial assets are classified as investments held-to-maturity, bank loans and receivables, financial assets available for sale or held-for-trading at initial recognition.

Sale and purchase transactions of financial assets are accounted for using the settlement date basis.

a. Financial assets at fair value through profit or loss:

In Group, financial assets, which are classified as “financial assets at fair value through profit or loss”, are trading financial assets and are either acquired for generating profit from short-term fluctuations in the price or dealer’s margin, or are the financial assets included in a portfolio in which a pattern of short-term profit making exists independent from the acquisition purpose.

Trading securities are initially recognized at cost. The cost of the securities is recognized as fair value. Subsequently, trading securities are carried at fair value in the financial statements.

Government bonds and treasury bills included in held for trading and available for sale portfolios traded in BIST are carried at weighted average exchange prices of BIST as of the balance sheet date and those securities that are not traded in BIST are carried at prices of the Central Bank of the Republic of Turkey. Eurobonds are carried at prices in the over the counter markets. The positive difference between the cost and fair value of held for trading securities is accounted under “Other Interest and Income Accrual” and the negative difference is accounted under “Impairment Loss for Marketable Securities” account. The positive difference between the cost and amortized cost is accounted under “Interest income” account, the negative difference is accounted as “impairment loss”. The positive difference between the fair value and amortized cost is accounted under “Profit from capital market operations” account and the negative difference is accounted under “Loss from capital market operations” account.

b. Held-to-maturity financial assets:

Investments held to maturity include financial assets other than Bank loans and receivables and those where there is an intention of holding until maturity and the relevant conditions for fulfillment of such intention, including the funding ability, and where there are fixed or determinable payments with fixed maturity. Marketable securities classified as Financial Assets Held to Maturity may subject to exchange-repurchase bids or refundment transactions within the scope of early redemption.

Investments held to maturity are subsequently measured at amortized cost with internal rate of return, and they are accounted by setting forth provision for impairment loss (impairment loss expense) or by posting interest income accrual.

The Parent Bank does not have any financial assets that are previously classified as investments held-to-maturity but prohibited to be classified in this portfolio for two years because of incompliance with the principles of financial assets classification.

Interests received from investments held to maturity are recognized as an interest income.

Held to maturity assets are initially recognized at cost. The cost of the securities is regarded as fair value.

c. Loans and receivables:

The Parent Bank loans and receivables represent financial assets other than those held for trading or held for sale in a short period generated through providing cash, assets or rendering services to the debtor.

VII. EXPLANATIONS ON FINANCIAL ASSETS (Continued)

c. Loans and receivables: (Continued)

The loans and receivables originated by the Parent Bank are initially carried at cost. Bank loans are measured at amortized cost with internal rate of return. Short-term and long-term loans are grouped as open or guaranteed; FC loans are recognized with fixed price and at period-ends revalued by the counter foreign exchange buying rate of the Bank. Foreign exchange indexed loans are used as TL by the valid counter foreign exchange buying rate of the Bank at usage date. Repayments of these loans are collected as calculated TL value by the valid counter foreign exchange selling rate of Bank at installment date.

The Parent Bank sets specific and general provisions for loans and other receivables in accordance with the regulations stated by the Communiqué published on the Official Gazette numbered 26333 and dated 1 November 2006 on “Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions”. In the previous periods, the bank allocated special provisions considering the minimum rates and prudence principle stated in "Regulation on the Procedures and Principles on Determining the Characteristics of the Loans and other Receivables by the Banks and the provisions that would be Set Aside for them" regardless of such loan collaterals; however, in line with the provision of the General Directorate Authority Approval dated 29 June 2012 and of the clause (8) of Article 10 of the regulation stating that "based on the reliability and prudence assumptions defined in the Communiqué on Conceptual Framework regarding Preparation and Presentation of Financial Statements promulgated in the Official Gazette No. 25702 dated 16 January 2005, special provision may be allocated to the extent of the amount of the said non-performing receivable on condition not to be less than the special provision amounts applicable for the group in which the non-performing receivable is included regardless of the amount of collateral", the bank started to set aside special provisions corresponding to 50% of the non-performing receivable amount as of the date of including the non-performing receivables in the Third Group and special provisions corresponding to 100% of the non-performing receivable amount as of the date of including the non-performing receivables in the Fourth and Fifth Group. Allocated provisions are deducted from the income for the period. If the receivables for which provisions were set in the previous years are collected, provision for allowances are released and recognized as income under “Other Operating Income” account. Releases of current period provisions are made by the reversal of the amount from the “Provision for Impairment of Loans and Other Receivables” account.

d. Available-for-sale financial assets:

Available-for-sale financial assets are defined as financial assets other than the ones classified as “loans and receivables”, “held-to-maturity assets” or “financial assets at fair value through profit or loss”.

Available for sale assets are initially recognized at cost. The cost of the securities is recognized as fair value.

Available-for-sale financial assets are subsequently re-measured at fair value in financial statements.

The difference between fair value and cost of available for sale financial assets is booked as interest income accrual or impairment provision. Furthermore, amortized cost using the effective interest method and cost is compared and the difference is booked as interest income or impairment expense. Fair value and amortized cost of these securities are compared and the difference is recognized in shareholders’ equity as “Marketable Securities Value Increase Fund”. When these financial assets are disposed of or impaired the related fair value differences accumulated in the shareholders’ equity are transferred to the income statement.

When there is no price quotation in an active market for price formations to constitute the basis of the fair value or in such a situation when the reasonable value is not measured confidentially; the fair value of the available-for-sale financial assets are carried at amortised cost using the effective interest method or appropriate valuation methods.

VIII. EXPLANATIONS ON IMPAIRMENT OF FINANCIAL ASSETS

A financial asset or a group of financial assets is subject to impairment loss only if there is an objective indication that the occurrence of one or more than one event (“loss event”) subsequent to the initial recognition of that asset has an effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group.

If revalued amounts of financial assets at fair value through profit/loss is less than the prior revalued amounts, initially, value of prior records regarding the value increase are adjusted according to the recent value and if the impairment loss is more than the prior value increase, difference is reflected to “Impairment Expense for Marketable Securities”. If there is an increase in value, initially recognized impairment loss is reversed.

If financial assets available for sale are subject to permanent impairment, the amount is charged to “Impairment Expense for Marketable Securities” account in accordance with the related Turkish Accounting Standards.

If subsidiaries, associates, entities under common control and assets held to maturity are subject to permanent impairment, the amount is charged to “Impairment Expenses for Subsidiaries, Associates, and Assets Held to Maturity”.

The principles for the accounting of provisions for loans and receivables are explained in detail in Note VII. of this section.

Loans and other receivables are classified by the Parent Bank in accordance with the Communiqué on “Methods and Principles on Determining the Nature of Loans, and Other Receivables, and Allocation of Provisions” published in the Official Gazette numbered 26333 and dated 1 November 2006.

IX. EXPLANATIONS ON OFFSETTING FINANCIAL ASSETS AND LIABILITIES

Financial assets and liabilities shall be offset and the net amount presented in the balance sheet when, and only when the Parent Bank currently has a legally enforceable right to set off the recognized amounts or intends either to collect/settle on a net basis or to realize the asset and settle the liability simultaneously.

X. EXPLANATIONS ON SALES AND REPURCHASE AGREEMENTS AND SECURITIES LENDING TRANSACTIONS

Securities subject to repurchase agreements are classified under “held for trading”, “available for sale” and/or “held-to-maturity” portfolios and they are valued based on the revaluation principles of the related portfolios. Funds obtained by these agreements are followed under the “Funds from Repurchase Agreements” account in the balance sheet and interest expense accrual is calculated using the internal rate of return method.

Funds given against securities purchased under agreements (“Reverse Repo”) to resell are accounted under “receivables from reverse repurchase agreements” on the balance sheet and interest income accrual is calculated using internal rate of return method.

As of the balance sheet date, there are no securities lending transactions.

XI. INFORMATION ON ASSETS HELD FOR SALE AND RELATED TO DISCONTINUED OPERATIONS AND EXPLANATIONS ON LIABILITIES RELATED WITH THESE ASSETS

The Parent Bank’s tangible assets acquired in consideration of receivables are accounted for in accordance with the requirements of the Communiqué on “Methods, Principles for Purchase and Sale of Precious Metal and Sale of Goods and Immovables obtained in Return of Receivables” published in the Official Gazette numbered 26333 and dated 1 November 2006 and these assets are subject to revaluation by no means.

A discontinued operation is a part of the Parent Bank’s business classified as sold or held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement.

The Parent Bank has no discontinued operations.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XII. EXPLANATIONS ON GOODWILL AND OTHER INTANGIBLE ASSETS

As of the balance sheet date, the Group has no goodwill within the financial statements.

Other intangible assets are measured at cost on initial recognition and any directly attributable costs of setting the asset to work for its intended use are included in the initial measurement. Subsequently, intangible assets are carried at historical costs after the deduction of accumulated depreciation and the provision for value decreases.

Other intangible assets are amortized by using the straight line method based on their useful lives. Useful lives of other intangible assets are determined by the consideration of items as; useful life of asset, maintenance costs incurred to obtain expected economic benefit from assets and technical, technological or any other type of obsolescence. Amortization method used in the current period is not subject to any change. Depreciation period is 5 years (20% annual depreciation rate) for establishment/formation expenses for other intangible assets with uncertain leasing period or leasing period over 5 years and depreciation rate is proportional with period for those with certain leasing period.

The Group recognizes its software costs incurred under the intangible assets-intangible rights account and the expenses that do qualify as development are added to software’s initial costs and amortized over 3 years considering the useful lives.

XIII. EXPLANATIONS ON PROPERTY AND EQUIPMENT

Property and equipment is measured at its cost when initially recognised and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement. The Parent Bank’s tangible fixed assets purchased before 1 January 2005 are carried at inflation adjusted cost in the balance sheet before 31 December 2004 and its tangible fixed assets that are purchased subsequent to 1 January 2005 are valued at historical cost. As of 31 January 2014 the Parent Bank has changed its accounting policies and has decided to pursue the real estates registered in its portfolio at fair values. In this context, for all real estates registered in the Parent Bank’s inventory, appraisal study was carried by independent expertise companies, and from 1 January 2014 valuation results are reflected in the accounting records. As a result of the fair valuation of the real estates which is included in tangible fixed assets, TL 3.627.351 revaluation difference is followed under shareholders’ equity as of 31 March 2015. As of 30 January 2014, the net book amount of real estates of the tangible assets before valuation was TL 816.950. Subsequent to recognition, tangible fixed assets are presented in financial statements at cost less any accumulated depreciation and impairment loss, if any. Tangible fixed assets are amortized by using the straight-line method over their estimated useful lives. No changes made in the current period regarding depreciation method. The Parent Bank has began to classify the leasehold improvements under tangible fixed assets in the financial statements dated 31 March 2015, which was previously being followed under intangible assets.

Estimated depreciation rates are as follows;

Buildings	: 2%
Vehicles and Fixtures	: 2 - 20%

Where the carrying amount of an asset is greater than its estimated “Net Recoverable Amount”, it is written down to its “Net Recoverable Amount” and the provision for the diminution in value is charged to the income statement.

Ordinary maintenance and repair expenses of tangible fixed assets items are recognized as expenses. Investment expenditures that increase the future benefit by enhancing the capacity of tangible assets are capitalized. The investment expenditures include the cost components which are used either to increase the useful life or the capacity of the asset or the quality of the product or to decrease the costs.

There are no mortgages, pledges or similar precautionary measures on tangible fixed assets or commitments given for the purchase or any restrictions designated for the use of those tangible fixed assets.

XIV. EXPLANATIONS ON LEASING TRANSACTIONS

The Group performs financial operations as “Lessor” and “Lessee”.

a. Accounting of leasing transactions for the lessee:

Financial Lease

The Group, as the lessee, recognizes its leasing operations in accordance with the requirements of TAS 17 “Leases”. Fixed assets that are acquired under financial leasing are amortized with respect to the rates used for directly acquired assets that have similar nature. Assets held under financial leases are recognized under the tangible fixed assets account and are depreciated on annual and monthly basis with respect to their useful lives. Principal and installment paid for tangible fixed assets that are acquired under financial leasing are charged to liability account “Finance Lease Payable”, whereas interests are recognized in “Deferred Financial Leasing Expenses” account. At installment payments, principal and interest amount of installment amount are debited to “Financial Lease Payable” account, whereas interest is credited in “Deferred Financial Leasing Expenses” account and recorded to the “Other Interest Expenses”.

The Parent Bank does not perform financial operations as “Lessor”.

Operational Lease

Leases, in which the majority of risk and return of property belongs to lessor, are classified as operating lease. Payments that are made as operating leases are accounted in income statements with linear method during the lease period.

b. Accounting of leasing transactions for lessor:

Subject to financial leasing in the consolidated balance sheet of the entity is shown as a receivable equal to net leasing. The interest income is determined so as to form a fixed revenue return ratio using net investment method related to lease asset of the lessor, and the portion of interest income which does not take part in the related term is followed under the unearned interest income account.

XV. EXPLANATIONS ON PROVISIONS, CONTINGENT ASSET AND LIABILITIES

Provisions other than the specific and general provisions set for loans and other receivables and provisory liabilities are accounted in accordance with TAS 37 “Turkish Accounting Standard on Provisions, Contingent Liabilities and Contingent Assets Corresponding”.

The Group provides provision in case of an existing liability (legal or implicit) as a result of an incident that took place in the past, there is possibility of disposal of assets that bring economic benefit and the liability is measurable. When a reliable estimate of the amount of obligation from the Parent Bank cannot be made, it is considered that a “contingent” liability exists and it is disclosed in the related notes to the financial statements.

For transactions that can affect financial structure, provisions are provided by using the existing data if they are accurate, otherwise by using the estimates.

As of the balance sheet date, there are no probable contingent liabilities resulting from past events whose amount can be reliably measured.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements in which the change occurs.

XVI. EXPLANATIONS ON OBLIGATIONS RELATED TO EMPLOYEE RIGHTS

a. Employment Termination and Vacation Benefits

Employee benefits liabilities are recognized in accordance with TAS 19 “Employee Benefits” and the Parent Bank provides provision for retirement and termination liabilities by estimating the net present value of future payments of the Banks arising from the retirement of employees and reflects this provision amount in the financial statements.

Under the Turkish legislation as supplemented by union agreements, Employment Termination Benefit payments are made in case of retirement or employment termination or resignation depending on the arise of the legal conditions. According to the related legislation, depending on the status and position of the employee in the Bank and social security institution, Employment Termination Benefit Provision is calculated in two ways; if the employee is a state employee, the calculation is based on retirement pension for the working period of the state employee, and if the employee is a blue-collar worker the calculation is based on the final salary at the date of retirement or leave (to the extent that the payments and/or salary amount does not exceed the Employment Termination Benefit Provision ceiling).

Communiqué on “Turkish Accounting Standard (TAS 19) about Benefits for Employee (No:9)” published in Official Gazette by Public Oversight Accounting and Auditing Standards Authority (“POA”) on 12 March 2013 numbered 28585, was entered into force for the account periods starting after 31 December 2012 on accounting treatment of actuarial profit and loss resulting from changes in actuarial assumptions or differences between actual and actuarial assumptions. Actuarial loss amounting to TL 71.114 was classified as “Other Comprehensive Expense” in the financials by the Parent Bank.

Unused vacation liability is calculated based on number of unused vacation days which is calculated by subtracting used vacation days of all personnel from legally deserved vacation days.

The Parent Bank is not employing its personnel by means of limited-period contracts.

b. Pension Rights

Some of the Parent Bank’s personnel are the members of T.C. Ziraat Bankası and T. Halk Bankası Members Pension and Relief Fund (“Fund”) which was established by 20th provisional article of Social Security Law Act numbered 506.

In accordance with 23rd provisional clause of the Banking Law numbered 5411, the pension fund established within Social Security Law is expected to be transferred to the Social Security Institution by three years following the declaration of the Banking Law numbered 5411. Procedures and principles of the transfer are determined by the decision of Council of Ministers numbered 2006/11345 dated 30 November 2006. However, the 1st paragraph of the 1st article of the 23rd provisional clause of Banking Law numbered 5411 allowing pension funds to be transferred to Social Security Institution (“SSI”) is annulled following the resolution of Constitutional Court declared in the Official Gazette dated 31 March 2007 numbered 26479 E.2005/139, K.2007/13 and K.2007/33.

With the publication of the reasoning of the decision, the Grand National Assembly of Turkey (“GNAT”) started to work on new legal arrangements regarding the transfer of the fund members to SSI and the related articles of the “Law Regarding the Changes in Social Insurance and General Health Insurance Law and Other Related Laws and Regulations” No 5754 (“the New Law”) regulating the transfer of the funds were approved by the GNAT on 17 April 2008. The New Law was published in the Official Gazette dated 8 May 2008, numbered 26870 and came into force.

XVI. EXPLANATIONS ON OBLIGATIONS RELATED TO EMPLOYEE RIGHTS (Continued)

b. Pension Rights: (Continued)

In an application to the Constitutional Court on 19 June 2008, the cancellation of some articles of the new law regarding the transfer of pension funds to the Social Security Institution has been requested. In its meeting dated 30 March 2011, the Constitutional Court examined the cancellation application and rejected the request to suspend the articles.

According to the new law Bank pension funds participants and salaried members or the rightful owners would be transferred to Social Security Institution and would be subject to its legislation within three years beginning from the date of publication without any required transaction. Three years transfer period would be extended by two years at most with the decision of Council of Ministers. In accordance with the related legislation, as of the transfer date, the cash value of the liabilities will be calculated by considering the income and expenses of the transferred funds by the insurance branches and by using the actuarial interest rate of 9,80%. Moreover, the unfulfilled other social rights and payments existed in the settlement deeds of the subjected pension funds of the transferred participants, members or the rightful owners will be continued to be fulfilled by the employer entities of the funds and its participants.

In accordance with 58th article and 7th provisional article of the Banking Law, restricting banks from transferring any funds to the pension funds in order to compensate the actuarial deficits effective from 1 January 2008, has been delayed up to 5 years.

Based on the Council of Ministers' decree numbered 2011/1559 and issued in the Official Gazette numbered 27900, dated 9 April 2011, and 20th provisional article of law numbered 506, the deadline for transferring banks, insurance and reinsurance companies, chambers of commerce, chambers of industry, exchange markets and the participants of the funds that were founded for the personnel constituting these entities and the ones having salary or income and the right holders of them to Social Security Institution has been extended for two years.

Besides, the phrase of "two years" in Clause (2), Article 1 of the temporary 20th provision of the law numbered 5510 is revised as "four years" with the law numbered 6283 amending on the Social Insurance and General Health Insurance Law, published in the Official Gazette numbered 28227, dated 8 March 2012.

Lastly, based on the Council of Ministers' decree numbered 2014/6042 and issued in the Official Gazette numbered 28987, dated 30 April 2014, and 20th provisional article of law numbered 506, the deadline for transferring banks, insurance and reinsurance companies, chambers of commerce, chambers of industry, exchange markets and the participants of the funds that were founded for the personnel constituting these entities and the ones having salary or income and the right holders of them to Social Security Institution has been extended for one year.

Finally "Occupational Health and Safety Law and Other Laws and The Law Amending the Decree Law" No. 6645 dated 23 April 2015, published on Official Gazette and came into force. Also, authority of determination of the transfer date of pension funds participants, people endowed with salary and their right holders, to the Social Security Institution, is left to the Council of Ministers.

The technical balance sheet report as of 31 December 2014 which is prepared in accordance with the new law and the rate determined as 9,80%, concluded no technical deficit arises in the above mentioned fund. Since the Parent Bank has no legal right to hold the present value of any economic benefits available in the form of refunds from Pension Fund or reductions in future contributions to Pension Fund, no asset is recognized in the Bank's financial statements.

XVII. EXPLANATIONS ON TAXATION

a. Current Tax

Turkish Tax Legislation does not permit the Parent Bank to file tax return over consolidated subsidiaries financial statements. Therefore, tax provisions which reflected to consolidated financial statements have been calculated per company.

XVII. EXPLANATIONS ON TAXATION (Continued)

a. Current Tax (Continued)

Corporate Tax Law No. 5520 was taken into effect after being published in the Official Gazette dated 21 June 2006 No. 26205. Many clauses of the "New Tax Law" are effective from 1 January 2006. According to the New Tax Law, the corporate tax rate in Turkey is payable at the rate of 20% as of 1 January 2006. The corporate tax rate is calculated on the total income of the Bank after adjusting for certain disallowable expenses, exempt income (like affiliate gains) and other allowances. No further tax is payable unless the profit is distributed.

Dividends paid to non-resident corporations, which have a place of business or permanent attorney in Turkey or to resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as profit distribution and no withholding tax incurs in such a case.

Corporations are required to pay advance corporate tax quarterly at a rate of 20% on their corporate income. Advance tax is declared by the 14th and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations for the current period is credited against the annual corporation tax calculated on the annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be refunded or used to offset any other financial liabilities to the government.

A 75% portion of the capital gains derived from the sale of equity investments and immovable properties held for at least two years is tax exempt, if such gains are added to paid-in capital in accordance with Corporate Tax Law or held in a special account under shareholders' equity for five years.

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments with tax authorities. Tax returns are required to be filled and delivered to the related tax office until the evening of the 25th of the fourth month following the balance sheet date and the accrued tax is paid until the end of the same month. Tax returns are open for 5 years from the beginning of the year following the balance sheet date and during this period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

Tax rates used in tax calculation considering the related countries' tax legislation as of 31 March 2015 are presented below:

Russia	20,00%
Kazakhstan	20,00%
Germany	15,00%
Bosnia Herzegovina	10,00%
Azerbaijan	20,00%

b. Deferred tax

In accordance with TAS 12 " Turkish Accounting Standards Relating to Income Tax ", the Parent Bank calculates and recognizes deferred tax for temporary differences between the bases calculated based on the accounting policies used and valuation principles and that calculated under the tax legislation.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and are accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences. However, deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such assets and liabilities are not recognized as deferred tax liability or asset if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

XVII. EXPLANATIONS ON TAXATION (Continued)

b. Deferred tax (Continued)

The carrying amount of a deferred tax asset is reviewed at each balance sheet date. Carrying amount of a deferred tax asset can be reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to be applied in the period in which the liability is settled or the asset realized and reflected in the statement of income as expense or income. Moreover, if the deferred tax is related with items directly recorded under the equity in the same or different period, deferred tax is associated directly with equity.

The calculated deferred tax asset and deferred tax liability are presented as net in these financial statements.

The deferred tax benefit is not taken into account in profit distribution in accordance with the relevant circular of BRSA.

XVIII. EXPLANATIONS ON INSURANCE TECHNICAL RESERVES

Technical Reserves

Reserve for unearned premiums:

Reserve for unearned premiums represents the proportions of the premiums written in a period that relate to the period of risk subsequent to the balance sheet date, without deductions of commission or any other expense.

Unexpired risk provision:

Within the framework of Regulation on Technical Reserves, insurance companies are required to account for an unexpired risk reserve against the probability that, future losses incurred from in force policies may exceed the unearned premium reserve accounted for the related policies considering expected ratios. Expected loss ratio is calculated by dividing the current year incurred losses to current year earned premiums. In accordance with “the circular about the Change of Unexpired Risks Reserve Calculation” numbered 2012/15 published by Treasury, if the loss ratio for a branch is higher than 95%, net unexpired risk reserve for that branch is calculated by multiplying the ratio in excess of 95% with net unearned premium reserve for the related branch; and gross unexpired risk reserve for that branch is calculated by multiplying the ratio in excess of 95% with gross unearned premium reserve for the related branch. The difference between gross and net amounts is considered as the reinsurance share.

Reserve for outstanding claims:

Insurance companies provide reserve for outstanding claims, incurred and reported but not yet settled in the current or previous years based on reported balances or estimates when actual balances are not exactly known and incurred but not yet reported claims. Within the calculation of reserve for outstanding claims, incurred and reported but not yet settled, entire shares of expense required for maturation of compensation reports including calculated or estimated expert, referee, consultant, court and communication expenses are taken into account and subrogation, salvage and similar revenue items are not discounted. Incurred subrogation, salvage and similar revenue items whose codes of practice will be determined by the undersecretariat are shown under the related credit account of the asset side of the balance sheet and interrelated with period income in condition that subrogation of rights has been gained.

Technical Reserves (Continued)

Offset provision:

In Article 9 of “Communiqué Regarding the Technical Reserves of Insurance and Reinsurance Companies and the Assets that these Reserves Recorded” numbered 27655 dated 28 July 2010, it is stated that insurance companies provide offset provision for loan and earthquake assurances in order to compensate the possible fluctuations in the assurance rates and catastrophic risks in the succeeding accounting periods.

Mathematical provisions:

Mathematical provisions indicate sum of bonus provisions and actuarial mathematical provisions calculated separately according to technical principles in tariff for each agreement in force. Life branch mathematical provision of the company consists of actuarial mathematical provisions calculated for long-term life insurances on credit. Actuarial mathematical provisions are the differences between risk premiums taken for risks undertaken by the Company and cash values of the liabilities to beneficiaries and insureds.

XIX. EXPLANATIONS ON BORROWINGS

The Group accounts its debt instruments in accordance with TAS 39 "Financial Instruments: Recognition and Measurement". In the following periods, all financial liabilities are carried at amortized cost by using the internal rate of return method. The Bank has no borrowings that require hedging techniques for accounting and revaluation of debt instruments and liabilities representing the borrowings.

If required, the Parent Bank borrows from domestic and foreign real people and entities with debt instruments such as bill/bond issuance. These transactions are recognized at fair value including acquisition costs at the transaction date while accounted with effective interest rate method over their discounted costs in the following periods.

The Group has issued no convertible bonds and has no instruments representing its own borrowings.

XX. EXPLANATIONS ON ISSUANCE OF SHARE CERTIFICATES

Since the Group does not have issued shares, there are no transaction costs related to share issue in the current period.

XXI. EXPLANATIONS ON AVALIZED DRAFTS AND ACCEPTANCES

Commitments regarding bill guarantees and acceptances of the Group are presented in the “Off-Balance Sheet” commitments.

XXII. EXPLANATIONS ON GOVERNMENT GRANTS

There are no government incentives utilized by the Group as of the balance sheet date.

XXIII. CASH AND CASH EQUIVALENTS

Cash and cash equivalents are cash on hand, demand deposits and other highly liquid short-term investments with maturities of 3 months or less following the date of acquisition, which is readily convertible to a known amount of cash, and does not bear the risk of significant amount of value change. The book values of these assets represent their fair values. Cash equivalents and balances regarding banks are valued by the period end counter foreign currency buying rate of the Bank.

For the purposes of the cash flow statement, “Cash” includes cash, effectives, gold, cash in transit, purchased cheques and demand deposits including balances with the Central Bank; and “Cash equivalents” include interbank money market placements and time deposits at banks with original maturity periods of less than three months.

EXPLANATIONS RELATED TO THE FINANCIAL POSITION OF THE BANK

I. EXPLANATIONS ON THE CONSOLIDATED CAPITAL ADEQUACY STANDARD RATIO

1. The Group’s consolidated capital adequacy ratio, reasons and anticipated solutions in case the ratio is lower than the amount pre-determined by the Communiqué:

The Group’s consolidated capital adequacy ratio calculated in accordance with the Communiqué on “Measurement and Assessment of Capital Adequacy of Banks” is 16,19% (31 December 2014: 17,47%).

2. The risk measurement methods used for calculation of consolidated capital adequacy ratio:

Consolidated Capital Adequacy Standard Ratio is calculated in accordance with "Communiqué on Measurement and Assessment of Capital Adequacy of Banks" and “Communiqué on Credit Risk Mitigation Techniques” published in the Official Gazette dated September 6, 2014 numbered 29111.

Counterparties/operations related to the credit risk were separated on the basis of risk classes mentioned in "Communiqué on Measurement and Assessment of Capital Adequacy of Banks" and each of them is assigned by the weight of risk. After, they are subject to risk reduction in accordance with the principles of “Communiqué on Credit Risk Mitigation Techniques”, their risk-weighted amount is calculated by multiplying risk weights.

Non-cash loans and commitments, after deduction of specific provisions from them in accordance with “Communiqué on Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves” are included to the calculation of credit risk weighted amount with loan conversion rates presented in article 5 of “Communiqué on Measurement and Assessment of Capital Adequacy of Banks”. Assets subject to depreciation and impairment are calculated over their net book values after deducting the relative depreciations and provisions.

Trading accounts and the values deducted from the capital base in the shareholders’ equity computation are excluded in calculation of risk-weighted assets.

Calculations regarding to the counter party credit risk, are made for repurchase agreement and derivative transactions. These transactions are added to the accounts with rates as applied that presented in the amendments of the “Communique on Measurement and Assessment of Capital Adequacy of Banks” and “Communique on Credit Risk Mitigation Techniques”. Repurchase agreements and derivative transactions that are presented in the banking accounts are added to calculation of the basis of the value at credit risk.

Calculations regarding counter parties credit risks are made with method of basic financial collateral for banking accounts, and for purchase-sale accounts are made with method of extensive collateral. Counter party credit risk amount calculated for purchase-sale accounts is included in the calculations of the amount subject to total market risk.

EXPLANATIONS RELATED TO THE FINANCIAL POSITION OF THE BANK (Continued)

V. EXPLANATIONS ON THE CONSOLIDATED LIQUIDITY RISK

General principles of liquidity and financial emergency state management and the related application procedures are considered in the scope of “Regulation for Liquidity Risk and Liquidity and Financial Emergency State Management”.

The Parent Bank performs “Remaining Maturity Analysis” for the observation of the maturity structure of the balance sheet, “Liquidity Gap” and “Structural Liquidity Gap Analysis” for the monitoring of the liquidity and between periods and Liquidity Stress Test for the evaluation of the Parent Bank’s liquidity and in the worst case scenario and the loss associated with it. The renewal of deposits which constitutes the Parent Bank’s most crucial funding resource is monitored on a daily basis. Besides, in order to compare the Bank’s level of liquidity risk with the sector, average remaining maturity balances of Bank-Sector and legal liquidity rates are monitored.

The Parent Bank calculates liquidity adequacy ratio and reports to BRSA on a weekly basis in accordance with the "Measurement and Assessment of Liquidity Adequacy of Banks" issued in the Official Gazette numbered 26333 and dated 1 November 2006. The liquidity adequacy of the Parent Bank is over the limit values specified in the mentioned regulation. In addition, the Bank calculates and reports the liquidity adequacy ratio to BRSA on a weekly solo and monthly consolidated basis in accordance with "Regulation on Banks' Liquidity Coverage Ratio Calculation" issued in Official Gazette numbered 28948 and dated 21 March. The liquidity coverage of the Bank is over the limit values specified in the mentioned regulation.

a) Basis for the current liquidity risk of the Parent Bank and whether the necessary measures taken, limitations imposed by the Parent Bank’s Board of Directors on fund sources that can be used in payment of matured debts and can meet the immediate liquidity need:

The Parent Bank’s source of funds is mainly formed of deposits. The Parent Bank’s deposits do not fluctuate considerably in line with the broadly dispersed customer network. Besides, internal and external sources that can be used to meet the immediate liquidity need are monitored periodically. Borrowing limits of the Parent Bank from organized markets and other financial institutions can cover the corresponding liquidity gaps with different periods. The Parent Bank limits its liquidity risk exposure by the approval of Board of Directors in context with “Regulation for Market and Financial Statement Risks and Liquidity and Financial Emergency State Management”.

b) Consistency of payments with the assets and liabilities and the interest rates, measurement of the probable effects of the actual inconsistency on profitability:

The consistency of payments with the assets and liabilities and the interest rates is followed regularly by the management and no inconsistency exists.

c) Internal and external sources for short and long-term liquidity needs of the Parent Bank, unused significant liquidity sources:

Although the average maturity of the Parent Bank’s assets are longer when compared to the maturity of deposits, securities with coupon payments are constituting majority of the securities portfolio and monthly installments of loans supply regular cash inflow for the Parent Bank. Besides, volume of deposits constituting the majority of the liabilities is not subject to significant changes. The Parent Bank also provides funds from long term financial transactions.

d) Evaluation of amount and sources of the Bank’s cash flows:

The Parent Bank’s major source of funds is deposits, and these funds are invested in securities portfolio, other banks and loan placements. Since the most significant cash inflows are originated from securities portfolio and cash inflows from these assets are regular, the liquidity risk of the Parent Bank is suggested to be reduced. Furthermore, periodical collections on loans have the role of covering the Parent Bank’s need for funds.

VII. RISK MANAGEMENT OBJECTIVES AND POLICIES

a) Strategies and Practices on Risk Management:

The Parent Bank, manages the interest and credit risks occurred from the exposed market, liquidity and banking accounts, within the scope of BRSA regulations and by considering the best practices suitable to the volume of operations, qualification and complexity.

b) Structure and Organization of Risk Management

Risk Management Operations are conducted in accordance with the Regulation for Banks’ Internal Systems and Internal Capital Adequacy of Banks, issued in the Official Gazette numbered 29057 and dated 11 July 2014 by Banking Regulation and Supervision Agency and within the scope of “Regulation for Risk Management” approved by the Bank’s Board of Directors’ Decision No. 7/101, dated 21 March 2012.

As of 31 March 2015, Risk Management organization consists of operation and market risk management, credit risk management and statement risks management units.

c) Risk Reporting and Scope and Qualification of the Measurement Systems

In order to put forward the potential risks which may be encountered by the Parent Bank, it is essential to consider the results of risk measurement and monitoring activities in the process of the Parent Banks’ strategic decisions. In the buy – sell strategy context, the analyses presented below are preformed regarding the measurement and monitoring of the whole balance sheet and portfolios determined by the Parent Bank.

Liquidity Risk

In order to put forward the liquidity risk of the Parent Bank, measurement, monitoring, limiting, stress tests and scenario analyses suitable to positions structures and complexity are carried out and the results are periodically reported.

For the purpose of measuring and monitoring activities of liquidity risk, Parent Bank realizes “Liquidity Gap Analysis”, “Behavioral Liquidity Gap Analysis”, “Average Maturity Analysis” and “Deposit Analysis”. Liquidity Gap Analysis is done based on time to maturity of assets and liabilities. Deposit Analysis is applied separately for time deposits and demand deposits. Also, for the purpose of the evaluation of the discount rates of Parent Bank’s expected cash flows based on each position and each product, and after adjustment its potential liquidity needs on the basis of the maturity groups in line with the Parent Bank’s liquidity creation capacity, liquidity risk stress test is done. For liquidity risk, legal reporting is also done weekly.

Interest Rate Risk On Banking Accounts:

It is conducted to perform measurements, limiting, scenario analysis and stress tests that are suitable for structure and complexness of positions so as to be revealed interest rate on banking accounts that Parent Bank can face with and report the findings cyclically.

It is made periodically Repricing Gap Analysis, Net Interest Margin/Revenue Analysis and Duration Analysis based on whole balance sheet intended for measurement and monitoring operations of interest rate on banking accounts and Parent Bank’s economic capital adequacy is observed. Repricing Gap Analysis is applied based on assets and liabilities’ time to repricing and Net Interest Margin/Revenue Analysis is applied based on balance sheet items’ time to repricing. Duration Analysis is made through being weighted with quantities of periods that are calculated with effective duration method of assets and liabilities. It is revealed effect of important fluctuations, exchange rates, prices and interest rates in stress tests for interest rate on banking accounts. Also, it is made monthly legal reportings intended for interest rate on banking accounts.

c) Risk Reporting and Scope and Qualification of the Measurement Systems (Continued)

Market Risk

In order to put forward the possible interest risks resulted from the banking accounts, the Parent Bank carries out measurement, monitoring, limiting, stress testing and scenario analyses in accordance with the position structure and complexity of the operations and reports the results periodically.

In the Parent Bank, the amount subject to the market risk is calculated monthly by using Standard Method as per monthly periods within the context of legal reporting. This amount is included in Bank’s Standard Capital Adequacy Ratio.

Excluding Standard Method, Daily Value at Risk (“VAR”) forecasts are made as per daily period for buy - sell accounts and are reported to the related units. Backward testing is performed so as to measure performance of used model. Also, Parent Bank performs as per daily and monthly periods stress tests and scenario analysis so as to observe the effect of excessive market fluctuations that are not covered by models over the Parent Bank’s financial position.

Market risk exposure is limited with VAR based limit (interest rate and currency risk limit) within the context of “Regulation for Market Risk Management”. These limits are daily monitored.

Operational Risks

Operational risk represents the possibility of damage from inadequate or failed internal processes, people and systems or from external events and including legal risks. The Operational Risk Management Services in the Bank in order to ensure compliance with Basel II, are carried out with the regulations issued on 28 June 2012 by the BRSA, revised in accordance with the Parent Bank’s “Operational, Reputational and Strategic Risk Management Regulations”.

- The amount subject to operational risk is calculated by Basic Indicator Approach within the scope of “Communiqué on Measurement and Assessment of Capital Adequacy of Banks” in order for keeping adequate shareholder’s equity against losses that could arise due to operational risks in the Parent Bank, and is reported to BRSA based on yearly.
- Operational risk profile in the Parent Bank is monitored with several effective methods. Actualized operational risks are followed by “Operational Risk Loss Database” which is compatible with accounting system. Advanced Measurement Approach is performed in scope of calculation of economic capital and development of approach is performed.
- So as to be determined the operational risk levels of branches, studying of “Operational Risk Map” are carried out for use in Internal Control Audit Program.
- An integrated risk mainframe is instituted within the scope of risks management arising from information technologies. In this context, a database regarding Information Technologies risks is constituted and actualized risks and actions taken are monitored via the database.
- By being revised of the Parent Bank Business Continuity Plan, that possible risks that may occur in activities due to corruption and its potential effects evaluated are documented as “Business Impact Analysis”.
- Risk arising from purchase of services provided from support service organizations for continuity has been evaluated with the “Regulation on Procurement of Support Services of Banks” published by the BRSA. In this context, Risk Management Program was revised and Risk Analysis Reports regarding support services taken by the Parent Bank are being prepared.

c) Risk Reporting and Scope and Qualification of the Measurement Systems (Continued)

Credit Risk

As of 1 July 2012, BASEL II legal reporting process based on Standard Method is started in calculation of Credit Risk legal capital need.

In the Parent Bank, it was constituted scoring models for individual customers, rating for Corporate, and Entrepreneurial customers with the object of customer evaluation within the scope of centralization of credit risk. The studies regarding these models' validation are conducted by Internal Control and Risk Management Group Presidency as independently from Units that have executive actions. It is also made analysis for performance measurement and accuracy with statistical methods.

In the Parent Bank, in base of segments, risk limits are framed at credit risk weighted assets and are monitored monthly based.

In the Parent Bank, based on general and sub accounts, credit portfolios' improvement tracking portfolio's improvement and loans under close monitoring are analyzed periodically. Also, it is made vintage analysis for real estate and consumer loans so as to credit monitoring and comparing past performances.

d) Procedures On Risk Management And Risk Mitigation Policies With Regular Control Of Their Effectiveness

In order to prevent the negations, the Parent Bank limits the risk limits with the related risk profile and risk toleration.

Risk limits are determined and approved by the Board of Directors by taking General Manager, Audit Committee and Executives' offers.

Risk limits are determined compatible with risk levels, operations, size of products and services and complexness of the Parent Bank. Limits are reviewed regularly, adapted according to changes in market conditions, Bank strategy and risk appetite and monitored cyclically.

In addition, derivative transactions are made by the Parent Bank, in order to obtain long term liabilities and limit the interest risks occurred from liquidity and banking accounts.

The Parent Bank reduces its risks according to basic financial method, and financial commitments are daily assessed. Credibility of guarantors are monitored and assessed as part of credit revision maturities.

As of the balance sheet date, according to CBRT’s Communiqué about Required Reserves No. 2015/19, the required reserves ratios for commercial banks operating in Turkey are as follows: for demand deposits, notice deposits and for deposits up to 1-month maturity, and for deposits up to 3-months maturity 11,5%; for deposits up to 6-months maturity 8,5%; for deposits up to 1-year maturity 6,5%; for deposits 1-year and longer maturity 5%; for TL liabilities other than deposits up to 1-year maturity 11,5%; for TL liabilities other than deposits between 1- and 3-years maturity 8%; for TL liabilities other than deposits more than 3-years maturity 5%; for FC deposit accounts, demand deposits, up to 1-month, up to 3-months, up to 6-months and up to 1-year maturities 13%; for FC deposit accounts with 1-year and longer maturity 9%, for FC liabilities other than deposits up to 1-year maturity 13%; for FC liabilities other than deposits up to 3-years maturity 11%; and for FC liabilities other than deposits more than 3-years maturity 6%.

According to the press release of CBRT held on 21 October 2014, interest payment for reserve requirement will be commenced from the November 2014 maintenance period. In addition, according to Press Release of CBRT on Remuneration of Foreign Currency Required and Free Reserves numbered 2015/35, the implementation of remuneration for US dollars denominated required reserves, reserve options and free reserves held at the Central Bank of the Republic of Turkey will start as of 5 May, 2015.

As of 31 March 2015, total reserve requirement of the Group is TL 33.384.122 including Central Banks abroad (31 December 2014: TL 28.468.561).

6. Information on held-to-maturity investments: (Continued)

d) Movements of held-to-maturity investments: (Continued)

Within the year 2008, the Parent Bank has reclassified securities previously classified in available for sale portfolio with nominal values of TL 23.630.115, EUR 717.616 thousand and USD 1.483.317 thousand to held-to-maturity portfolio with fair values of TL 22.971.669, EUR 702.950 thousand and USD 1.562.742 thousand respectively which have been taken into consideration as book values after reclassification. The Bank has also reclassified securities previously classified in financial assets at fair value through profit and loss portfolio with nominal values of EUR 37.951 thousand and USD 45.501 thousand to held-to-maturity portfolio with fair values of EUR 37.178 thousand and USD 62.311 thousand respectively which have been taken into consideration as book values after reclassification in accordance with the amendment of TAS 39 “Turkish Accounting Standard for Financial Instruments: Recognition and Measurement” published in the Official Gazette No. 27040 dated 31 October 2008 by the Public Oversight Accounting and Auditing Standards Authority (“POA”).

Revaluation differences of reclassified available for sale securities before deferred tax are TL 68.984, EUR (23.067) thousand and USD (15.207) thousand respectively and are recorded under shareholders’ equity. These balances will be amortized until the redemption date of related securities using straight-line method and recorded as interest income or expense. At the end of balance sheet date, negative revaluation differences which are accounted under shareholders’ equity are USD 12.809 thousand and EUR 3.926 thousand respectively.

As of balance sheet date, the total fair values of reclassified held for trading securities to held to maturity securities are EUR 31.277 thousand and USD 73.770 thousand respectively.

If the reclassification from the held for trading securities portfolio to the held to maturity had not been performed, income accrual amounting to TL 16.450 would have been recorded. As of 31 March 2015, the reclassification from held for trading securities to held to maturity investments has an income statement impact of TL (38.009).
