To the Board of Directors of Türkiye Cumhuriyeti Ziraat Bankası A.Ş.

Report on the Unconsolidated Financial Statements

We have audited the accompanying unconsolidated balance sheet of Türkiye Cumhuriyeti Ziraat Bankası A.Ş. ("the Bank") as at 31 December 2015 and the related unconsolidated statement of income, unconsolidated income and expense items under shareholders' equity, unconsolidated statement of changes in shareholders' equity, unconsolidated statement of cash flows for the year then ended and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Unconsolidated Financial Statements

Bank management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with the "Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Legislation which includes "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006, other regulations on accounting records of Banks published by BRSA, circulars and interpretations published by BRSA, and Turkish Accounting Standards for the matters not regulated by the aforementioned legislations and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditor's Responsibility

Our responsibility is to express an opinion on these unconsolidated financial statements based on our audit. Our audit was conducted in accordance with the "Regulation on Independent Audit of Banks" published by the BRSA on the Official Gazette No.29314 dated 2 April 2015 and Independent Auditing Standards that are part of Turkish Standards on Auditing published by the Public Oversight Accounting and Auditing Standards Authority ("POA"). Those standards require that ethical requirements are complied with and that the audit is planned and performed to obtain reasonable assurance whether the financial statements are free from material misstatement.

An independent audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on independent auditor's professional judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to error or fraud. In making those risk assessments, the independent auditor considers internal control relevant to the bank's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the bank's internal control. An independent audit includes also evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by bank's management, as well as evaluating the overall presentation of the financial statements.

We believe that the independent audit evidence we have obtained during our audit is sufficient and appropriate to provide a basis for our audit opinion.

Basis for the qualified opinion

As mentioned in Section II. Note 7.d1 of Explanations and Notes to the Unconsolidated Financial Statements; as of the balance sheet date, the accompanying unconsolidated financial statements include a free provision amounting to TL1.240.400 thousand (TL79.600 thousand of this provision amount was reversed from the income statement in the current year), provided by the Bank management in line with the conservatism principle considering the circumstances that may arise from any changes in the economy or market conditions.

Qualified Opinion

In our opinion, except for the effect of the matter described in the basis for the qualified opinion paragraph above, on the unconsolidated financial statements, the accompanying unconsolidated financial statements present fairly, in all material respects, the financial position of Türkiye Cumhuriyeti Ziraat Bankası A.Ş. as at 31 December 2015 and its financial performance and its cash flows for the year then ended in accordance with BRSA Accounting and Reporting Legislation.

Report on Other Responsibilities Arising From Regulatory Requirements

In accordance with subparagraph 4 of Article 402 of the Turkish Commercial Code No. 6102 (“TCC”); no significant matter has come to our attention that causes us to believe that the Bank’s bookkeeping activities for the period 1 January - 31 December 2015 are not in compliance with TCC and provisions of the Bank’s articles of association in relation to financial reporting.

In accordance with subparagraph 4 of Article 402 of the TCC; the Board of Directors submitted to us the necessary explanations and provided required documents within the context of audit.

Additional Paragraph for Convenience Translation

The effects of differences between accounting principles and standards explained in detail in Section Three and accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES

I. BASIS OF PRESENTATION

The unconsolidated financial statements are prepared in accordance with the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette No. 26333 dated 1 November 2006 by the BRSA (“Banking Regulation and Supervision Agency”) which refers to “Turkish Accounting Standards” (“TAS”) and “Turkish Financial Reporting Standards”(“TFRS”) issued by the Public Oversight Accounting and Auditing Standards Authority (“POA”), and other decrees, notes and explanations related to the accounting and financial reporting principles published by the BRSA (all referred as “BRSA Principles”). The format and content of the publicly announced unconsolidated financial statements and notes to these statements have been prepared in accordance with the “Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements”, published in the Official Gazette No. 28337, dated 28 June 2012.

The format and content of the publicly announced unconsolidated financial statements and notes to these statements have been prepared in accordance with the “Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements”, published in the Official Gazette No. 28337, dated 28 June 2012 and amendments to these Communiqué. The bank maintains its books in Turkish Lira in accordance with the Banking Law, Turkish Commercial Code and Turkish Tax Legislation.

The unconsolidated financial statements have been prepared in TL, under the historical cost convention as modified in accordance with inflation adjustments applied until 31 December 2004, except for the financial assets and liabilities carried at fair value.

Unless otherwise specified, all balances in the financial statements and footnotes are expressed in Thousand Turkish Lira (“TL”).

The preparation of financial statements requires the use of certain critical estimates on assets and liabilities reported as of balance sheet date or amount of contingent assets and liabilities explained and amount of income and expenses occurred in related period. Although these estimates rely on the management’s best judgment, actual results can vary from these estimates. Judgements and estimates are explained in related notes.

The accounting policies and valuation principles applied in the preparation of these financial statements are defined and applied in accordance with TAS. Those accounting policies and valuation principles are explained in Notes II. to XXIV. below.

Additional paragraph for convenience translation into English:

The differences between accounting principles, as described in the preceding paragraphs, and accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying unconsolidated financial statements. Accordingly, these unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

II. EXPLANATIONS ON STRATEGY OF USING FINANCIAL INSTRUMENTS AND FOREIGN CURRENCY TRANSACTIONS

Main activity of the Bank comprises of banking services, such as; launching all kinds of cash and non-cash loans in terms of Turkish Lira and foreign currencies, performing transactions in local, international money and capital markets, supporting agricultural sector financially and collecting deposits in Turkish Lira and foreign currencies. The Bank’s main funding source is Turkish Lira deposits, repurchase agreements, issued securities, shareholders’ equity and government funds transferred from the budget, ministerial offices and other public resources to the Bank by means of legislative and administrative decisions. The Bank directs these funds to assets with high return and low risk. These assets include predominantly domestic government bonds and loans. The Bank’s liquidity structure covers the financing of all liabilities at due date. Although most of the sources in the Bank’s balance sheet are with fixed interest rate, some of the securities in assets have floating interest rate. Since the remaining time to re-pricing date of sources is short, cost of sources is repriced in short periods based on the market conditions. Moreover, the Bank adopts high return principle for its long-term placements.

Loans and securities are instruments from which the Bank gets returns above the average returns within its lines of activity. Letter of guarantees, bank loans, commercial letter of credits, repayment commitments for cheques and commitments for credit card limits are the most important risk areas within the off-balance sheet accounts.

Since the Bank’s total debt to the market is low among its total liabilities, the Bank can borrow easily from short-term markets, such as; Borsa Istanbul (“BIST”), Central Bank of the Republic of Turkey, Money Market or Interbank Money Market in case of need. In case of a liquidity crisis, the deposit base of the Bank is not presumed to be significantly affected from such a case since the Bank is a public bank with an extensive branch network.

Cost and return of foreign currency assets are subject to a close follow up. Positive margin of profit is sustained by adjusting deposit interest rates in line with the market interest rates.

Foreign currency operations are recognized at transaction date and valued by Bank’s prevailing counter currency buying rate. At period ends, foreign currency asset and liability balances are valued at the Bank’s period end counter currency buying rates and translated to Turkish currency and the resulting exchange differences are recognized as a “foreign exchange gain or loss”.

Foreign currency capital amounts transferred to the equity participations operating abroad are evaluated and presented on the financial statements with the exchange rate on the date of the transfer.

Assets and liabilities and income statement items of the abroad branches of the Bank are translated into Turkish Lira with the Bank’s prevailing counter currency buying rates at the balance sheet date.

III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES, SUBSIDIARIES AND JOINT VENTURES

Based on the TAS 27 “Turkish Accounting Standard for Consolidated and Separate Financial Statements”, Turkish Lira denominated investments in associates and subsidiaries are accounted at cost value and are reflected to the unconsolidated financial statements after deducting the provision for impairment, if any.

Investments related to subsidiaries and joint ventures operating abroad in foreign currency are followed by their fair values. For these subsidiaries, fair value is determined by valuation reports, TL equivalents of investments related to subsidiaries are fixed as of revaluation date and revaluation differences added to subsidiaries’ values are recognized in “Marketable Securities Value Increase Fund” under shareholders’ equity.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

IV. EXPLANATIONS ON FORWARD TRANSACTIONS, OPTIONS AND DERIVATIVE INSTRUMENTS

The Bank’s derivative transactions mostly include currency and precious metal swaps and foreign currency forward contracts. The Bank has no embedded derivative instruments separated from the articles of association.

The derivative instruments of the Bank are classified as trading or hedging instruments in accordance with Turkish Accounting Standard on TAS 39 “Financial Instruments: Recognition and Measurement”. The Bank has no derivative instruments for hedging purposes as of the balance sheet date. Accordingly, the Bank is not subject to conditions whether derivative instruments do not meet the determination criteria for being classified as hedging instruments or whether such derivative transactions are finalized through sale, term expiry or fulfillment of obligations under the contract.

Derivative instruments are recognized at fair value on contractual date and subsequently re-valued at their fair values and associated with the income statement. If the fair value of derivative financial instruments is positive, it is disclosed under the main account “Financial Assets at Fair Value Through Profit or Loss” in “trading derivative financial assets” and if the fair value difference is negative, it is disclosed under “financial liabilities at fair value through profit or loss” in “trading derivative financial liabilities”. Fair value changes are recorded under “Derivative Financial Transactions Gains/Losses” in income statement.

The fair values of the derivative financial instruments are calculated using quoted market prices or by using discounted cash flow models.

Liabilities and receivables arising from the derivative instruments are followed in the off-balance sheet accounts from their contractual values.

V. EXPLANATIONS ON INTEREST INCOME AND EXPENSE

Interest income and expenses are recognized on an accrual basis using the internal rate of return method in conformity with TAS 39 “Financial Instruments: Recognition and Measurement”. In accordance with the Communiqué on “Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions” came into force after being published in the Official Gazette numbered 26333 dated 1 November 2006, no interest accrual is calculated for non-performing loans. Realized interest accruals calculated for non-performing loans and recognized as income although not collected are reversed and interest income related to these loans is recognized as interest income only when collected.

VI. EXPLANATIONS ON FEE AND COMMISSION INCOME AND EXPENSE

Commission income from banking, agency and intermediary services is recognized as income on the date they are collected. Whereas, commission income from individual, corporate and entrepreneurial cash loans are recognized on an accrual basis by using internal rate of return method and transferred to the income statement in accordance with the matching principle. Other fees and commission expenses are recorded as expense on the date they are paid.

VII. EXPLANATIONS ON FINANCIAL ASSETS

Financial instruments comprise financial assets and liabilities and derivative instruments. They are included in the balance sheet of the Bank, if the Bank is a legal party to these instruments.

Financial assets mainly constitute the Bank’s commercial activities and operations. These instruments have the ability to expose, affect and diminish the liquidity, credit and interest rate risks in the financial statements.

Financial assets are classified as investments held-to-maturity, bank loans and receivables, financial assets available for sale or held-for-trading at initial recognition.

Sale and purchase transactions of financial assets are accounted for using the settlement date basis.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VII. EXPLANATIONS ON FINANCIAL ASSETS (Continued)

a. Financial assets at fair value through profit or loss:

Financial assets, which are classified as “financial assets at fair value through profit or loss”, are trading financial assets and are either acquired for generating profit from short-term fluctuations in the price or dealer’s margin, or are the financial assets included in a portfolio in which a pattern of short-term profit making exists independent from the acquisition purpose.

Trading securities are initially recognized at cost. The cost of the securities is recognized as fair value. Subsequently, trading securities are carried at fair value in the financial statements.

Government bonds and treasury bills included in held for trading and available for sale portfolios traded in BIST are carried at weighted average exchange prices of BIST as of the balance sheet date and those securities that are not traded in BIST are carried at prices of the Central Bank of the Republic of Turkey. Eurobonds are carried at prices in the over the counter markets. The positive difference between the cost and fair value of held for trading securities is accounted under “Other Interest and Income Accrual” and the negative difference is accounted under “Impairment Loss for Marketable Securities” account. The positive difference between the cost and amortized cost is accounted under “Interest income” account, the negative difference is accounted as impairment loss. The positive difference between the fair value and amortized cost is accounted under “Profit from Capital Market Operations” account and the negative difference is accounted under “Loss from Capital Market Operations” account.

b. Held-to-maturity financial assets:

Investments held to maturity include financial assets other than Bank loans and receivables and those where there is an intention of holding until maturity and the relevant conditions for fulfillment of such intention, including the funding ability, and where there are fixed or determinable payments with fixed maturity. Marketable securities classified as Financial Assets Held to Maturity may subject to exchange-repurchase bids or refundment transactions within the scope of early redemption.

Investments held to maturity are subsequently measured at amortized cost with internal rate of return, and they are accounted by setting forth provision for impairment loss (impairment loss expense) or by posting interest income accrual.

There are not any financial assets that are previously classified as investments held-to-maturity but prohibited to be classified in this portfolio for two years because of incompliance with the principles of financial assets classification.

Interests received from investments held to maturity are recognized as an interest income.

Held to maturity assets are initially recognized at cost value.

c. Loans and receivables:

Bank loans and receivables represent financial assets other than those held for trading or held for sale in a short period generated through providing cash, assets or rendering services to the debtor.

Bank loans and receivables are initially carried at cost value. Bank loans are measured at amortized cost with internal rate of return. Short-term and long-term loans are grouped as open or guaranteed; FC loans are recognized with fixed price and at period-ends revalued by the counter foreign exchange buying rate of the Bank. Foreign exchange indexed loans are used as TL by the valid counter foreign exchange buying rate of the Bank at usage date. Repayments of these loans are collected as calculated TL value by the valid counter foreign exchange selling rate of Bank at installment date.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VII. EXPLANATIONS ON FINANCIAL ASSETS (Continued)

c. Loans and receivables: (Continued)

The Bank sets specific and general provisions for loans and other receivables in accordance with the regulations stated by the Communiqué published on the Official Gazette numbered 26333 and dated 1 November 2006 on “Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions”. In the previous periods, the bank allocated special provisions considering the minimum rates and prudence principle stated in "Regulation on the Procedures and Principles on Determining the Characteristics of the Loans and other Receivables by the Banks and the provisions that would be Set Aside for them" regardless of such loan collaterals; however, in line with the provision of the General Directorate Authority Approval dated 29 June 2012 and of the clause (8) of Article 10 of the regulation stating that "based on the reliability and prudence assumptions defined in the Communiqué on Conceptual Framework regarding Preparation and Presentation of Financial Statements promulgated in the Official Gazette No. 25702 dated 16 January 2005, special provision may be allocated to the extent of the amount of the said non-performing receivable on condition not to be less than the special provision amounts applicable for the group in which the non-performing receivable is included regardless of the amount of collateral", the bank started to set aside special provisions corresponding to 50% of the non-performing receivable amount as of the date of including the non-performing receivables in the Third Group and special provisions corresponding to 100% of the non-performing receivable amount as of the date of including the non-performing receivables in the Fourth and Fifth Group. Allocated provisions are deducted from the income for the period. If the receivables for which provisions were set in the previous years are collected, provision for allowances are released and recognized as income under “Other Operating Income” account. Releases of current period provisions are made by the reversal of the amount from the “Provision for Impairment of Loans and Other Receivables” account.

d. Available-for-sale financial assets:

Available-for-sale financial assets are defined as financial assets other than the ones classified as “Loans and Receivables”, “Held-to-Maturity Assets” or “Financial Asset at Fair Value Through Profit or Loss”.

Available for sale assets are initially recognized at cost value. The cost of the securities is recognized as fair value.

Available-for-sale financial assets are subsequently re-measured at fair value in financial statements.

The difference between fair value and cost of available for sale financial assets is booked as interest income accruals or impairment provision. Furthermore, amortized cost using the effective interest method and cost value is compared and the difference is booked as interest income or impairment expense. Fair value and amortised cost of these securities are compared and the difference is recognized in shareholders’ equity as “Marketable Securities Value Increase Fund”. When these financial assets are disposed of or impaired the related fair value differences accumulated in the shareholders’ equity are transferred to the income statement.

When there is no price quotation in an active market for price formations to constitute the basis of the fair value or in such a situation when the reasonable value is not measured confidentially; the fair value of the available-for-sale financial assets are carried at amortised cost using the effective interest method or appropriate valuation methods.

VIII. EXPLANATIONS ON IMPAIRMENT OF FINANCIAL ASSETS

A financial asset or a group of financial assets is subject to impairment loss only if there is an objective indication that the occurrence of one or more than one event (“loss event”) subsequent to the initial recognition of that asset has an effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group.

If revalued amounts of financial assets at fair value through profit/loss is less than the prior revalued amounts, initially, value of prior records regarding the value increase are adjusted according to the recent value and if the impairment loss is more than the prior value increase, difference is reflected to “Impairment Expense for Marketable Securities”. If there is an increase in value, initially recognized impairment loss is reversed.

If financial assets available for sale are subject to permanent impairment, the amount is charged to “Impairment Expense for Marketable Securities” account in accordance with the related Turkish Accounting Standard.

If subsidiaries, associates, entities under common control and assets held to maturity are subject to permanent impairment, the amount is charged to “Impairment Expense for Subsidiaries, Associates, and Assets Held to Maturity”.

The principles for the accounting of provisions for loans are explained in detail in Note VII. of this section.

Loans and other receivables are classified in accordance with the Communiqué on “Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions” published in the Official Gazette numbered 26333 and dated 1 November 2006.

IX. EXPLANATIONS ON OFFSETTING OF FINANCIAL ASSETS AND LIABILITIES

Financial assets and liabilities shall be offset and the net amount presented in the balance sheet when, and only when the Bank currently has a legally enforceable right to set off the recognized amounts or intends either to collect/settle on a net basis or to realize the asset and settle the liability simultaneously.

X. EXPLANATIONS ON SALES AND REPURCHASE AGREEMENTS AND SECURITIES LENDING TRANSACTIONS

Securities subject to repurchase agreements are classified under “held for trading”, “available for sale” and/or “held-to-maturity” portfolios and they are valued based on the revaluation principles of the related portfolios. Funds obtained by these agreements are followed under the “Funds from Repurchase Agreements” account in the balance sheet and interest expense accrual is calculated using the internal rate of return method.

Funds given against securities purchased under agreements (“Reverse Repo”) to resell are accounted under “Receivables from Reverse Repurchase Agreements” on the balance sheet and interest income accrual is calculated using internal rate of return method.

As of the balance sheet date, there are no securities lending transactions.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XI. INFORMATION ON ASSETS HELD FOR SALE AND RELATED TO DISCONTINUED OPERATIONS AND EXPLANATIONS ON LIABILITIES RELATED WITH THESE ASSETS

Tangible assets acquired in consideration of receivables are accounted for in accordance with the requirements of the Communiqué on “Methods, Principles for Purchase and Sale of Precious Metal and Sale of Goods and Immovables obtained in Return of Receivables” published in the Official Gazette numbered 26333 and dated 1 November 2006 and these assets are subject to revaluation by no means.

A discontinued operation is a part of the Bank’s business classified as sold or held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement.

The Bank has no discontinued operations.

XII. EXPLANATIONS ON GOODWILL AND OTHER INTANGIBLE ASSETS

As at the balance sheet date, the Bank has no goodwill within the financial statements.

Other intangible assets are measured at cost on initial recognition and any directly attributable costs of setting the asset to work for its intended use are included in the initial measurement. Subsequently, intangible assets are carried at historical costs after the deduction of accumulated depreciation and the provision for value decreases.

Other intangible assets are amortized by using the straight line method based on their useful lives. Useful lives of other intangible assets are determined by the consideration of items as; useful life of asset, maintenance costs incurred to obtain expected economic benefit from assets and technical, technological or any other type of obsolescence. Amortization method used in the current period is not subject to any change. Depreciation period is 5 years (20% annual depreciation rate) for establishment/formation expenses for other intangible assets with uncertain leasing period or leasing period over 5 years and depreciation rate is proportional with period for those with certain leasing period.

The Bank recognizes its software costs incurred under the intangible assets-intangible rights account and the expenses that do qualify as development are added to software’s initial costs and amortized over 3 years considering the useful lives. The Bank has determined estimated useful lives of the intangible assets between 3 and 15 years and it applies depreciation rates between 6,67% to 33,3 %.

XIII. EXPLANATIONS ON PROPERTY AND EQUIPMENT

Property and equipment is measured at its cost when initially recognised and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement. The Bank’s tangible fixed assets purchased before 1 January 2005 are carried at inflation adjusted cost in the balance sheet before 31 December 2004 and its tangible fixed assets that are purchased subsequent to 1 January 2005 are valued at historical cost. As of 31 January 2014 the Bank has changed its accounting policies and has decided to pursue the real estates registered in its portfolio at fair values. In this context, for all real estates registered in the Bank’s inventory, appraisal study was carried by independent expertise companies, and from 1 January 2014 valuation results are reflected in the accounting records. As a result of the fair valuation of the real estates which is included in tangible fixed assets, TL 3.607.167 revaluation difference is followed under shareholders’ equity as of 31 December 2015. As of 30 January 2014, the net book amount of real estates of the tangible assets before valuation was TL 816.950. Subsequent to recognition, tangible fixed assets are presented in financial statements at cost less any accumulated depreciation and impairment loss, if any. Tangible fixed assets are amortized by using the straight-line method over their estimated useful lives. No changes made in the current period regarding depreciation method. The Bank has begun to classify the leasehold improvements on operational leases under tangible fixed assets in the financial statements dated 31 March 2015, which was previously being followed under intangible assets.

Applied depreciation rates are as follows;

Buildings	: 2%
Vehicles and Fixtures	: 2 - 20%

Gains or losses emerging from the disposal of tangible assets are recognized in the profit or loss account as difference between net revenue of a related intangible asset and its net book value.

Ordinary maintenance and repair expenses of tangible fixed assets items are recognized as expenses. Investment expenditures that increase the future benefit by enhancing the capacity of tangible assets are capitalized. The investment expenditures include the cost components which are used either to increase the useful life or the capacity of the asset or the quality of the product or to decrease the costs.

There are no mortgages, pledges or similar precautionary measures on tangible fixed assets or commitments given for the purchase or any restrictions designated for the use of those tangible fixed assets.

XIV. EXPLANATIONS ON LEASING TRANSACTIONS

Financial Lease

The Bank, as the lessee, recognizes its leasing operations in accordance with the requirements of TAS 17 “Leases”. Fixed assets that are acquired under financial leasing are amortized with respect to the rates used for directly acquired assets that have similar nature. Assets held under financial leases are recognized under the tangible fixed assets account and are depreciated on annual and monthly basis with respect to their useful lives. Principal and installment paid for tangible fixed assets that are acquired under financial leasing are charged to liability account “Finance Lease Payable”, whereas interests are recognized in “Deferred Financial Leasing Expenses” account. At installment payments, principal and interest amount of installment amount are debited to “Financial Lease Payable” account, whereas interest is credited in “Deferred Financial Leasing Expenses” account and recorded to the “Other Interest Expenses”.

The Bank does not perform financial operations as “Lessor”.

Operational Lease

Leases, in which the majority of risk and return of property belongs to lessor, are classified as operating lease. Payments that are made as operating leases are accounted in income statements with linear method during the lease period.

XV. EXPLANATIONS ON PROVISIONS, CONTINGENT ASSET AND LIABILITIES

Provisions other than the specific and general provisions set for loans and other receivables and provisory liabilities are accounted in accordance with TAS 37 “Turkish Accounting Standard on Provisions, Contingent Liabilities and Contingent Assets Corresponding”.

The Bank provides provision in case of an existing liability (legal or implicit) as a result of an incident that took place in the past, there is possibility of disposal of assets that bring economic benefit and the liability is measurable. When a reliable estimate of the amount of obligation cannot be made, it is considered that a “contingent” liability exists and it is disclosed in the related notes to the financial statements.

For transactions that can affect financial structure, provisions are provided by using the existing data if they are accurate, otherwise by using the estimates.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XV. EXPLANATIONS ON PROVISIONS, CONTINGENT ASSET AND LIABILITIES (Continued)

As of the balance sheet date, there are no probable contingent liabilities resulting from past events whose amount can be reliably measured.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements in which the change occurs.

XVI. EXPLANATIONS ON OBLIGATIONS RELATED TO EMPLOYEE RIGHTS

a. Employment Termination and Vacation Benefits

The Bank recognizes its liabilities of employment terminations and vacation benefits in accordance with TAS 19 “Employee Benefits” and estimates the net present value of future liabilities arising from employment terminations and vacation benefits and reflects this provision amount in the financial statements.

Under the Turkish legislation as supplemented by union agreements, Employment Termination Benefit payments are made in case of retirement or employment termination or resignation depending on the arise of the legal conditions. According to the related legislation, depending on the status and position of the employee in the Bank and social security institution, Employment Termination Benefit Provision is calculated in two ways; if the employee is a state employee, the calculation is based on retirement pension for the working period of the state employee, and if the employee is a blue-collar worker the calculation is based on the final salary at the date of retirement or leave (to the extent that the payments and/or salary amount does not exceed the Employment Termination Benefit Provision ceiling).

The Bank uses independent actuaries in determining liability, and also makes assumptions relating to the discount rate, future salary increases, and the employee turnover. These assumptions are reviewed on an annual basis. Retirement benefit obligation is TL 683.269 as of 31 December 2015. (31 December 2014: TL 666.464)

	Current Period	Prior Period
Discount rate (%)	10,70	8,60
Expected inflation rate (%)	7,00	6,00

Communiqué on “Turkish Accounting Standard (TAS19) about Benefits for Employee (No:9)” published in Official Gazette by Public Oversight Accounting and Auditing Standards Authority (“POA”) on 12 March 2013 numbered 28585, was entered into force for the account periods starting after 31 December 2012 on accounting treatment of actuarial profit and loss resulting from changes in actuarial assumptions or differences between actual and actuarial assumptions. Actuarial loss amounting to TL 85.078 was classified as “Other Comprehensive Expense” in the financials. (31 December 2014: TL 71.114 actuarial loss)

Unused vacation liability is calculated based on number of unused vacation days which is calculated by subtracting used vacation days of all personnel from legally deserved vacation days.

The Bank is not employing its personnel by means of limited-period contracts.

XVI. EXPLANATIONS ON OBLIGATIONS RELATED TO EMPLOYEE RIGHTS (Continued)

b. Liability of T.C. Ziraat Bankası and T. Halk Bankası Members Pension and Relief Fund (TZHEMSAN)

Some of the Bank’s personnel are the members of T.C. Ziraat Bankası and T. Halk Bankası A.Ş. Employees Pension Fund (“Fund”) which was established by 20th provisional article of Social Security Law Act numbered 506. As of 31 December 2015 the number of personnel who benefit from the Fund, excluding dependents, is 21.347 (2014: 18.220). 17.644 of these members are active while 3.703 are passive members. (2014: 14.572 active members, 3.648 passive members).

In accordance with 23rd provisional clause of the Banking Law numbered 5411, the pension fund established within Social Security Law is expected to be transferred to the Social Security Institution by three years following the declaration of the Banking Law numbered 5411. Procedures and principles of the transfer are determined by the decision of Council of Ministers numbered 2006/11345 dated 30 November 2006. However, the 1st paragraph of the 1st article of the 23rd provisional clause of Banking Law numbered 5411 allowing pension funds to be transferred to Social Security Institution (“SSI”) is annulled following the resolution of Constitutional Court declared in the Official Gazette dated 31 March 2007 numbered 26479 E.2005/139, K.2007/13 and K.2007/33.

With the publication of the reasoning of the decision, the Grand National Assembly of Turkey (“GNAT”) started to work on new legal arrangements regarding the transfer of the fund members to SSI and the related articles of the “Law Regarding the Changes in Social Insurance and General Health Insurance Law and Other Related Laws and Regulations” No 5754 (“the New Law”) regulating the transfer of the funds were approved by the GNAT on 17 April 2008. The New Law was published in the Official Gazette dated 8 May 2008, numbered 26870 and came into force.

According to the new law Bank pension funds participants and salaried members or the rightful owners would be transferred to Social Security Institution and would be subject to its legislation within three years beginning from the date of publication without any required transaction. Three years transfer period would be extended by two years at most with the decision of Council of Ministers. In accordance with the related legislation, as of the transfer date, the cash value of the liabilities will be calculated by considering the income and expenses of the transferred funds by the insurance branches and by using the actuarial interest rate of 9,80%. Moreover, the unfulfilled other social rights and payments existed in the settlement deeds of the subjected pension funds of the transferred participants, members or the rightful owners will be continued to be fulfilled by the employer entities of the funds and its participants.

In accordance with 58th article and 7th provisional article of the Banking Law, restricting banks from transferring any funds to the pension funds in order to compensate the actuarial deficits effective from 1 January 2008, has been delayed up to 5 years.

Based on the Council of Ministers’ decree numbered 2011/1559 and issued in the Official Gazette numbered 27900, dated 9 April 2011, and 20th provisional article of law numbered 506, the deadline for transferring banks, insurance and reinsurance companies, chambers of commerce, chambers of industry, exchange markets and the participants of the funds that were founded for the personnel constituting these entities and the ones having salary or income and the right holders of them to Social Security Institution has been extended for two years.

Besides, the phrase of “two years” in Clause (2), Article 1 of the temporary 20th provision of the law numbered 5510 is revised as “four years” with the law numbered 6283 amending on the Social Insurance and General Health Insurance Law, published in the Official Gazette numbered 28227, dated 8 March 2012.

b. Liability of T.C. Ziraat Bankası and T. Halk Bankası Members Pension and Relief Fund (TZHEMSAN) (Continued)

Based on the Council of Ministers’ decree numbered 2014/6042 and issued in the Official Gazette numbered 28987 dated 30 April 2014, the participants of the funds that were founded for the personnel constituting these entities and the ones having salary or income and the right holders of them to Social Security Institution has been extended for one year.

Lastly "Occupational Health and Safety Law and Other Laws and The Law Amending the Decree Law" No. 6645 dated 23 April 2015, published on Official Gazette and came into force. Also, authority of determination of the transfer date of pension funds participants, people endowed with salary and their right holders, to the Social Security Institution, is left to the Council of Ministers.

The technical balance sheet report as of 31 December 2015 which is prepared in accordance with the new law and the rate determined as 9,80%, concluded no technical deficit arises in the above mentioned fund. Since the Bank has no legal right to hold the present value of any economic benefits available in the form of refunds from Pension Fund or reductions in future contributions to Pension Fund, no asset is recognized in the Bank’s financial statements.

XVII. EXPLANATIONS ON TAXATION

a. Current Tax

“Corporate Tax Law” (“New Tax Law”) No. 5520 was taken into effect after being published in the Official Gazette dated 21 June 2006 No.26205. Many clauses of the “New Tax Law” are effective from 1 January 2006. According to the New Tax Law, the corporate tax rate in Turkey is payable at the rate of 20% as of 1 January 2006. The corporate tax rate is calculated on the total income of the Bank after adjusting for certain disallowable expenses, exempt income (like affiliate gains) and other allowances. No further tax is payable unless the profit is distributed.

Dividends paid to non-resident corporations, which have a place of business or permanent attorney in Turkey or to resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as profit distribution and no withholding tax incurs in such a case.

Corporations are required to pay advance corporate tax quarterly at a rate of 20% on their corporate income. Advance tax is declared by the 14th and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations for the current period is credited against the annual corporation tax calculated on the annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be refunded or used to offset any other financial liabilities to the government.

A 75% portion of the capital gains derived from the sale of equity investments and immovable properties held for at least two years is tax exempt, if such gains are added to paid-in capital in accordance with Corporate Tax Law or held in a special account under shareholders’ equity for five years.

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments with tax authorities. Tax returns are required to be filled and delivered to the related tax office until the evening of the 25th of the fourth month following the balance sheet date and the accrued tax is paid until the end of the same month Tax returns are open for 5 years from the beginning of the year following the balance sheet date and during this period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

XVII. EXPLANATIONS ON TAXATION (Continued)

b. Deferred tax

In accordance with TAS 12 "Turkish Accounting Standards Relating to Income Tax", the Bank calculates and recognizes deferred tax for temporary differences between the bases calculated based on the accounting policies used and valuation principles and that calculated under the tax legislation.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and are accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences. However, deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such assets and liabilities are not recognized as deferred tax liability or asset if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of a deferred tax asset is reviewed at each balance sheet date. Carrying amount of a deferred tax asset can be reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to be applied in the period in which the liability is settled or the asset realized and reflected in the statement of income as expense or income. Moreover, if the deferred tax is related with items directly recorded under the equity in the same or different period, deferred tax is associated directly with equity.

The calculated deferred tax asset and deferred tax liability are presented as net in these financial statements.

The deferred tax benefit is not taken into account in profit distribution in accordance with the relevant circular of BRSA.

XVIII. EXPLANATIONS ON BORROWINGS

The Bank accounts its debt instruments in accordance with TAS 39 "Financial Instruments: Recognition and Measurement". In the following periods, all financial liabilities are carried at amortized cost by using the internal rate of return method. The Bank has no borrowings that require hedging techniques for accounting and revaluation of debt instruments and liabilities representing the borrowings.

If required, the Bank borrows from domestic and foreign real people and entities with debt instruments such as bill/bond issuance. These transactions are recognized at fair value including acquisition costs at the transaction date while accounted with effective interest rate method over their discounted costs in the following periods.

The Bank has issued no convertible bonds and has no instruments representing its own borrowings.

XIX. EXPLANATIONS ON ISSUANCE OF SHARE CERTIFICATES

Since the Bank does not have issued shares, there are no transaction costs related to share issue in the current period.

XX. EXPLANATIONS ON AVALIZED DRAFTS AND ACCEPTANCES

Commitments regarding bill guarantees and acceptances of the Bank are presented in the “Off-Balance Sheet” commitments.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XXI. EXPLANATIONS ON GOVERNMENT GRANTS

There are no government incentives utilized by the Bank as of the balance sheet date.

XXII. CASH AND CASH EQUIVALENTS

Cash and cash equivalents are cash on hand, demand deposits and other highly liquid short-term investments with maturities of 3 months or less following the date of acquisition, which is readily convertible to a known amount of cash, and does not bear the risk of significant amount of value change. The book values of these assets represent their fair values. Cash equivalents and balances regarding banks are valued by the period end counter foreign currency buying rate of the Bank.

For the purposes of the cash flow statement, “Cash” includes cash, effectives, cash in transit, purchased cheques and demand deposits including balances with the Central Bank; and “Cash equivalents” include interbank money market placements and time deposits at banks with original maturity periods of less than three months.

XXIII. EXPLANATIONS ON SEGMENT REPORTING

Information about operating segments which are determined in line with TFRS 8 “Turkish Accounting Standard about Operating Segments” together with organizational and internal reporting structure of the Bank, are disclosed in Note XII. of Section Four.

XXIV. EXPLANATIONS ON OTHER MATTERS

In accordance with the decision taken in the General Assembly of the year 2014, which was carried out on 27 March 2015, from TL 4.050.509 net profit after the deduction of deferred tax income amounting to TL 503.358, which is not subject to distribution, the remaining TL 3.547.151 of the profit for the year 2014, TL 177.358 is transferred to first legal reserve and TL 18.500 is transferred to second legal reserve TL 185.000 is distributed as dividend to employees and TL 106.250 is distributed to Treasury after deducting withholding tax of 15% (TL 18.750) in cash. In this context, TL 3.041.293 of the profit is preserved; dividend payment made to Treasury on 15 April 2015, and within the framework of the dividend to be distributed to employees, at total TL 166.086 is paid. The remaining TL 18.914 from the dividends distributed to the personnel as of 31 December 2015 was transferred to the “profit reserves”.

SECTION FOUR

EXPLANATIONS RELATED TO THE FINANCIAL POSITION OF THE BANK

I. EXPLANATIONS ON THE CAPITAL ADEQUACY STANDARD RATIO

1. The Bank’s unconsolidated capital adequacy ratio, reasons and anticipated solutions in case the ratio is lower than the amount pre-determined by the Communiqué:

The Bank’s unconsolidated capital adequacy ratio calculated in accordance with the “Communiqué on Measurement and Assessment of Capital Adequacy of Banks” is 15,08%. (31 December 2014 :18,22%)

2. The risk measurement methods used for calculation of capital adequacy ratio:

Capital Adequacy Standard Ratio is calculated in accordance with "Communiqué on Measurement and Assessment of Capital Adequacy of Banks" and “Communiqué on Credit Risk Mitigation Techniques” published in the Official Gazette dated 6 September 2014 numbered 29111.

Counterparties/operations related to the credit risk were separated on the basis of risk classes mentioned in "Communiqué on Measurement and Assessment of Capital Adequacy of Banks" and each of them is assigned by the weight of risk. After, they are subject to risk reduction in accordance with the principles of “Communiqué on Credit Risk Mitigation Techniques”, their risk-weighted amount is calculated by multiplying risk weights.

Non-cash loans and commitments, after deduction of specific provisions from them in accordance with “Communiqué on Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves” are included to the calculation of credit risk weighted amount with loan conversion rates presented in article 5 of “Communiqué on Measurement and Assessment of Capital Adequacy of Banks” Assets subject to depreciation and impairment are calculated over their net book values after deducting the relative depreciations and provisions.

Trading accounts and the values deducted from the capital base in the shareholders’ equity computation are excluded in calculation of risk-weighted assets.

Calculations regarding to the counter party credit risk, are made for repurchase agreement and derivative transactions. These transactions are added to the accounts with rates as applied that presented in the amendments of the “Communiqué on Measurement and Assessment of Capital Adequacy of Banks” and “Communiqué on Credit Risk Mitigation Techniques”. Repurchase agreements and derivative transactions that are presented in the banking accounts are added to calculation of the basis of the value at credit risk.

Calculations regarding counter parties credit risks are made with method of basic financial collateral for banking accounts, and for purchase-sale accounts are made with method of extensive collateral. Counter party credit risk amount calculated for purchase-sale accounts is included in the calculations of the amount subject to total market risk.

II. EXPLANATIONS ON THE CREDIT RISK

Credit risk is the possibility of loss that the bank may be exposed due to the partial or complete default of the debtor by not complying to the obligations of the agreement made, or due to the decrease in credit worthiness.

The limits of the credit customers are identified, after combined assessment of various factors like the financial and non-financial information of the credit customers, credit requirements, sectoral and geographical features and, in conformity with the legal legislation, in line with the credit authorization limits of the branches, Regional Managements, Group Presidencies, Department Presidencies, Assistant General Management, General Manager, Credit Committee and Board of Directors.

The average limits identified related the credit portfolio are approved by the Board of Directors and revised when required. The identified limits are allocated by related departments on Regional Managements basis by considering the factors like portfolio structure, potentials of the customers and credit, regional and sectoral characteristics, competencies of the personnel.

In order to prevent the risk intensity on the commercial loan portfolio, limits are determined and followed on the basis of group companies, private and public firms, and different debtor groups. Similarly, in determining the limits of the agricultural loan portfolio the structures of the regions are considered. The bank’s credit authority limits on given consumer loans are defined with the separation of type and guarantee and these limits are updated according to economic conjuncture and demands of Regional Managements/Branches.

In line with the budgeted targets, TL/FC Cash/Non-Cash Corporate/Commercial/Entrepreneurial loan placements are issued and followed on sectoral and regional basis.

The loans issued by the branches are periodically analyzed on the basis of the limits, subjects, guarantees, maturities, accounts followed, outstanding balances, numbers of the customers, and followed on customer and regional basis.

After the opening of the lines of the commercial loans, the firms are continued to be monitored and the changes at the financial structures and market relations of the credit firms are followed. The credit limits are identified and approved for one year and renewed in case of no negative change in the situation of the customer (financial structure, market, guarantee, etc.).

The Bank is assessing credibility of the customer as the essential factor in issuing credits and creditors’ credit worthiness are ascertained during credit application and limit allocation/renewal. Documents to be obtained during the application are evidently mentioned in regulations and appropriateness of the documents obtained during application is controlled by internal audit departments. The Bank considers guarantees as important in minimization and elimination of the risk. As a result of policies and process based on obtaining reliable and robust guarantees, the Bank’s credit risk significantly declines.

On January 2011 the Bank started applying internal ratings processes as a decision support system for analysing credit worthiness and determining credit allocation for Corporate/Commercial/Entrepreneurial consumer loans.

The Bank is not engaging in credit transactions that are not defined at the legislation and not put into the practice.

The Bank makes provision in conformity with the “Communiqué on Methods and Principles for Determining the Nature of Loans and Other Receivables and Allocation of Provisions”.

Identification of limits for domestic and foreign banks are done by rating which is determined by considering the needs of clients and departments together with financial and economic conditions of the banks and their countries. When banks and/or countries are financially or economically risky, identified limits can be restricted with maturity, amount or type of transaction or use of credit is called off.

Since the Bank’s abroad lending operations have no significant effect on the financial statements, and operations and transactions are diversified via the use of different financial institutions in various countries, the Bank is not believed to be exposed to a significant credit risk as a result of these operations.

II. EXPLANATIONS ON THE CREDIT RISK (Continued)

Foreign financial institution and country risks of the Bank are generally taken on financial institutions and countries which are rated by international rating institutions. Treasury operations are executed in the frame of pre-determined authorization and limits, these authorization and limits are monitored. Client transactions within the context of Fund Management are done in the frame of general loan limits determined for the clients

The Bank engages in foreign currency swaps and forward transactions considering its asset-liability balance and legal limits. These are not considered to generate material risk given the amount of these transactions in the balance sheet.

In line with the regulation on provisions, if the cash risk of a customer classified as nonperforming, the non-cash is classified as nonperforming under the same group where the cash risks were already followed and specific provision is reserved.

Restructured and rescheduled loans are also booked in line with procedures and under accounts defined by the related regulation. Furthermore, they are monitored by the bank in line with credit risk policies. In this context, financial situation and commercial operations of related customers are analyzed and in terms of restructured plan, whether principal and interest payments have been paid is being checked and necessary measures are taken.

The percentage of top 100 and top 200 cash loans in the total cash loan portfolio is 24% and 29% respectively (31 December 2014: 22% and 27%).

The percentage of top 100 and top 200 non-cash loans in the total non-cash loan portfolio is 57% and 68% respectively (31 December 2014: 61% and 73%).

The percentage of top 100 and top 200 cash and non-cash loans in the total cash and non-cash loan portfolio is 32% and 38% respectively (31 December 2014: 27% and 33%).

General provision made by the Bank for the credit risk is TL 2.844.581 (31 December 2014: TL 1.970.093).

Grades of Fitch Ratings International Rating Agency are used in determining risk weights for risk classes being used rating grade of risk classes indicated in article 6 of Communiqué on "Measurement and Assessment of Capital Adequacy of Banks". Additionally, grades of Fitch Ratings International Rating Agency were used for receivables from central government and central bank of our country and counter parties abroad. Counter parties resident are accepted as “gradeless” and take risk weight suited for “gradeless” category in relevant risk class.

Rating Scores are used in the following risk classes;

1. Receivables from Central Governments or Central Banks
2. Receivables from Regional Governments or Local Authorities
3. Receivables from Administrative Units and Non-Commercial Enterprises
4. Receivables from Banks and Brokerage Houses

While credit quality level grade given by Fitch Ratings International Rating Agency decreases to 3, grades using in risk class of receivables from banks and intermediary institutions matched with all credit quality levels from 1 to 6 in risk classes of receivables from central governments or central banks, receivables from regional governments or local authorities and receivables from administrative units and non-commercial enterprises.

For determination of risk weight regarding items that export or issuer rating not included to purchase/sale accounts is firstly considered to export rating, and also issuer’s credit rating is considered in the absence of export rating.

III. EXPLANATIONS ON THE MARKET RISK

a) Whether measures are taken to hedge against market risk under the framework of the Bank’s risk management policies, measures taken for the risk management by the Board of Directors when the Bank is exposed to market risks, methods used to measure market risk and timing of market risk measurement:

The Bank has determined market risk management operations and taken the necessary measures in order to hedge market risk within its financial risk management purposes, in accordance with ‘Regulation on the Measurement and Assessment of the Capital Adequacy of Banks’ and ‘Regulation on the Assessment Process of Banks’ Internal Systems and Internal Capital Adequacy”.

Market risk management strategy policy and implementation procedures of the Bank are determined within the context of Regulation on Risk Management, Stress Test Program and the Bank’s Internal Capital Adequacy Assessment Process (“ICAAP”) which was approved by the Board of Directors.

In order to manage the market risk, the Bank performs monitoring, limiting, stress testing and scenario analysis activities suitable to its position structure and complexity, and periodically reports the results. Operations are carried out through a trading portfolio defined by the Treasury Management of the Bank. New products and services are evaluated from the point of market risk.

The amount subject to the total market risk in the Bank is calculated by using Standard Method as per monthly periods within the context of legal reporting. This amount is included in the calculation of Bank’s Standard Capital Adequacy Ratio.

Excluding Standard Method, Daily Value at Risk (“VAR”) forecasts are made as per daily period for Held-for-Trading accounts and are reported to the related units. Historical Simulation Method is used in daily reporting and limit allocation. VAR results, calculated with Parametric and Monte Carlo Methods, are used for monitoring. Backward testing is performed so as to measure performance of used model. Also, Bank performs as per daily and monthly periods stress tests and scenario analysis so as to observe the effect of excessive market fluctuations that are not covered by models over the Bank’s financial position.

The market risk exposure by VAR based limits (interest rate and currency risk limit) within the context of Regulation on Risk Management, Stress Test Program and the Bank’s Internal Capital Adequacy Assessment Process (“ICAAP”).

IV. EXPLANATIONS ON THE OPERATIONAL RISK

a) The method used in calculating the operational risk and the interval in which the market risk measurement is done:

In the Bank, Amount subject to Operational Risk is calculated with Basic Indicator Approach based on yearly. The parameter which determines the amount subject to operational risk in Basic Indicator Approach is gross revenue. Yearly gross revenue is calculated by adding net interest incomes to net fees and commission income, dividend income obtained from shares excluding shares of subsidiaries and associates, trading profit/loss (net) and other operating incomes and also by deducting profit/loss gained from sale of assets monitored out of purchase-sale account, extraordinary incomes, operating expense made against support service and amounts compensated from insurance.

Within the scope of the performances for modeling with the Advanced Measurement Approach of operational risk, based on the data in Operational Risk Loss database, Operational Value at Risk (OpVAR) measurements are calculated using Monte Carlo Simulation within the scope of Loss Distribution Method.

	31.12.2012	31.12.2013	31.12.2014	Total/Positive Year	Rate (%)	Total
Gross Income	7.589.041	8.638.823	9.806.263	8.678.042	15	1.301.706
Amount Subject to Operational Risk						16.271.329

b) The Bank does not apply standard method.

V. EXPLANATIONS ON THE CURRENCY RISK

a) Whether the Bank is exposed to foreign currency risk, whether the effects of this matter are estimated, whether limits for the daily followed positions are determined by the Board of Directors:

The Bank’s policy is to avoid carrying significant position by means of foreign currency management. Therefore, the Bank is not exposed to significant currency risks. Risks are monitored by the currency risk tables prepared based on the standard method. Besides, VAR is calculated for daily foreign exchange position and reported to the related departments. VAR based currency risk limit is also daily followed which was approved by Board of Directors.

Moreover, dealer’s positions and limits for foreign exchange transactions are under the authorization of the Board of Directors.

b) Hedge against foreign exchange debt instruments and net foreign exchange investments by hedging derivative instruments, if material:

None.

c) Management policy for foreign currency risk:

“Liquidity Gap Analysis”, “Repricing Gap Analysis” and “Structural Liquidity Gap Analysis” which takes into account historical repricing rates of foreign currency accounts, are prepared periodically in order to define liquidity and interest rate risks at US Dollar (“USD”) and EUR, which are mainly used by the Bank in its operations. Also, daily VAR analysis for following the currency risk and within the context of legal reporting, Foreign Currency Net General Position/Shareholders’ Equity Ratio and Foreign Currency Liquidity Position are also monitored regularly.

(Continued)**

3) Minimum statements concerning liquidity coverage ratio by Banks

a) Important points affecting the results of liquidity coverage ratio and the changes of the considered items in the course of time to calculate this ratio:

Bank deposit, which has not a fluctuant structure, together with constituting an important part of its sources and liquidity coverage ratio, in proportion to other deposits, public deposits can cause periodic changes within total deposits. When comparing with the previous periods, the percentage of the total deposit in financial statement does not change and has an increasing sail.

As well as its low turn into cash ratio, since the non-cash loans has a remarkable extent in proportion to financial statement, they have an influence on the calculation of liquidity coverage ratio. Comparing to previous periods, non-cash loans are tend to increase.

As a warrant of increasing repo transactions in time, bond and bill has been used which issuance by the Republic of Turkey Prime Ministry Undersecretariat of Treasury. Making repo transactions with these securities that consisting a huge part of the security portfolio, affect free securities which are accepted in high quality liquid asset classification in calculation of liquidity coverage ratio. Since the securities used in repo transactions lose the characteristic of being free, even if all other conditions fulfilled, they are not considered as high quality liquid asset.

b) High quality liquid assets are comprised to which items:

All of the high-quality liquid assets of the calculation of Liquidity Coverage Ratio are First Quality Liquid Assets. These; cash, the accounts in Central Bank, reserve requirements and securities from the portfolio (The important part of bonds and T-bills issued by Republic of Turkey Prime Ministry Undersecretariat of Treasury, other bonds).

c) Funds are comprised of which items and their volume in all funds:

The major part of the resources of funds in Bank is comprised of deposits, the remaining is divided according to their share in the balance sheet as repo, borrowings, and issued securities.

d) Information about cash out-flows arising from derivative operations and margin operations likely to processing:

Derivative operations in Bank are carried out on the purpose of protection from the risks that may exist or occur in the balance sheet, liquidity management, or meet customer demand. Customer operations are carried out under the “Framework Agreement on Purchase and Sale of Derivative Instruments” or ISDA (International Swaps and Derivatives Association) and CSA (Credit Support Annex) with additional, as well as operations performed by the banks is performed again ISDA and CSA contracts signed. Operations performed under the said contracts in the determined periods are subject to daily market valuation and additional collateralization as cash. Operations could create additional collateral input or output depending on market valuation.

(Continued)**

3) Minimum statements concerning liquidity coverage ratio by Banks (Continued)

a) The concentration limits regarding collateral and counterparty and product based fund resources:

For the counterparty and product based concentration limits are determined under Regulation on Risk Management, Stress Test Program and the Bank’s Internal Capital Adequacy Assessment Process (“ICAAP”) with the approval of Senior Management. These limits are followed in particular frequency. Besides, It has reported to the relevant units and Senior Management. There is no excess regarding the limits during operating period.

b) Liquidity risk and needed funding on the basis of the bank itself, the branches in foreign countries and the partnerships consolidated by considering operational and legal factors preventing liquidity transfer:

The needed and surplus of liquidity of the branches in foreign countries of the bank and partnerships consolidated are followed and managed regularly. There is no constraint of operational and legal factors preventing liquidity transfer. In the analysis made, it is observed that the impact of the foreign branches and subsidiaries on the Bank’s liquidity structure remain limited comparing to the size of the balance sheet. The need and surplus of the liquidity is encountered properly between partnerships, as well as the branches abroad.

c) Information on located the calculation of liquidity coverage ratio, but not located in the second paragraph of disclosure template and other cash inflow and other cash outflow items considered to be related to the bank’s liquidity profile:

All items on the calculation of liquidity coverage ratio are included in calculation in aggregated form on the table. In this context, there is no point included in the calculation of liquidity coverage ratio and not included in the disclosure template.

c) Risk Reporting and Measurement Systems’ Scope and Qualification

In order to put forward the potential risks which may be encountered by the Bank, it is essential to consider the results of risk measurement and monitoring activities in the process of Banks’ strategic decisions. In the buy – sell strategy context, the analyses presented below are preformed regarding the measurement and monitoring of the whole balance sheet and portfolios determined by the Bank.

Liquidity Risk

In order to put forward the liquidity risk of the Bank, measurement, monitoring, limiting, stress tests and scenario analyses suitable to positions structures and complexity are carried out and the results are periodically reported.

For the purpose of measuring and monitoring activities of liquidity risk, Bank realizes “Liquidity Gap Analysis”, “Behavioral Liquidity Gap Analysis”, “Average Maturity Analysis” and “Deposit Analysis”. Liquidity Gap Analysis is done based on time to maturity of assets and liabilities. Deposit Analysis is applied separately for time deposits and demand deposits. Also, for the purpose of the evaluation of the discount rates of Bank’s expected cash flows based on each position and each product, and after adjustment its potential liquidity needs on the basis of the maturity groups in line with Bank’s liquidity creation capacity, liquidity risk stress test is done. For liquidity risk, legal reporting is also done weekly.

Interest Rate Risk On Banking Accounts

It is conducted to perform measurements, limiting, scenario analysis and stress tests that are suitable for structure and complexness of positions so as to be revealed interest rate on banking accounts that Bank can face with and report the findings cyclically.

It is made periodically Repricing Gap Analysis, Net Interest Margin/Revenue Analysis and Duration Analysis based on whole balance sheet intended for measurement and monitoring operations of interest rate on banking accounts and Bank’s economic capital adequacy is observed. Repricing Gap Analysis is applied based on assets and liabilities’ time to repricing and Net Interest Margin/Revenue Analysis is applied based on balance sheet items’ time to repricing. Duration Analysis is made through being weighted with quantities of periods that are calculated with effective duration method of assets and liabilities. It is revealed effect of important fluctuations, exchange rates, prices and interest rates in stress tests for interest rate on banking accounts. Also, it is made monthly legal reporting intended for interest rate on banking accounts.

Market Risk

In order to put forward the possible interest risks resulted from the banking accounts, the bank carries out measurement, monitoring, limiting, stress testing and scenario analyses in accordance with the position structure and complexity of the operations and reports the results periodically.

By the Bank, the amount subject to the market risk is calculated monthly by using Standard Method as per monthly periods within the context of legal reporting. This amount is included in Bank’s Standard Capital Adequacy Ratio.

Excluding Standard Method, Daily Value at Risk (“VAR”) forecasts are made as per daily period for buy - sell accounts and is reported to the related units. Backward testing is performed so as to measure performance of used model. Also, Bank performs as per daily and monthly periods stress tests and scenario analysis so as to observe the effect of excessive market fluctuations that are not covered by models over the Bank’s financial position.

Market risk exposure is limited with VAR based limit (interest rate and currency risk limit) within the context of “Regulation on Risk Management, Stress Test Program and the Bank’s Internal Capital Adequacy Assessment Process (“ICAAP”)”. These limits are daily monitored.

c) Risk Reporting and Measurement Systems’ Scope and Qualification (Continued)

Operational Risks

Operational risk represents the possibility of damage from inadequate or failed internal processes, people and systems or from external events and including legal risks. The Operational Risk Management Services in the Bank carried out with the Regulation on Risk Management, Stress Test Program and the Bank’s Internal Capital Adequacy Assessment Process (“ICAAP”) accepted by board of directors.

- The amount subject to operational risk is calculated by Basic Indicator Approach within the scope of “Communiqué on Measurement and Assessment of Capital Adequacy of Banks” in order for keeping adequate shareholder’s equity against losses that could arise due to operational risks in the Bank, and is reported to BRSA based on yearly.
- Operational risk profile in the bank is monitored with several effective methods. Actualized operational risks are followed by “Operational Risk Loss Database” which is compatible with accounting system. Advanced Measurement Approach is performed in scope of calculation of economic capital and development of approach is performed.
- An integrated risk mainframe is instituted within the scope of risks management arising from information technologies. In this context, a database regarding Information Technologies risks is constituted and actualised risks and actions taken are monitored via the database.
- Risk arising from purchase of services provided from support service organizations for continuity has been evaluated with the “Regulation on Procurement of Support Services of Banks” published by the BRSA. In this context, Risk Management Program was revised and Risk Analysis Reports regarding support services are being prepared.

Credit Risk

As of 1 July 2012, BASEL II legal reporting process based on Standard Method is started in calculation of Credit Risk legal capital need.

It was constituted scoring models for individual customers, rating for Corporate, Commercial and Entrepreneurial customers with the object of customer evaluation within the scope of centralization of credit risk. The studies regarding these models’ validation are conducted by Internal Control and Risk Management Group Presidency as independently from Units that have executive actions. It is also made analysis for performance measurement and accuracy with statistical methods.

In base of segments, risk limits are framed at credit risk weighted assets and are monitored monthly based.

Based on general and sub accounts, credit portfolios’ improvement, tracking portfolio’s improvement and loans under close monitoring are analyzed periodically. Also, it is made vintage analysis for real estate and consumer loans so as to credit monitoring and comparing past performances.

EXPLANATIONS RELATED TO FINANCIAL POSITION OF THE BANK (Continued)

XII. EXPLANATIONS ON OPERATING SEGMENTS

Organizational and internal reporting structure of the Bank is determined in line with TFRS 8 “Turkish Accounting Standard about Operating Segments”.

The Bank has operations in retail banking, corporate and entrepreneurial banking, specialized banking, investment banking and international banking areas.

Known as having the most extensive branch network in retail banking sector, the Bank renders services, such as; deposits, consumer loans, loans originated from funds whose risk does not belong to the Bank, credit cards, automatic payment, cheques and notes, money transfer order, foreign exchange transactions, internet banking, mobile banking, safe-deposit box and insurance brokerage services. Moreover, existing instruments are improved and new banking instruments are created in order to benefit from services undertaken as being a state bank in increasing the profitability of the Bank. By “Finart” system, which is working in a centralized manner, the Bank has the technical infrastructure required by modern banking sector to meet its clients’ needs.

In the context of corporate and entrepreneurial banking, the Bank gives loans for operations, mid-term and long-term investment loans, foreign trade financing loans, letter of credits and guarantees in Turkish Lira and foreign currencies; renders project financing, other corporate finance related services, foreign exchange transactions and banking services to large-scale corporate clients and middle-small scale enterprises.

As the Bank is the main financial institution that meets the financing needs of agricultural sector in Turkey, it extends agricultural operations and investment loans from its own sources for vegetable and animal production, fishery products and agricultural mechanization directly to producers and The Central Union of Turkish Agricultural Credit Cooperatives. Besides, it gives support to entities and enterprises having operations in agricultural sector by acting as an intermediary for loans originated from funds.

Investment banking operations are conducted by the Financial Market and Asset-Liability Management and Head of Departments of Economic Researches. By foregoing departments, the Bank's liquidity is used for Turkish Lira, foreign exchange and securities transactions in local and international organized and over-the-counter markets, and enables sources of funds in Turkish Lira and foreign currencies according to the needs of the Bank. The Bank acts as an intermediary for transaction of securities and Eurobonds by the related departments, for transaction of shares and public offerings as an agency of Ziraat Yatırım Menkul Değerler A.Ş. and for transaction of investment funds founded by Ziraat Portföy Yönetimi A.Ş. and other portfolio management companies’, and keeps records of these financial instruments and the Bank performs repo/reverse repo transactions. Besides the Bank performs derivative transactions which are accounted as held for trading. As financial derivative transactions, the Bank performs foreign currency forward agreements and currency swap transactions.

Besides, the Bank has commission revenue from insurance and other finance institutions by rendering agency services through its branches.

The Bank performs its international banking operations via foreign branches, sub branches, representative offices and equity investments abroad.

As of 31 December 2015 explanations on segment reporting as shown on the following page are in line with Communiqué on “Financial Statements to be Publicly Announced and the Accompanying Policies and Disclosures”.

Miscellaneous Payables	2.320.183	1.746.503	2.320.183	1.746.503

Receivables from money markets, receivables from banks and bank deposits are of short term nature, therefore carrying values are considered as fair value.

In determination of book and fair value of available-for-sale securities, market prices are taken into consideration. If these securities are not traded in an active market, the indicator prices calculated by CBRT are taken into account.

The fair value of held to maturity financial assets is calculated by considering market prices. In cases where these prices cannot be determined, the fair value is assessed on the basis of market prices quoted for securities that have the same attributes in terms of interest, maturity and other terms.

The fair value of loans and other deposits represent the sum of the cost and the accrued interest.

b) Information on fair value measurements recognized in the financial statements:

According to TFRS 7 “Financial Instruments: Explanations” Standard, the accounts recognized with the fair value in the balance sheet should be presented and classified sequentially in the related footnotes. Respectively, such financial instruments are classified in three levels representing the importance of the data used during for the measurement of fair values. At level one, the financial instruments whose fair values are determined with the recorded prices in the active markets for the assets and liabilities with identical fair values; at level two, the financial instruments whose fair value is based on the directly or indirectly observable market indicators and at level three; the financial instruments whose fair value is not based on the directly or indirectly observable market indicators are considered. The financial instruments which are recognized with their fair values at the Bank’s balance sheet, are presented with respect to such basis of classification in the table below:

k) Information on liquidating policy of uncollectible loans and other receivables:

Execution proceedings are carried out for the collection of receivables from loan services of the Bank’s. During this process, tangible guarantees constituting guarantees of receivables of the Bank and assets of the debtor(s) are realized while receivables of the Bank are also tried to be collected and liquidated by means of administrative procedures. Transactions are performed within the context of legislation agreement, which ensures the collection of receivables through administrative channels, and authorizations transferred to the Branch/Regional Management. When the debtor offers exceed authorizations transferred to the Branch/Regional Management or includes matters outside the scope of current legislation agreements and the Branch/Regional Management submit favorable opinion to the Head Office regarding this issue, receivables should be restructured on a company/debtor basis in accordance with the decisions made by the related authorities.

l) Explanations on write-off policy:

The Bank writes off the receivables from its records with the actualized circumstances of deaths of the debtor and/or the related people, refusals of the heritage by the heritors within the legal time limits, becoming legally and effectively impossible of the collection of the receivable, and the given financial accountability decision on the related personnel of the considered receivable.

16. Information on deferred tax asset:

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit in accordance with the Turkish Accounting Standards (TAS 12) “Income Taxes”. In the computation of deferred tax, effective tax rates as of the balance sheet date are used in accordance with the current tax legislation.

Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Calculated deferred tax assets and deferred tax liabilities are net off in the financial statements.

Information on calculated deferred tax including deductible temporary differences, financial losses, tax deductibles and tax exemptions is shown below:
