**CONVENIENCE TRANSLATION OF THE INDEPENDENT AUDITOR'S  
REVIEW REPORT ORIGINALLY PREPARED AND ISSUED IN TURKISH**

To the Board of Directors of Türkiye Cumhuriyeti Ziraat Bankası A.Ş.:

We have reviewed the accompanying consolidated balance sheet of Türkiye Cumhuriyeti Ziraat Bankası A.Ş. ("the Bank") and its consolidated subsidiaries at 30 June 2014 and the related consolidated statements of income, cash flows and changes in shareholders' equity for the period then ended. These financial statements are the responsibility of the Bank's management. Our responsibility, as independent auditors is to issue a report on these financial statements based on our review.

We conducted our review in accordance with the Uniform Chart of Accounts of banks, accounting standards and the independent audit principles in conformity with Banking Law No. 5411. Those principles require that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries concerning the Bank's personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

As mentioned in Section II. Note 7.d1 of Explanations and Notes to the Consolidated Financial Statements; as of the balance sheet date, the accompanying financial statements include a free provision amounting to TL1.192.000 thousand (TL140.000 thousand of this provision amount was charged to the income statement as an expense in the current period), provided by the Bank management in line with the conservatism principle considering the circumstances that may arise from any changes in the economy or market conditions.

Based on our review except for the effect of the matter on the financial statements described in the paragraph above, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not give a true and fair view of the financial position of Türkiye Cumhuriyeti Ziraat Bankası A.Ş. and its consolidated subsidiaries at 30 June 2014 and the results of its operations and its cash flows for the period then ended in accordance with accounting principles and standards set out by regulations in conformity with Article 37 and 38 of Banking Law No. 5411 and other regulations, interpretations and circulars published by the Banking Regulation and Supervision Agency on accounting and financial reporting principles.

Additional paragraph for convenience translation:

As explained in Note I. of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with Article 37 and 38 of Banking Law No. 5411, accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

**EXPLANATIONS ON ACCOUNTING POLICIES**

**I. BASIS OF PRESENTATION**

The Parent Bank maintains its books of accounts in Turkish Lira in accordance with the Banking Act No. 5411 (“Banking Act”), which are effective from 1 November 2005, the Turkish Commercial Code (“TCC”) and Turkish tax legislation.

The consolidated financial statements are prepared in accordance with the “Regulation on the Principles and Procedures Regarding Banks’ Accounting Application and Keeping Documents” published in the Official Gazette No. 26333 dated 1 November 2006 by the BRSA (“Banking Regulation and Supervision Agency”) which refers to “Turkish Accounting Standards” (“TAS”) and “Turkish Financial Reporting Standards” (“TFRS”) issued by the Public Oversight Accounting and Auditing Standards Authority (“POA”) and other decrees, notes and explanations related to the accounting and financial reporting principles published by the BRSA (all defined as “BRSA principles”). The format and the details of the publicly announced financial statements and related disclosures to these statements have been prepared in accordance with the “Communiqués Related to Publicly Announced Financial Statements of Banks and Explanations and Notes Related to these Financial Statements” published in the Official Gazette No. 28337 dated 28 June 2012.

The financial statements of subsidiaries operating abroad have been prepared in accordance with the law and regulations of the country they operate. However, in order to provide fair presentation according to TAS, necessary adjustments and reclassifications are reflected to these consolidated financial statements.

The consolidated financial statements have been prepared in TL, under the historical cost convention as modified in accordance with inflation adjustments applied until 31 December 2004, except for the financial assets and liabilities carried at fair value.

Balance sheet and statement of off-balance sheet accounts as of 30 June 2014 are presented comparatively with balances as of 31 December 2013 while income statement, statement of income and expense items accounted under shareholders’ equity, cash flows and changes in shareholders’ equity are presented comparatively with balances as of 30 June 2013.

Unless otherwise specified, all balances in the financial statements and footnotes are expressed in Thousand Turkish Lira (“TL”).

The preparation of financial statements requires the use of certain critical estimates on assets and liabilities reported as of balance sheet date or amount of contingent assets and liabilities explained and amount of income and expenses occurred in related period. Although these estimates rely on the management’s best judgment, actual results can vary from these estimates. Judgements and estimates are explained in related notes.

The accounting policies and valuation principles applied in the preparation of these financial statements are defined and applied in accordance with TAS. Those accounting policies and valuation principles are explained in Notes II. to XXV. below.

**Additional paragraph for convenience translation into English:**

The differences between accounting principles, as described in the preceding paragraphs, and accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**II. EXPLANATIONS ON THE STRATEGY OF USING FINANCIAL INSTRUMENTS AND FOREIGN CURRENCY TRANSACTIONS**

Main activity of the Parent Bank comprises of banking services, such as; launching all kinds of cash and non-cash loans in terms of Turkish Lira and foreign currencies, performing transactions in local, international money and capital markets, supporting agricultural sector financially and collecting deposits in Turkish Lira and foreign currencies. The Parent Bank’s main funding source is Turkish Lira deposits, repurchase agreements, issued securities, shareholders’ equity and government funds transferred from the budget, ministerial offices and other public resources to the Bank by means of legislative and administrative decisions. The Parent Bank directs these funds to assets with high return and low risk. These assets include predominantly domestic government bonds and loans. The Parent Bank’s liquidity structure covers the financing of all liabilities at due date. Although most of the sources in the Parent Bank’s balance sheet are with fixed interest rate, some of the securities in assets have floating interest rate. Since the remaining time to re-pricing date of sources is short, cost of sources is repriced in short periods based on the market conditions. Moreover, the Parent Bank adopts high return principle for its long-term placements.

Loans and securities are instruments from which the Parent Bank gets returns above the average returns within its lines of activity. Letter of guarantees, bank loans, commercial letter of credits, repayment commitments for cheques and expense limit commitments for credit cards are the most important risk areas within the off-balance sheet accounts.

Since the Parent Bank’s total debt to the market is low among its total liabilities, the Bank can borrow easily from short-term markets, such as; Borsa Istanbul (“BIST”), Central Bank of the Republic of Turkey, Money Market or Interbank Money Market in case of need. In case of a liquidity crisis, the deposit base of the Bank is not presumed to be significantly affected from such a case since the Parent Bank is a public bank with an extensive branch network.

Cost and return of foreign currency assets are subject to a close follow up. Positive margin of profit is sustained by adjusting deposit interest rates in line with the market interest rates.

Foreign currency operations are recognized at transaction date and valued by Bank’s prevailing counter currency buying rate. At period ends, foreign currency asset and liability balances are valued at the Bank’s period end counter currency buying rates and translated to Turkish currency and the resulting exchange differences are recognized as a “foreign exchange gain or loss”.

Foreign currency capital amounts transferred to the equity participations operating abroad are evaluated and presented on the financial statements with the exchange rate on the date of the transfer.

Assets, liabilities and income statement items of abroad branches of the Parent Bank are translated into Turkish Lira with the Bank’s prevailing counter currency buying rates at the balance sheet date.

**III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES, SUBSIDIARIES AND JOINT VENTURES**

**a. Consolidation principles applied:**

The consolidated financial statements have been prepared in accordance with the procedures listed in the “Communiqués related to the Regulation on the Preparation of the Consolidated Financial Statements of Banks” and the “Consolidated Financial Statements Standard” (“IFRS 10”) published in the Official Gazette No. 26340 dated 8 November 2006.

**III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES, SUBSIDIARIES AND JOINT VENTURES (Continued)**

**a. Consolidation principles applied (Continued)**

1. Consolidation principles for subsidiaries:

Subsidiaries (including special purpose entity) are all entities, in which the Group has power to control the financial and operating policies for the benefit of the Parent Bank, either (a) through the power to exercise more than 50% of the voting rights relating to shares in the companies owned directly and indirectly by itself; or (b) although not having the power to exercise more than 50% of the using rights, otherwise having the power to exercise control over the financial and operating policies.

Control is evident when the Parent Bank owns, either directly or indirectly, the majority of the share capital of the company or owns the privileged shares or owns the right of controlling the operations of the company in accordance with the agreements made with other shareholders or owns the right of appointment or the designation of the majority of the board of directors of the company.

Subsidiaries are consolidated with full consolidation method by considering the outcomes of their activities and the size of their assets and shareholders’ equity in scope of the materiality principle. Financial statements of the related subsidiaries are included in the consolidated financial statements beginning from their acquisition date. Where necessary, accounting policies of subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

In accordance with the full consolidation method, balance sheet, income statement and off balance sheet items of the subsidiaries have been consolidated line by line with the balance sheet, income statement and off balance sheet of the Parent Bank. The book value of the investments of the Group in each subsidiary has been netted off with the portion of each subsidiary’s capital that belongs to the Group. Unrealized gains and losses and balances resulting from the transactions among the subsidiaries included in consolidation have been eliminated. In order to determine the net income of the Group, minority interest in the net income of the consolidated subsidiaries have been identified and deducted from the net income of the subsidiary. In the consolidated balance sheet, minority interest has been presented separately from the liabilities and the shares of the Group shareholders. **III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES, SUBSIDIARIES AND JOINT VENTURES (Continued)**

**a. Consolidation principles applied (Continued):**

2. Consolidation principles of associates and joint ventures:

An Associate is a partnership with which the Parent Bank participates in its capital and has significant effect on it although it has no capital or management control, whose main operation is banking and which operates according to special legislation with permission and license and is established abroad. The related associate is consolidated with equity method in accordance with materiality principle.

Significant effect refers to the participation power on the constitution of the financial and management policies of the participated associate. If the Parent Bank has 10% or more voting right on the associate, as long as it is not proved otherwise, it will be accepted that the Parent Bank has significant effect on that associate.

Equity method is an accounting method which foresees the increase or decrease of the book value of capital share in an associate from the changed amount in the associate participating shareholder’s equity during the period by the portion of the participant and the deduction of the dividend from the associate from the changed value of the associate amount.

The associates included in consolidation, their title, their place of incorporation, their main activities and their effective shareholding rates are as follows:

Fair value changes are recorded under “Derivative Financial Transactions Gains/Losses” in income statement.

The fair values of the derivative financial instruments are calculated using quoted market prices or by using discounted cash flow models.

Liabilities and receivables arising from the derivative instruments are followed in off-balance sheet accounts from their contractual values.

**V. EXPLANATIONS ON INTEREST INCOME AND EXPENSES**

Interest income and expenses are recognized on an accrual basis using the internal rate of return method in conformity with TAS 39 “Financial Instruments: Recognition and Measurement”. In accordance with the Communiqué on “Methods and Principles for Determining the Nature of Loans and Other Receivables and Allocation of Provisions” came into force after being published in the Official Gazette numbered 26333 dated 1 November 2006, no interest accrual is calculated for non-performing loans. **XPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**VII. EXPLANATIONS ON FINANCIAL ASSETS (Continued)**

Financial assets are classified as investments held-to-maturity, bank loans and receivables, financial assets available for sale or held-for-trading at initial recognition.

Sale and purchase transactions of financial assets are accounted for using the settlement date basis.

**a. Financial assets at fair value through profit or loss:**

In Group, financial assets, which are classified as “financial assets at fair value through profit or loss”, are trading financial assets and are either acquired for generating profit from short-term fluctuations in the price or dealer’s margin, or are the financial assets included in a portfolio in which a pattern of short-term profit making exists independent from the acquisition purpose.

Trading securities are initially recognized at cost. The cost of the securities is recognized as fair value. Subsequently, trading securities are carried at fair value in the financial statements.

Government bonds and treasury bills included in held for trading and available for sale portfolios traded in BIST are carried at weighted average exchange prices of BIST as of the balance sheet date and those securities that are not traded in BIST are carried at prices of the Central Bank of the Republic of Turkey. Eurobonds are carried at prices in the over the counter markets. The positive difference between the cost and fair value of held for trading securities is accounted under “Other Interest and Income Accrual” and the negative difference is accounted under “Impairment Loss for Marketable Securities” account. The positive difference between the cost and amortized cost is accounted under “Interest income” account, the negative difference is accounted as “impairment loss”. The positive difference between the fair value and amortized cost is accounted under “profit from capital market operations” account and the negative difference is accounted under “Loss from capital market operations” account.

**b. Held-to-maturity financial assets:**

Investments held to maturity include financial assets other than Bank loans and receivables and those where there is an intention of holding until maturity and the relevant conditions for fulfillment of such intention, including the funding ability, and where there are fixed or determinable payments with fixed maturity. Marketable securities classified as Financial Assets Held to Maturity may subject to exchange-repurchase bids or refundment transactions within the scope of early redemption.

Investments held to maturity are subsequently measured at amortized cost with internal rate of return, and they are accounted by setting forth provision for impairment loss (impairment loss expense) or by posting interest income accrual.

The Bank does not have any financial assets that are previously classified as investments held-to-maturity but prohibited to be classified in this portfolio for two years because of incompliance with the principles of financial assets classification.

Interests received from investments held to maturity are recognized as an interest income.

Held to maturity assets are initially recognized at cost. The cost of the securities is regarded as fair value.

**c. Loans and receivables:**

The Parent Bank loans and receivables represent financial assets other than those held for trading or held for sale in a short period generated through providing cash, assets or rendering services to the debtor.

**c. Loans and receivables: (Continued)**

The Parent Bank loans and receivables are initially carried at cost. Bank loans are measured at amortized cost with internal rate of return. Short-term and long-term loans are grouped as open or guaranteed; FC loans are recognized with fixed price and at period-ends revalued by the counter foreign exchange buying rate of the Bank. Foreign exchange indexed loans are used as TL by the valid counter foreign exchange buying rate of the Bank at usage date. Repayments of these loans are collected as calculated TL value by the valid counter foreign exchange selling rate of Bank at installment date.

The Parent Bank sets specific and general provisions for loans and other receivables in accordance with the regulations stated by the Communiqué published on the Official Gazette numbered 26333 and dated 1 November 2006 on “Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions”. In the previous periods, the bank allocated special provisions considering the minimum rates and prudence principle stated in "Regulation on the Procedures and Principles on Determining the Characteristics of the Loans and other Receivables by the Banks and the provisions that would be Set Aside for them" regardless of such loan collaterals; however, in line with the provision of the General Directorate Authority Approval dated 29 June 2012 and of the clause (8) of Article 10 of the regulation stating that "based on the reliability and prudence assumptions defined in the Communiqué on Conceptual Framework regarding Preparation and Presentation of Financial Statements promulgated in the Official Gazette No. 25702 dated 16 January 2005, special provision may be allocated to the extent of the amount of the said non-performing receivable on condition not to be less than the special provision amounts applicable for the group in which the non-performing receivable is included regardless of the amount of collateral", the bank started to set aside special provisions corresponding to 50% of the non-performing receivable amount as of the date of including the non-performing receivables in the Third Group and special provisions corresponding to 100% of the non-performing receivable amount as of the date of including the non-performing receivables in the Fourth and Fifth Group. Allocated provisions are deducted from the income for the period. If the receivables for which provisions were set in the previous years are collected, provision for allowances are released and recognized as income under “Other Operating Income” account. Releases of current period provisions are made by the reversal of the amount from the “Provision for Impairment of Loans and Other Receivables” account.

**d. Available-for-sale financial assets:**

Available-for-sale financial assets are defined as financial assets other than the ones classified as “loans and receivables”, “held-to-maturity assets” or “financial assets at fair value through profit or loss”.

Available for sale assets are initially recognized at cost. The cost of the securities is recognized as fair value.

Available-for-sale financial assets are subsequently re-measured at fair value in financial statements.

The difference between fair value and cost of available for sale financial assets is booked as interest income or impairment provision. Furthermore, amortized cost using the effective interest method and cost is compared and the difference is booked as interest income or impairment expense. Fair value and amortized cost of these securities are compared and the difference is recognized in shareholders’ equity as “Marketable Securities Value Increase Fund”. When these financial assets are disposed of or impaired the related fair value differences accumulated in the shareholders’ equity are transferred to the income statement.

When there is lack of price quotation on the basis of fair value calculations in an active market or in cases that fair value cannot be measured reliably, the fair value of available-for-sale-financial-assets is determined by using the effective interest rate method or appropriate valuation methods.

**VIII. EXPLANATIONS ON IMPAIRMENT OF FINANCIAL ASSETS**

A financial asset or a group of financial assets is subject to impairment loss only if there is an objective indication that the occurrence of one or more than one event (“loss event”) subsequent to the initial recognition of that asset has an effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group.

If revalued amounts of financial assets at fair value through profit/loss is less than the prior revalued amounts, initially, value of prior records regarding the value increase are adjusted according to the recent value and if the impairment loss is more than the prior value increase, difference is reflected to “Value Loss Expenses for Securities”. If there is an increase in value, initially recognized impairment loss is reversed.

If financial assets available for sale are subject to permanent impairment, the amount is charged to “Value Loss Expenses for Securities” account in accordance with the related Turkish Accounting Standards.

If subsidiaries, associates, entities under common control and assets held to maturity are subject to permanent impairment, the amount is charged to “Value Loss Expenses for Subsidiaries, Associates, and Assets Held to Maturity”.

The principles for the accounting of provisions for loans and receivables are explained in detail in Note VII. of this section.

Loans and other receivables are classified by the Parent Bank in accordance with the Communiqué on “Methods and Principles on Determining the Nature of Loans, Other Receivables, and Allocation of Provisions” published in the Official Gazette numbered 26333 and dated 1 November 2006.

**IX. EXPLANATIONS ON OFFSETTING OF FINANCIAL ASSETS AND LIABILITIES**

Financial assets and liabilities shall be offset and the net amount presented in the balance sheet when, and only when the Parent Bank currently has a legally enforceable right to set off the recognized amounts or intends either to collect/settle on a net basis or to realize the asset and settle the liability simultaneously.

Subsequently, intangible assets are carried at historical costs after the deduction of accumulated depreciation and the provision for value decreases.

Other intangible assets are amortized by using the straight line method based on their useful lives. Useful lives of other intangible assets are determined by the consideration of items as; useful life of asset, maintenance costs incurred to obtain expected economical benefit from assets and technical, technological or any other type of obsolescence. Amortization method used in the current period is not subject to any change. Depreciation period is 5 years (20% annual depreciation rate) for establishment/formation expenses for other intangible assets with uncertain leasing period or leasing period over 5 years and depreciation rate is proportional with period for those with certain leasing period.

Applied depreciation rates are as follows;

|                                  |           |

| Buildings                        | : 2%      |
| Vehicles, Furniture and Fixtures | : 2 - 20% |

Where the carrying amount of an asset is greater than its estimated “Net Recoverable Amount”, it is written down to its “Net Recoverable Amount” and the provision for the diminution in value is charged to the income statement.

Property and equipment has not been re-valued in order to be presented at fair value in the financial statements.

**XIV. EXPLANATIONS ON LEASING TRANSACTIONS**

The Group performs financial operations as “Lessor” and “Lessee”.

**a. Accounting of leasing transactions for the lessee:**

**Financial Lease**

The Group, as the lessee, recognizes its leasing operations in accordance with the requirements of TAS 17 “Leases”. Fixed assets that are acquired under financial leasing are amortized with respect to the rates used for directly acquired assets that have similar nature. Assets held under financial leases are recognized under the tangible fixed assets account and are depreciated on annual and monthly basis with respect to their useful lives. Principal and installment paid for tangible fixed assets that are acquired under financial leasing are charged to liability account “Finance Lease Payable”, whereas interests are recognized in “Deferred Financial Leasing Expenses” account. At installment payments, principal and interest amount of installment amount are debited to “Financial Lease Payable” account, whereas interest is credited in “Deferred Financial Leasing Expenses” account and recorded to the “Other Interest Expenses”.

The Parent Bank does not perform financial operations as “Lessor”.

**Operational Lease**

**b. Accounting of leasing transactions for lessor:**

Subject to financial leasing in the consolidated balance sheet of the entity is shown as a receivable equal to net leasing. The interest income is determined so as to form a fixed revenue return ratio using net investment method related to lease asset of the lessor, and the portion of interest income which does not take part in the related term is followed under the unearned interest income account.

**XV. EXPLANATIONS ON PROVISIONS, CONTINGENT ASSET AND LIABILITIES**

Provisions other than the specific and general provisions set for loans and other receivables and provisory liabilities are accounted in accordance with TAS 37 “Turkish Accounting Standard on Provisions, Contingent Liabilities and Contingent Assets Corresponding”.

The Group provides provision in case of an existing liability (legal or implicit) as a result of an incident that took place in the past, there is possibility of disposal of assets that bring economic benefit and the liability is measurable. When a reliable estimate of the amount of obligation from the Parent Bank cannot be made, it is considered that a “contingent” liability exists and it is disclosed in the related notes to the financial statements.

For transactions that can affect financial structure, provisions are provided by using the existing data if they are accurate, otherwise by using the estimates.

As of the balance sheet date, there are no probable contingent liabilities resulting from past events whose amount can be reliably measured.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements in which the change occurs.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**XVI. EXPLANATIONS ON OBLIGATIONS RELATED TO EMPLOYEE RIGHTS**

**a. Employment Termination and Vacation Benefits**

Employee benefits liabilities are recognized in accordance with TAS 19 “Employee Benefits” and the Parent Bank provides provision for retirement and termination liabilities by estimating the net present value of future payments of the Bank arising from the retirement of employees and reflects this provision amount in the financial statements.

Under the Turkish legislation as supplemented by union agreements, Employment Termination Benefit payments are made in case of retirement, employment termination, or resignation when legal requirements are met. According to the related legislation, depending on the status and position of the employee in the Bank and social security institution, Employment Termination Benefit Provision is calculated in two ways; if the employee is a state employee, the calculation is based on retirement pension for the working period of the state employee, and if the employee is a blue-collar worker the calculation is based on the final salary at the date of retirement or leave (to the extent that the payments and/or salary amount does not exceed the Employment Termination Benefit Provision ceiling).

Communiqué on “Turkish Accounting Standard (TAS19) about Benefits for Employee (No:9)” published in Official Gazette by Public Oversight Accounting and Auditing Standards Authority (POA) on 12 March 2013 numbered 28585, was entered into force for the account periods starting after 31 December 2012 on accounting treatment of actuarial profit and loss resulting from changes in actuarial assumptions or differences between actual and actuarial assumptions. Actuarial loss amounting to TL79.304 was classified as “Other Comprehensive Expense” in the financials.

Unused vacation liability is calculated based on number of unused vacation days which is calculated by subtracting used vacation days of all personnel from legally deserved vacation days.

The Parent Bank is not employing its personnel by means of limited-period contracts.

**b. Pension Rights**

Some of the Parent Bank’s personnel are the members of T.C. Ziraat Bankası and T. Halk Bankası A.Ş. Members Pension and Relief Fund which was established by 20th provisional article of Social Security Law Act numbered 506.

In accordance with 23rd provisional clause of the Banking Act numbered 5411, the pension fund established within Social Security Law is expected to be transferred to the Social Security Institution by three years following the declaration of the Banking Act numbered 5411. Procedures and principles of the transfer are determined by the decision of Council of Ministers numbered 2006/11345 dated 30 November 2006. However, the 1st paragraph of the 1st article of the 23rd provisional clause of Banking Act numbered 5411 allowing pension funds to be transferred to Social Security Institution (“SSI”) is annulled following the resolution of Constitutional Court declared in the Official Gazette dated 31 March 2007 numbered 26479 E.2005/139, K.2007/13 and K.2007/33.

With the publication of the reasoning of the decision, the Grand National Assembly of Turkey (“GNAT”) started to work on new legal arrangements regarding the transfer of the fund members to SSI and the related articles of the “Law Regarding the Changes in Social Insurance and General Health Insurance Law and Other Related Laws and Regulations” No 5754 (“the New Law”) regulating the transfer of the funds were approved by the GNAT on 17 April 2008. The New Law was published in the Official Gazette dated 8 May 2008, numbered 26870 and came into force.

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**XVI. EXPLANATIONS ON OBLIGATIONS RELATED TO EMPLOYEE RIGHTS (Continued)**

**b. Pension Rights: (Continued)**

In an application to the Constitutional Court on 19 June 2008, the cancellation of some articles of the new law regarding the transfer of pension funds to the Social Security Institution has been requested. In its meeting dated 30 March 2011, the Constitutional Court examined the cancellation application and rejected the request to suspend the articles.

According to the new law Bank pension funds participants and salaried members or the rightful owners would be transferred to Social Security Institution and would be subject to its legislation within three years beginning from the date of publication without any required transaction. Three years transfer period would be extended by two years at most with the decision of Council of Ministers. In accordance with the related legislation, as of the transfer date, the cash value of the liabilities will be calculated by considering the income and expenses of the transferred funds by the insurance branches and by using the actuarial interest rate of 9,80%. Moreover, the unfulfilled other social rights and payments existed in the settlement deeds of the subjected pension funds of the transferred participants, members or the rightful owners will be continued to be fulfilled by the employer entities of the funds and its participants.

In accordance with 58th article and 7th temporary article of the Banking Act, restricting banks from transferring any funds to the pension funds in order to compensate the actuarial deficits effective from 1 January 2008, has been delayed up to 5 years.

Based on the Council of Ministers’ decree numbered 2011/1559 and issued in the Official Gazette numbered 27900, dated 9 April 2011, and 20<sup>th</sup> provisional article of law numbered 506, the deadline for transferring banks, insurance and reinsurance companies, chambers of commerce, chambers of industry, exchange markets and the participants of the funds that were founded for the personnel constituting these entities and the ones having salary or income and the right holders of them to Social Security Institution has been extended for two years.

Besides, the phrase of “two years” in Clause (2), Article 1 of the temporary 20th provision of the law numbered 5510 is revised as “four years” with the law numbered 6283 amending on the Social Insurance and General Health Insurance Law, published in the Official Gazette numbered 28227, dated 8 March 2012.

Lastly, based on the Council of Ministers’ decree numbered 2014/6042 and issued in the Official Gazette numbered 28987, dated 30 April 2014, and 20<sup>th</sup> provisional article of law numbered 506, the deadline for transferring banks, insurance and reinsurance companies, chambers of commerce, chambers of industry, exchange markets and the participants of the funds that were founded for the personnel constituting these entities and the ones having salary or income and the right holders of them to Social Security Institution has been extended for one year.

The technical balance sheet report as of 31 December 2013 which is prepared in accordance with the new law and the rate determined as 9,80%, concluded no technical deficit arises in the above mentioned fund. Since the Bank has no legal right to hold the present value of any economic benefits available in the form of refunds from Pension Fund or reductions in future contributions to Pension Fund, no asset is recognized in the Parent Bank’s financial statements.

**XVII. EXPLANATIONS ON TAXATION**

**EXPLANATIONS ON ACCOUNTING POLICIES (Continued)**

**XVII. EXPLANATIONS ON TAXATION (Continued)**

**a. Current Tax (Continued)**

"Corporate Tax Law" ("New Tax Law") No. 5520 was taken into effect after being published in the Official Gazette dated 21 June 2006 No.26205. Many clauses of the "New Tax Law" are effective from 1 January 2006. According to the New Tax Law, the corporate tax rate in Turkey is payable at the rate of 20% as of 1 January 2006. The corporate tax rate is calculated on the total income of the Bank after adjusting for certain disallowable expenses, exempt income (like affiliate gains) and other allowances. No further tax is payable unless the profit is distributed.

Dividends paid to non-resident corporations, which have a place of business or permanent attorney in Turkey or to resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as profit distribution and no withholding tax incurs in such a case.

Corporations are required to pay advance corporate tax quarterly at a rate of 20% on their corporate income. Advance tax is declared by the 14th and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations for the current period is credited against the annual corporation tax calculated on the annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be refunded or used to offset any other financial liabilities to the government.

A 75% portion of the capital gains derived from the sale of equity investments and immovable properties held for at least two years is tax exempt, if such gains are added to paid-in capital in accordance with Corporate Tax Law or held in a special account under shareholder's equity for five years.

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments with tax authorities. Tax returns are required to be filled and delivered to the related tax office until the evening of the 25th of the fourth month following the balance sheet date and the accrued tax is paid until the end of the same month. Tax returns are open for 5 years from the beginning of the year following the balance sheet date and during this period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

Tax rates used in tax calculation considering the related countries' tax legislation as of 30 June 2014 are presented below:

|                    |        |
|--------------------|--------|
| Russia             | 20,00% |
| Kazakhstan         | 20,00% |
| Germany            | 15,00% |
| Bosnia Herzegovina | 10,00% |

**b. Deferred tax**

In accordance with TAS 12 "Income Tax", the Parent Bank calculates and recognizes deferred tax for temporary differences between the bases calculated based on the accounting policies used and valuation principles and that calculated under the tax legislation.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and are accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences. However, deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such assets and liabilities are not recognized as deferred tax liability or asset if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of a deferred tax asset is reviewed at each balance sheet date. Carrying amount of a deferred tax asset can be reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to be applied in the period in which the liability is settled or the asset realized and reflected in the statement of income as expense or income. Moreover, if the deferred tax is related with items directly recorded under the equity in the same or different period, deferred tax is associated directly with equity.

The calculated deferred tax asset and deferred tax liability are presented as net in these financial statements.

The deferred tax benefit is not taken into account in profit distribution in accordance with the relevant circular of BRSA.

**Technical Reserves**

Within the framework of Regulation on Technical Reserves, insurance companies are required to account for an unexpired risk reserve against the probability that, future losses incurred from in force policies may exceed the unearned premium reserve accounted for the related policies considering expected ratios. Expected loss ratio is calculated by dividing the current year incurred losses to current year earned premiums. In accordance with “the circular about the Change of Unexpired Risks Reserve Calculation” numbered 2012/15 published by Treasury, if the loss ratio for a branch is higher than 95%, net unexpired risk reserve for that branch is calculated by multiplying the ratio in excess of 95% with net unearned premium reserve for the related branch; and gross unexpired risk reserve for that branch is calculated by multiplying the ratio in excess of 95% with gross unearned premium reserve for the related branch. The difference between gross and net amounts is considered as the reinsurance share.

*Reserve for unearned premiums:*

**EXPLANATIONS RELATED TO FINANCIAL POSITION OF THE BANK (Continued)**

**V. EXPLANATIONS ON THE CONSOLIDATED LIQUIDITY RISK**

General principles of liquidity and financial emergency situation management and the related application procedures are considered in the scope of "Liquidity Risk and Liquidity and Financial Emergency Situation Management".

The Parent Bank performs "Remaining Maturity Analysis" for the observation of the maturity structure of the balance sheet, "Liquidity Gap" and "Structural Liquidity Gap Analysis" for the monitoring of the liquidity and between periods and Liquidity Stress Test for the evaluation of the Parent Bank's liquidity and in the worst case scenario and the loss associated with it. The renewal of deposits which constitutes the Parent Bank's most crucial funding resource is monitored on a daily basis. Besides, in order to compare the Bank's level of liquidity risk with the sector, average remaining maturity balances of Bank-Sector and legal liquidity rates are monitored.

The Parent Bank calculates liquidity adequacy ratio and reports to BRSA on a weekly basis in accordance with the "Measurement and Assessment of Liquidity Adequacy of Banks" issued in the Official Gazette numbered 26333 and dated 1 November 2006. The liquidity adequacy of the Parent Bank is over the limit values specified in the mentioned regulation.

**a) Basis for the current liquidity risk of the Parent Bank and whether the necessary measures taken, limitations imposed by the Parent Bank's Board of Directors on fund sources that can be used in payment of matured debts and can meet the immediate liquidity need:**

The Parent Bank's source of funds is mainly composed of deposits. The Parent Bank's deposits do not fluctuate considerably in line with the broadly dispersed customer network. Besides, internal and external sources that can be used to meet the immediate liquidity need are monitored periodically. Borrowing limits of the Parent Bank from organized markets and other financial institutions can cover the corresponding liquidity gaps with different periods. Parent Bank limits its liquidity risk exposure by the approval of Board of Directors in context with "Liquidity Risk and Liquidity and Financial Emergency Situation Management".

**b) Consistency of payments with the assets and liabilities and the interest rates, measurement of the probable effects of the actual inconsistency on profitability:**

The consistency of payments with the assets and liabilities and the interest rates are followed regularly by the management and no inconsistency exists.

**c) Internal and external sources for short and long-term liquidity needs of the Parent Bank, unused significant liquidity sources:**

Although the average maturity of the Parent Bank's assets are longer when compared to the maturity of deposits, securities with coupon payments are constituting majority of the securities portfolio and installments of loans supply regular cash inflow for the Parent Bank. Besides, volume of deposits constituting the majority of the liabilities is not subject to significant changes. The Parent Bank also provides funds from long term financial transactions.

**d) Evaluation of amount and sources of the Parent Bank's cash flows:**

The Parent Bank's major source of funds are deposits, funds are utilized as securities portfolio, other banks and loan placements. Since the most significant cash inflows are originated from securities portfolio and systematical cash inflows from these assets are regular, it is accepted as a liquidity risk reducing factor. Furthermore, periodical collections on loans have a role to cover the Parent Bank's need for funds.

(1) For the presentation of operating income, intradepartmental interest charged between branches and Treasury Operations Department is considered in order to present operations of related departments accurately. However, debtor-creditor relations arising from funds transferred between branches are not included in table since they could not be reported separately.

(2) “Dividend income”, a part of operating income of the Parent Bank, is included in the “Income from Subsidiaries” row since it could not be decomposed between segments.

(3) The total of tangible and intangible assets, tax asset, other assets and tangible fixed assets held for sale is shown in “Undistributed Assets” row, whereas the total of borrowings, miscellaneous payables, other liabilities, finance lease payables, provisions and tax liability is shown in “Undistributed Liabilities” row.
