**CONVENIENCE TRANSLATION OF THE INDEPENDENT AUDITOR'S
REVIEW REPORT ORIGINALLY PREPARED AND ISSUED IN TURKISH**

To the Board of Directors of Türkiye Cumhuriyeti Ziraat Bankası A.Ş.

We have reviewed the accompanying unconsolidated balance sheet of Türkiye Cumhuriyeti Ziraat Bankası A.Ş. ("the Bank") at 30 June 2010 and the related unconsolidated statements of income, cash flows and changes in shareholders' equity for the period then ended. These financial statements are the responsibility of the Bank's management. Our responsibility, as independent auditors is to issue a report on these financial statements based on our review. The financial statements of the Bank as at and for the year ended 31 December 2009 were audited by another auditor whose report dated 1 March 2010 expressed an unqualified opinion.

We conducted our review in accordance with the Uniform Chart of Accounts of banks, accounting standards and the independent audit principles in conformity with Banking Law No. 5411. Those principles require that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to inquiries concerning the Bank's personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial statements do not give a true and fair view of the financial position of Türkiye Cumhuriyeti Ziraat Bankası A.Ş. at 30 June 2010 and the results of its operations and its cash flows for the period then ended in accordance with accounting principles and standards set out by regulations in conformity with Article 37 of Banking Law No. 5411 and other regulations, interpretations and circulars published by the Banking Regulation and Supervision Agency on accounting and financial reporting principles.

Additional paragraph for convenience translation:

As explained in Note I. of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with Article 37 of Banking Law No. 5411, accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

GENERAL INFORMATION ABOUT THE BANK (Continued)

V. SUMMARY INFORMATION ON THE BANK’S ACTIVITIES AND SERVICES

The purpose of activity of the Bank is stated in articles of association as to perform all kinds of banking activities including acceptance of deposits. For this purpose, the Bank can perform all sorts of operations, without prejudice to the provisions of the banking regulations and other legislations, such as launching all kinds of cash and non-cash loans in terms of Turkish Lira and foreign currencies, acting as an intermediary in trade and issue of the financial instruments that are used in local and international markets, performing investment banking transactions, forwards dealing in domestic and foreign futures markets, providing funds from interbank money market, domestic and foreign markets, making all kinds of capital market transactions, acting as an intermediary in export and import transactions, acting as an agency for insurance and other financial institutions, participating in all sort of partnership that is founded by domestic or foreign banks or participated by them within the terms of the related legislation or establishing new partnerships for this purpose, performing all kinds of conservative transactions, such as; acquiring limited real and personal claims like all kinds of movable and immovable goods, industrial and intellectual properties, right of usufruct, easement, superficies and disposing and transferring acquired properties and rights, placing pledge and mortgage on those properties and rights, releasing pledged and mortgaged items and declaring leasing agreements and sale commitments to the Registry Office.

As of June 30, 2010, Bank carries its activities with a grand total of 1.360 branches; 1.342 domestic branches including 1.241 branches, 29 bureaus, 69 private operation centers, 1 charge bureau, 2 mobile branches (31 December 2009: 1.305 domestic branches including 1.203 branches, 29 bureaus, 70 private operation centers, 1 charge bureau, 2 mobile branches) and abroad branches each in United States (New York), England (London), Georgia (Tbilisi) and Iraq (Baghdad), 2 branches in Greece (Athens, Komotini), 3 branches in Bulgaria (Sofia, Filibe/Plovdiv Subbranch, Kardzhali Subbranch), 5 branches (Lefkoşa, Girne, Güzelyurt, Gazimağusa, Gönyeli) and 2 bureaus (Paşaköy and Near East University) in Turkish Republic of Northern Cyprus. Also, Bank has 1 representative office in Pakistan (Karachi) and Iran (Tehran). Moreover, preparations for opening a branch in Saudi Arabia (Jeddah) are still continuing.

The Bank signed a contract with T. İş Bankası A.Ş. on January 22, 2007 to provide longer installment plan and bonus points to their credit card users and benefit from all the advantages within Maximum credit card at merchants that are a part of Maximum plan. Also with this contract the Bank has the right to register members for Maximum. Transactions between the two banks are administered by Interbank Card Centre.

Başakkart is a bank card through which demand deposit accounts and agricultural loan accounts can be linked. Bank, in line with the demands of the customers, can enable the usage of agricultural loan limits associated with the Başakkart. All limits of loan accounts assigned to the Başakkart can be used via POS machines of the Bank in Başakkart Member Business points for the purchase of agricultural inputs (feed, grain, fuel, etc.). According to preferences of customers, maximum 75% of cash limits of loan accounts can be used through the branches/ATMs of the Bank. Repayments regarding the transactions with Başakkart can be made through the branches of the Bank. Agricultural products/services obtained by using Başakkart are repaid without any interest charge within the time periods defined by the Bank.

TÜRKİYE CUMHURİYETİ ZİRAAT BANKASI A.Ş.
NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AT 30 JUNE 2010
(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES

I. BASIS OF PRESENTATION

The Bank maintains its books of accounts in Turkish Lira in accordance with the Banking Act No. 5411 (“Banking Act”), which is effective from 1 November 2005, the Turkish Commercial Code (“TCC”) and Turkish tax legislation.

The unconsolidated financial statements are prepared in accordance with the “Regulation on the Principles and Procedures Regarding Banks’ Accounting Application and Keeping Documents” published in the Official Gazette No. 26333 dated 1 November 2006 by the BRSA (“Banking Regulation and Supervision Agency”) which refers to “Turkish Accounting Standards” (“TAS”) and “Turkish Financial Reporting Standards”(“TFRS”) issued by the Turkish Accounting Standards Board (“TASB”) and other decrees, notes and explanations related to the accounting and financial reporting principles published by the BRSA. The format and the details of the publicly announced financial statements and related disclosures to these statements have been prepared in accordance with the “Communiqués Related to Publicly Announced Financial Statements of Banks and Explanations and Notes Related to these Financial Statements” published in the Official Gazette No. 26430 dated February 10, 2007.

The unconsolidated financial statements have been prepared in TL, under the historical cost convention as modified in accordance with inflation adjustments applied until 31 December 2004, except for the financial assets and liabilities carried at fair value.

Balance sheet and statement of off-balance sheet accounts are presented comparatively with audited balances as of December 31, 2009 while, statements of income, cash flows and changes in shareholders’ equity are presented comparatively with balances as of June 30, 2009 that are reviewed.

Unless otherwise specified, all balances in the financial statements and footnotes are expressed in Thousand Turkish Lira (Thousand TL).

The preparation of financial statements requires the use of certain critical estimates on assets and liabilities reported as of balance sheet date or amount of contingent assets and liabilities explained and amount of income and expenses occurred in related period. Although these estimates rely on the management’s best judgment, actual results can vary from these estimates.

The accounting policies and valuation principles applied in the preparation of these financial statements are defined and applied in accordance with TAS. Those accounting policies and valuation principles are explained in Notes II. to XXIV. below.

Additional paragraph for convenience translation into English:

The differences between accounting principles, as described in the preceding paragraphs, and accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

II. EXPLANATIONS ON THE STRATEGY OF USING FINANCIAL INSTRUMENTS AND FOREIGN CURRENCY TRANSACTIONS

Main activity of the Bank comprises banking services, such as; launching all kinds of cash and non-cash loans in terms of Turkish Lira and foreign currencies, performing transactions in local, international money and capital markets, supporting agricultural sector financially and collecting deposits in Turkish Lira and foreign currencies. The Bank’s main funding source is Turkish Lira deposits, repurchase agreements, shareholders’ equity and government funds transferred from the budget, ministerial offices and other public resources to the Bank by means of legislative and administrative decisions. The Bank directs these funds to assets with high return and low risk. These assets include predominantly domestic government bonds and loans. The Bank’s liquidity structure covers the financing of all liabilities at due date. Although most of the sources in the Bank’s balance sheet are with fixed interest rate, some of the securities in assets have floating interest rate. Since the remaining time to re-pricing date of sources is short, cost of sources is repriced in short periods based on the market conditions. Moreover, the Bank adopts high return principle for its long-term placements.

Loans and securities are instruments from which the Bank gets returns above the average returns within its lines of activity. Letter of guarantees, bank loans, commercial letter of credits, repayment commitments for cheques and expense limit commitments for credit cards are the most important risk areas within the off-balance sheet accounts.

Since the Bank’s total debt to the market is low among its total liabilities, the Bank can borrow easily from short-term markets, such as; Istanbul Stock Exchange (“ISE”), Central Bank of the Republic of Turkey, Money Market or Interbank Money Market in case of need. In case of a liquidity crisis, the deposit base of the Bank is not presumed to be significantly affected from such a case since the Bank is a public bank with an extensive branch network.

Cost and return of foreign currency assets are subject to a close follow up. Positive margin of profit is sustained by adjusting deposit interest rates in line with the market interest rates.

Foreign currency operations are recognized at transaction date and valued by Bank’s prevailing counter currency buying rate. At period ends, foreign currency asset and liability balances are valued at the Bank’s period end counter currency buying rates and translated to Turkish currency and the resulting exchange differences are recognized as a “Foreign exchange gain or loss”.

Foreign currency capital amounts transferred to the equity participations operating abroad are evaluated and presented on the financial statements with the exchange rate on the date of the transfer.

Except the Cyprus branches, assets and liabilities of the abroad branches of the Bank are translated into Turkish Lira with the Bank’s prevailing counter currency buying rates at the balance sheet date while, profit and loss are translated based on the average rates. Differences resulting from translation are followed under equity as “Other capital reserves”.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES, SUBSIDIARIES AND JOINT VENTURES

Based on the TAS 27 “ Turkish Accounting Standard for Consolidated and Separate Financial Statements”, Turkish Lira denominated investments in associates and subsidiaries are accounted at cost and are reflected to the unconsolidated financial statements after deducting the provision for impairment, if any.

Investments related to subsidiaries and joint ventures operating abroad in foreign currency are followed by their fair values. For these subsidiaries, fair value is determined by valuation reports, TL equivalents of investments related to subsidiaries are fixed as of revaluation date and revaluation differences added to subsidiaries’ values are recognized in “Marketable Securities Value Increase Fund” under shareholder’s equity.

IV. EXPLANATIONS ON FORWARD TRANSACTIONS, OPTIONS AND DERIVATIVE INSTRUMENTS

The Bank’s derivative transactions mostly include currency swaps and foreign exchange purchase and sale transactions. The Bank has no embedded derivative instruments separated from the host contract.

The derivative instruments of the Bank are classified as trading or hedging instruments in accordance with Turkish Accounting Standard on TAS 39 “Financial Instruments: Recognition and Measurement”. The Bank has no derivative instruments for hedging purposes as of the balance sheet date. Accordingly, the Bank is not subject to conditions whether derivative instruments do not meet the determination criteria for being classified as hedging instruments or whether such derivative transactions are finalized through sale, term expiry or fulfillment of obligations under the contract.

Derivative instruments are recognized at fair value on contractual date and subsequently re-valued at their fair values and associated with the income statement. If the fair value of derivative financial instruments is positive, it is disclosed under the main account “financial assets at fair value through profit or loss” in “trading derivative financial assets” and if the fair value difference is negative, it is disclosed under “financial liabilities at fair value through profit or loss” in “trading derivative financial liabilities”. Fair value changes are recorded under “Derivative Financial Transactions Gains/ (Losses)” in income statement.

The fair values of the derivative financial instruments are calculated using quoted market prices or by using discounted cash flow models.

Liabilities and receivables arising from the derivative instruments are followed in the off-balance sheet accounts from their contractual values.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

V. EXPLANATIONS ON INTEREST INCOME AND EXPENSES

Interest income and expenses are recognized on an accrual basis using the internal rate of return method in conformity with Turkish Accounting Standard on TAS 39 “Financial Instruments: Recognition and Measurement”. In accordance with the Communiqué on “Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions” came into force after being published in the Official Gazette numbered 26333 dated November 1, 2006, no interest accrual is calculated for non-performing loans. Realized interest accruals calculated for non-performing loans and recognized as income although not collected are reversed and interest income related to these loans is recognized as interest income only when they are collected.

VI. EXPLANATIONS ON FEE AND COMMISSION INCOME AND EXPENSE

Commission income from banking, agency, intermediary services and commission income from individual loans which are not attributable to interest rates applied is recognized as income on the date they are collected. Whereas, commission income from trade and agricultural cash loans and from individual loans in which the commission is in the form of interest, (depending on the amount of commission that the interest rate is changed) in accordance with the matching principle, are recognized on an accrual basis by using internal rate of return method and transferred to the income statement. The other fees and commission expenses are recorded as expense on the date they are paid.

VII. EXPLANATIONS ON FINANCIAL ASSETS

Financial instruments comprise financial assets and liabilities and derivative instruments. They are included in the balance sheet of the Bank, if the Bank is a legal party to these instruments.

Financial assets mainly constitute the Bank’s commercial activities and operations. These instruments have the ability to expose, affect and diminish the liquidity, credit and interest rate risks in the financial statements.

Financial assets are classified as investments held-to-maturity, bank loans and receivables, financial assets available for sale or held-for-trading at initial recognition.

Sale and purchase transactions of financial assets are accounted for using the settlement date basis.

Financial assets held for trading are securities that are either acquired for generating a profit from short-term fluctuations in price or dealer’s margin, or independent from acquisition reason, are securities included in a portfolio for short-term profit making purposes.

Trading securities are initially recognized at cost. The cost of the securities is recognized as fair value. Subsequently, trading securities are carried at fair value in the financial statements.

VII. EXPLANATIONS ON FINANCIAL ASSETS (Continued)

Government bonds and treasury bills included in held for trading and available for sale portfolios traded in ISE are carried at weighted average exchange prices of ISE as of the balance sheet date and those securities that are not traded in ISE are carried at prices of the Central Bank of the Republic of Turkey. Eurobonds are carried at prices in the over the counter markets.

The difference between the cost and fair value of held for trading securities is accounted under “Other Interest and Income Accrual” or “Impairment Loss for Marketable Securities” account. Interest received from financial assets held for trading is reflected as interest income. Investments held to maturity include financial assets other than Bank loans and receivables and those where there is an intention of holding until maturity and the relevant conditions for fulfillment of such intention, including the funding ability, and where there are fixed or determinable payments with fixed maturity. Marketable securities classified as Financial Assets Held to Maturity may subject to exchange-repurchase bids or refundment transactions within the scope of early redemption.

Financial assets available for sale include all securities other than loans and receivables, and those held to maturity and held for trading.

Investments held-to-maturity and financial assets available for sale are initially carried at cost. The cost is recognized as fair value.

Investments held to maturity are subsequently measured at amortized cost with internal rate of return, and they are accounted by setting forth provision for impairment loss (impairment loss expense) or by posting interest income accrual.

The Bank does not have any financial assets that are previously classified as investments held-to-maturity but prohibited to be classified in this portfolio for two years because of incompliance with the principles of financial assets classification.

Interests received from investments held to maturity are recognized as an interest income.

Financial assets available for sale are carried with their fair values in the financial statements.

The difference between fair value and cost is recorded as provision for impairment loss or interest income accrual. Moreover, values amortized with internal rate of return and costs are also compared and the difference is recognized as an interest income or expense for impairment losses. Fair values and amortized costs of those securities are subject to comparison and the difference is presented under shareholders’ equity as “Marketable Securities Revaluation Differences”.

Bank loans and receivables represent financial assets other than those held for trading or held for sale in a short period generated through providing cash, assets or rendering services to the debtor.

VII. EXPLANATIONS ON FINANCIAL ASSETS (Continued)

Bank loans and receivables are initially carried at cost. Bank loans are measured at amortized cost with internal rate of return. Short-term and long-term loans are grouped as open or guaranteed; FC loans are recognized with fixed price and at period-ends revalued by the counter foreign exchange buying rate of the Bank. Foreign exchange indexed loans are used as TL by the valid counter foreign exchange buying rate of the Bank at usage date. Repayments of these loans are collected as calculated TL value by the valid counter foreign exchange selling rate of Bank at installment date.

The Bank sets specific and general provisions for loans and other receivables in accordance with the regulations stated by the Communiqué published on the Official Gazette numbered 26333 and dated November 1, 2006 on “Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions”. However, the Bank does not limit the provision amount with the minimum rates defined in related regulation and allocates 100% specific provision for such loans without considering the guarantees. Allocated provisions are deducted from the income for the period. If the receivables for which provisions were set in the previous years are collected, provision for allowances are released and recognized as income under “Other Operating Income” account. Releases of current period provisions are made by the reversal of the amount from the “Provision for Impairment of Loans and Other Receivables” account.

VIII. EXPLANATIONS ON IMPAIRMENT OF FINANCIAL ASSETS

A financial asset or a group of financial assets is subject to impairment loss only if there is an objective indication that the occurrence of one or more than one event (“loss event”) subsequent to the initial recognition of that asset has an effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group.

If revalued amounts of financial assets at fair value through profit/loss is less than the prior revalued amounts, initially, value of prior records regarding the value increase are adjusted according to the recent value and if the impairment loss is more than the prior value increase, difference is reflected to “Value Loss Expenses for Securities”. If there is an increase in value, initially recognized impairment loss is reversed.

If financial assets available for sale are subject to permanent impairment, the amount is charged to “Value Loss Expenses for Securities” account in accordance with the related Turkish Accounting Standard.

If investment, subsidiaries, joint ventures and investments held to maturity financial assets are subject to permanent impairment, the amount is debited to “Value Loss Expense for Investments, Subsidiaries, Held to Maturity” account.

The principles for the accounting of provisions for loans and receivables are explained in detail in Note VII. of this section.

Loans and other receivables are classified in accordance with the Communiqué on “Methods and Principles on Determining the Nature of Loans, Other Receivables, and Allocation of Provisions” published in the Official Gazette numbered 26333 and dated November 1, 2006. However, the Bank does not limit the provision amount with the minimum rates defined in related regulation and allocates 100% specific provision, without considering the guarantees, for such loans and they are recognized in the statement of income.

VIII. EXPLANATIONS ON IMPAIRMENT OF FINANCIAL ASSETS (Continued)

In accordance with the provisions of the legislation mentioned in the previous page, the Bank provides general loan loss provisions for loans and its receivables in addition to specific provisions. Based on the decision of Bank’s Asset and Liability Management (“ALM”), total loans excluding loans originated from funds whose risk is not bore by the Bank and loans granted to institutions which are exempt from provisions according to Banking Law, general provision ratio is set as 3%. Additional provision provided upon this decision is presented under other provisions within the balance sheet. Based on the decision of Bank’s ALM, the Bank has cancelled general loan loss provisions for cash loans except credit cards lending from March 6, 2010 and provisions for possible risk based on ALM decision in accordance with the “Communiqué Related to Principles and Procedures on Determining the Qualifications of Banks’ Loans and Other Receivables and the Provision for These Loans and Other Receivables” published in the Official Gazette No. 27513 dated March 6, 2010.

IX. EXPLANATIONS ON OFFSETTING OF FINANCIAL ASSETS AND LIABILITIES

Financial assets and liabilities shall be offset and the net amount presented in the balance sheet when, and only when the Bank currently has a legally enforceable right to set off the recognized amounts or intends either to collect/settle on a net basis or to realize the asset and settle the liability simultaneously.

X. EXPLANATIONS ON SALES AND REPURCHASE AGREEMENTS AND SECURITIES LENDING TRANSACTIONS

Securities subject to repurchase agreements are classified under “held for trading”, “available for sale” and/or “held-to-maturity” portfolios and they are valued based on the revaluation principles of the related portfolios. Funds obtained by these agreements are followed under the “Funds from Repurchase Agreements” account in the balance sheet and interest expense accrual is calculated using the internal rate of return method.

Funds given against securities purchased under agreements (“Reverse Repo”) to resell are accounted under “receivables from reverse repurchase agreements” on the balance sheet and interest income accrual is calculated using internal rate of return method. As of 30 June 2010 the Bank has no reverse repo transactions (31 December 2009: None).

As of the balance sheet date, there are no lent securities.

XI. INFORMATION ON ASSETS HELD FOR RESALE AND RELATED TO DISCONTINUED OPERATIONS AND EXPLANATIONS ON LIABILITIES RELATED WITH THESE ASSETS

Tangible assets acquired in consideration of receivables are accounted for in accordance with the requirements of the Communiqué on “Methods, Principles for Purchase and Sale of Precious Metal and Sale of Goods and Immovables obtained in Return of Receivables” published in the Official Gazette numbered 26333 and dated November 1, 2006 and these assets are subject to revaluation by no means.

A discontinued operation is a part of the Bank’s business classified as sold or held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement.

The Bank has no discontinued operations.

XII. EXPLANATIONS ON GOODWILL AND OTHER INTANGIBLE ASSETS

As at the balance sheet date, the Bank has no goodwill within the financial statements.

Other intangible assets are measured at cost on initial recognition and any directly attributable costs of setting the asset to work for its intended use are included in the initial measurement. Subsequently, intangible assets are carried at historical costs after the deduction of accumulated depreciation and the provision for value decreases.

Other intangible assets are amortized by using the straight line method based on their useful lives. Useful lives of other intangible assets are determined by the consideration of items as; useful life of asset, maintenance costs incurred to obtain expected economical benefit from assets and technical, technological or any other type of obsolescence. Amortization method used in the current period is not subject to any change. Depreciation period is 5 years (20% annual depreciation rate) for establishment/formation expenses for other intangible assets with uncertain leasing period or leasing period over 5 years and depreciation rate is proportional with period for those with certain leasing period.

The Bank recognizes its software costs incurred under the intangible assets-intangible rights account and the expenses that do qualify as development are added to software’s initial costs and amortized over 3 years considering the useful lives.

XIII. EXPLANATIONS ON PROPERTY AND EQUIPMENT

Property and equipment is measured at its cost when initially recognised and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement. The Bank’s tangible fixed assets purchased before January 1, 2005 are carried at inflation adjusted cost in the balance sheet before December 31, 2004 and its tangible fixed assets that are purchased subsequent to January 1, 2005 are valued at historical cost. Subsequent to recognition, tangible fixed assets are presented in financial statements at cost less any accumulated depreciation and impairment loss, if any. Tangible fixed assets are amortized by using the straight-line method over their estimated useful lives. No changes made in the current period regarding depreciation method.

Estimated depreciation rates of tangible fixed assets are as follows;

Buildings	: 2%
Vehicles, Furniture and Fixtures	: 2 - 20%

Where the carrying amount of an asset is greater than its estimated “Net Recoverable Amount”, it is written down to its “Net Recoverable Amount” and the provision for the diminution in value is charged to the income statement.

Property and equipment has not been re-valued in order to be presented at fair value in the financial statements.

XIII. EXPLANATIONS ON TANGIBLE FIXED ASSETS (Continued)

Gain or loss arising from the disposal or retirement of an item of tangible fixed assets is determined as the difference between the sales proceeds and the carrying amount of that asset and is recognized in profit or loss.

Ordinary maintenance and repair expenses of tangible fixed assets items are recognized as expenses. Investment expenditures that increase the future benefit by enhancing the capacity of tangible assets are capitalized. The investment expenditures include the cost components which are used either to increase the useful life or the capacity of the asset or the quality of the product or to decrease the costs.

There are no mortgages, pledges or similar precautionary measures on tangible fixed assets or commitments given for the purchase or any restrictions designated for the use of those tangible fixed assets.

XIV. EXPLANATIONS ON LEASING TRANSACTIONS

Financial Lease

The Bank, as the lessee, recognizes its leasing operations in accordance with the requirements of the Turkish Accounting Standards TAS 17 “Leases”. Fixed assets that are acquired under financial leasing are amortized with respect to the rates used for directly acquired assets that have similar nature. Assets held under financial leases are recognized under the tangible fixed assets account and are depreciated on annual and monthly basis with respect to their useful lives. Principal and installment paid for tangible fixed assets that are acquired under financial leasing are charged to liability account “Finance Lease Payable”, whereas interests are recognized in “Deferred Financial Leasing Expenses” account. At installment payments, principal and interest amount of installment amount are debited to “Financial Lease Payable” account, whereas interest is credited in “Deferred Financial Leasing Expenses” account and recorded to the other interest expenses.

The Bank does not perform financial operations as “Lessor”.

Operational Lease

Leases, in which the majority of risk and return of property belongs to lessor, are classified as operating lease. Payments that are made as operating leases are accounted in income statements with linear method during the lease period.

XV. EXPLANATIONS ON PROVISIONS, CONTINGENT ASSET AND LIABILITIES

Provisions other than the specific and general provisions set for loans and other receivables and provisory liabilities are accounted in accordance with TAS 37 “Turkish Accounting Standard on Provisions, Contingent Liabilities and Contingent Assets Corresponding”.

The Bank provides provision in case of an existing liability (legal or implicit) as a result of an incident that took place in the past, there is possibility of disposal of assets that bring economic benefit and the liability is measurable. When a reliable estimate of the amount of obligation cannot be made, it is considered that a “contingent” liability exists and it is disclosed in the related notes to the financial statements.

XV. EXPLANATIONS ON PROVISIONS AND CONTINGENT LIABILITIES (Continued)

For transactions that can affect financial structure, provisions are provided by using the existing data if they are accurate, otherwise by using the estimates.

As of the balance sheet date, there are no probable contingent liabilities resulting from past events whose amount can be reliably measured.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements in which the change occurs.

XVI. EXPLANATIONS ON OBLIGATIONS RELATED TO EMPLOYEE RIGHTS

a. Employment Termination and Vacation Benefits

Employee benefits liabilities are recognized in accordance with the TAS 19 “Employee Benefits” and the Bank provides provision for retirement and termination liabilities by estimating the net present value of future payments of the Bank arising from the retirement of employees and reflects this provision amount in the financial statements.

Under the Turkish legislation as supplemented by union agreements, Employment Termination Benefit payments are made in case of retirement or employment termination According to the related legislation, depending on the status and position of the employee in the Bank and social security institution, Employment Termination Benefit Provision is calculated in two ways; if the employee is a state employee, the calculation is based on retirement pension for the working period of the state employee, and if the employee is a blue-collar worker the calculation is based on the final salary at the date of retirement or leave (to the extent that the payments and/or salary amount does not exceed the Employment Termination Benefit Provision ceiling).

As the data on the unused vacation time could not be obtained from the application system and the legislation requires 10 days of paid leave to be used at minimum, the assumption that 12 days of paid vacation is used on average, unused vacation liability is calculated by deducting 12 days of paid vacation from the total earned vacation time.

The Bank is not employing its personnel by means of limited-period contracts.

b. Pension Rights

Some of the Bank’s personnel are the members of T.C. Ziraat Bankası and T. Halk Bankası A.Ş. Employees Pension Fund which was established by 20th provisional article of Social Security Law Act numbered 506.

XVI. EXPLANATIONS ON OBLIGATIONS RELATED TO EMPLOYEE RIGHTS (Continued)

In accordance with 23rd provisional clause of the Banking Act numbered 5411, the pension fund established within Social Security Law is expected to be transferred to the Social Security Institution by three years following the declaration of the Banking Act numbered 5411. Procedures and principles of the transfer are determined by the decision of Council of Ministers numbered 2006/11345 dated November 30, 2006. However, the 1st paragraph of the 1st article of the 23rd provisional clause of Banking Act numbered 5411 allowing pension funds to be transferred to Social Security Institution (“SSI”) is annulled following the resolution of Constitutional Court declared in the Official Gazette dated March 31, 2007 numbered 26479 E.2005/139, K.2007/13 and K.2007/33.

With the publication of the reasoning of the decision, the Grand National Assembly of Turkey (“GNAT”) started to work on new legal arrangements regarding the transfer of the fund members to SSI and the related articles of the “Law Regarding the Changes in Social Insurance and General Health Insurance Law and Other Related Laws and Regulations” No 5754 (“the New Law”) regulating the transfer of the funds were approved by the GNAT on April 17, 2008. The New Law was published in the Official Gazette dated May 8, 2008, numbered 26870 and came into force.

It has been applied to the Constitutional Court at 19 June 2008 for cancellation of some articles of the new law about transfer of pension funds to Social Security Agency and requested them to be ineffective. As of the date of the publication of the financial statements, there is no decision of the Constitutional Court announced regarding the court case of abrogation.

According to the new law bank pension funds participants and salaried members or the rightful owners would be transferred to Social Security Institution and would be subject to its legislation within three years beginning from the date of publication without any required transaction. Three years transfer period would be extended by two years at most with the decision of Council of Ministers. In accordance with the related legislation, as of the transfer date, the cash value of the liabilities will be calculated by considering the income and expenses of the transferred funds by the insurance branches and by using the actuarial interest rate of 9.80%. Moreover, the unfulfilled other social rights and payments existed in the settlement deeds of the subjected pension funds of the transferred participants, members or the rightful owners will be continued to be fulfilled by the employer entities of the funds and its participants.

In accordance with 58th article and 7th provisional article of the Banking Act, restricting banks from transferring any funds to the pension funds in order to compensate the actuarial deficits effective from January 1, 2008, has been delayed up to 5 years.

The technical balance sheet report as of December 31, 2009 which is prepared in accordance with the new law and the rate determined as 9,80%, concluded no technical deficit arises in the above mentioned fund. Since the Bank has no legal right to hold the present value of any economic benefits available in the form of refunds from Pension Fund or reductions in future contributions to Pension Fund, no asset is recognized in the Bank’s financial statements.

XVII. EXPLANATIONS ON TAXATION

a. Current Tax

“Corporate Tax Law” (“New Tax Law”) No. 5520 was taken into effect after being published in the Official Gazette dated 21 June 2006 No.26205. Many clauses of the “New Tax Law” are effective from 1 January 2006. According to the New Tax Law, the corporate tax rate in Turkey is payable at the rate of 20% as of 1 January 2006. The corporate tax rate is calculated on the total income of the Bank after adjusting for certain disallowable expenses, exempt income (like affiliate gains) and other allowances. No further tax is payable unless the profit is distributed.

Dividends paid to non-resident corporations, which have a place of business or permanent attorney in Turkey or to resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as profit distribution and no withholding tax incurs in such a case.

Corporations are required to pay advance corporate tax quarterly at a rate of 20% on their corporate income. Advance tax is declared by the 14th and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations for the current period is credited against the annual corporation tax calculated on the annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be refunded or used to offset any other financial liabilities to the government.

A 75% portion of the capital gains derived from the sale of equity investments and immovable properties held for at least two years is tax exempt, if such gains are added to paid-in capital in accordance with Corporate Tax Law or held in a special account under shareholder’s equity for five years.

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments with tax authorities. Tax returns are required to be filled and delivered to the related tax office until the evening of the 25th of the fourth month following the balance sheet date and the accrued tax is paid until the end of the same month Tax returns are open for 5 years from the beginning of the year following the balance sheet date and during this period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

b. Deferred tax

In accordance with the TAS 12 "Income Tax", the Bank calculates and recognizes deferred tax for temporary differences between the bases calculated based on the accounting policies used and valuation principles and that calculated under the tax legislation.

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)**

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XVII. EXPLANATIONS ON TAXATION (Continued)

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and are accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences. However, deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such assets and liabilities are not recognized as deferred tax liability or asset if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of a deferred tax asset is reviewed at each balance sheet date. Carrying amount of a deferred tax asset can be reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to be applied in the period in which the liability is settled or the asset realized and reflected in the statement of income as expense or income. Moreover, if the deferred tax is related with items directly recorded under the equity in the same or different period, deferred tax is associated directly with equity.

The calculated deferred tax asset and deferred tax liability are presented as net in these financial statements.

The deferred tax benefit is not taken into account in profit distribution in accordance with the relevant circular of BRSA.

XVIII. EXPLANATIONS ON BORROWINGS

The Bank accounts its debt instruments in accordance with the TAS 39 "Financial Instruments: Recognition and Measurement". In the following periods, all financial liabilities are carried at amortized cost by using the internal rate of return method. The Bank has no borrowings that require hedging techniques for accounting and revaluation of debt instruments and liabilities representing the borrowings.

The Bank has issued no convertible bonds and has no instruments representing its own borrowings.

XIX. EXPLANATIONS ON ISSUANCE OF SHARE CERTIFICATES

Since the Bank does not have issued shares, there are no transaction costs related to share issue in the current period.

XX. EXPLANATIONS ON AVALIZED DRAFTS AND ACCEPTANCES

Commitments regarding bill guarantees and acceptances of the Bank are presented in the “Off-Balance Sheet” commitments.

XXI. EXPLANATIONS ON GOVERNMENT GRANTS

There are no government incentives utilized by the Bank as of the balance sheet date.

XXII. CASH AND CASH EQUIVALENTS

Cash and cash equivalents are cash on hand, demand deposits and other highly liquid short-term investments with maturities of 3 months or less following the date of acquisition, which is readily convertible to a known amount of cash, and does not bear the risk of significant amount of value change. The book values of these assets represent their fair values. Cash equivalents and balances regarding banks are valued by the period end counter foreign currency buying rate of the Bank.

For the purposes of the cash flow statement, “Cash” includes cash, effectives, cash in transit, purchased cheques and demand deposits including balances with the Central Bank; and “Cash equivalents” include interbank money market placements and time deposits at banks with original maturity periods of less than three months.

XXIII. EXPLANATIONS ON SEGMENT REPORTING

Information about operating segments which are determined in line with TFRS 8 “Turkish Accounting Standard about Operating Segments” together with organisational and internal reporting structure of the Bank, are disclosed in Note VI. of Section Four.

XXIV. EXPLANATIONS ON OTHER MATTERS

The General Assembly for year 2009 was carried out on May 24, 2010. In accordance with the decision taken, of the profit for the year 2009 amounting to TL 3.510.955 Thousand, TL 161.584 Thousand is transferred to legal reserves, TL 102.090 Thousand is distributed as dividend to employees provided that dividend amount does not exceed two month gross wage for each employee and TL 800.000 Thousand is distributed to Undersecretariat of Treasury after deducting withholding tax of 15% (TL 141.176 Thousand) in cash on May 26, 2010. In addition to TL 1.926.303 Thousand of the profit for the year 2009, deferred tax income amounting to TL 279.274 Thousand is not distributed. EXPLANATIONS RELATED TO FINANCIAL POSITION OF THE BANK

I. EXPLANATIONS ON THE CAPITAL ADEQUACY STANDARD RATIO

1. The Bank’s unconsolidated capital adequacy ratio, reasons and anticipated solutions in case the ratio is lower than the amount pre-determined by the Communiqué:

The Bank’s unconsolidated capital adequacy ratio calculated in accordance with the Communiqué on “Measurement and Assessment of Capital Adequacy of Banks” is 20,52% (31 December 2009 23,22%).

2. The risk measurement methods used for calculation of capital adequacy ratio:

Capital Adequacy Standard Ratio is calculated in accordance with the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks", which was published in the Official Gazette, dated November 1, 2006 and numbered 26333.

In the computation of capital adequacy standard ratio, information prepared in accordance with the statutory accounting requirements is used. Additionally, the market risk, the credit risk and the operational risk amounts are calculated in accordance with the Communiqué on the “Measurement and Assessment of Capital Adequacy of Banks” and is taken into consideration in the capital adequacy standard ratio calculation.

Amounts deducted from the capital in the calculation of shareholders’ equity are not considered in the calculation of risk-weighted assets, non-cash loans and contingent liabilities. Assets subject to depreciation and value loss among risk-weighted assets are included in the calculations over their net book values after deducting the relative depreciation and value loss.

In the calculation of the amounts subject to credit risk regarding the transactions on the non-cash loans, the net receivable amount from the counter parties is calculated by deducting the specific provision amount set in accordance with the Communiqué on “Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions”, if any, and the net amount is multiplied by the conversion rates presented in Clause (1) in Article 5 of the Communiqué on “Measurement and Assessment of Capital Adequacy of Banks”. Then the risk ratios declared in the Capital Adequacy Analysis Form are used to weight the resulting amount.

To calculate the amounts subject to credit risk for foreign exchange and interest rate transactions, receivables from counter parties are multiplied by the conversion rates stated in Clause (2), Article 5 of the Communiqué on “Measurement and Assessment of Capital Adequacy of Banks” and weighted by risk weights declared in the Capital Adequacy Analysis Form.

II. EXPLANATIONS ON THE MARKET RISK

- a) **Whether measures are taken to hedge against market risk under the framework of the Bank’s risk management policies, measures taken for the risk management by the Board of Directors when the Bank is exposed to market risks, methods used to measure market risk and timing of market risk measurement:**

The Bank has established market risk management operations and taken the necessary measures in order to hedge market risk within its financial risk management purposes, in accordance with “Measurement and Assessment of the Capital Adequacy of Banks” issued in the Official Gazette numbered 26333 and dated November 1, 2006.

Market risk management strategy policy and implementation procedures of the Bank are determined within the context of “Regulation for Market and Financial Statement Risks and Liquidity and Financial Emergency State Management”.

Bank pays attention not to change the position materially in the view of foreign exchange position management and maximum position amount is limited. Also, there is position limit application for limiting interest rate risk stated within the context of market risk of Bank.

Bank reaches the amount subject to the total market risk by using Standard Method as per monthly periods within the context of legal reporting. This amount is included in the calculation of Bank’s Standard Capital Adequacy Ratio.

Daily Value at Risk (“VAR”) forecasts are made based on financial instruments with different risk factors and portfolios in the Bank and are reported to the related units. Also, backward testing is performed so as to measure performance of used model. Bank limits market risk exposure by VAR based limit within the context of “Regulation for Market and Financial Statement Risks and Liquidity and Financial Emergency State Management”.

Also, Bank performs monthly market risk stress tests so as to observe the effect of excessive market fluctuations that are not covered by models over the Bank’s financial position.

III. EXPLANATIONS ON THE CURRENCY RISK

- a) Whether the Bank is exposed to foreign currency risk, whether the effects of this matter are estimated, whether limits for the daily followed positions are determined by the Board of Directors:**

The Bank’s policy is to avoid carrying significant position by means of foreign currency management. Therefore, the Bank is not exposed to significant currency risks. Risks are monitored by the currency risk tables prepared based on the standard method. Besides, Value at Risk (VAR) is calculated for daily foreign exchange position and reported to the related departments.

Moreover, dealer’s positions and limits for foreign exchange transactions are under the authorization of the Board of Directors.

- b) Hedge against foreign exchange debt instruments and net foreign exchange investments by hedging derivative instruments, if material:**

None.

- c) Management policy for foreign currency risk:**

“Liquidity Gap Analysis”, “Repricing Gap Analysis” and “Structural Liquidity Gap Analysis” which takes into account historical repricing rates of foreign currency accounts, are prepared periodically in order to define liquidity and interest rate risks at US Dollar and Euro, which are mainly used by the Bank in its operations. Also, daily VAR analysis for following the currency risk and within the context of legal reporting, Foreign Currency Net General Position/Shareholders’ Equity Ratio and Foreign Currency Liquidity Position are also monitored regularly.

EXPLANATIONS RELATED TO FINANCIAL POSITION OF THE BANK (Continued)

IV. EXPLANATIONS ON THE INTEREST RATE RISK

The Bank’s structural interest rate management policy and methods of applications are set under the scope of “Regulation for Market and Financial Statement Risks and Liquidity and Financial Emergency State Management”.

The structural interest rate risk analysis is made based on the income and economic value approaches. Under economic value approach, the Bank is applying the Banking Accounts Interest Shock Value Loss analysis, whereas under income approach the Bank is applying Net Interest Margin/Income analysis. The Banking Accounts Interest Shock Value Loss Analysis is applied over interest rate sensitive balance sheet items excluding the positions subject to the market risk and the results are compared with discounted total assets. At the Net Interest Margin/Income analysis the change in the interest income of the Bank resulting from changes in interest rates is analyzed. About the structural interest rate risk the duration analysis is applied at the Bank. The Bank limits the interest rate exposure. Moreover, an early warning system regarding the structural interest rate risk has also been established by the Bank.

a) Measurement of interest rate sensitivity of assets, liabilities and off-balance sheet items:

Interest rate sensitivity of assets and liabilities is followed periodically by applying various analysis methods.

b) Effects of interest rate fluctuations in the market on financial position and cash flow of the Bank, expectations on interest income, limitations on daily interest rates by the Bank’s Board of Directors:

To eliminate the negative effects of interest rate fluctuations in the market on the balance sheet of the Bank, Assets-Liabilities Committee follows interest margin and monitors its effects on profitability on a consistent basis. The committee makes interest rate arrangements especially for sources and defines the limits for the maximum interest rates considering the interest rate risk.

c) Measures taken for the current interest rate risk of the Bank and expected effects on the following periods’ net income and shareholders’ equity:

In the current period, the Bank is not exposed to any significant interest rate risk that requires structural changes in its positions or takes necessary measures.

EXPLANATIONS RELATED TO FINANCIAL POSITION OF THE BANK (Continued)

V. EXPLANATIONS ON THE LIQUIDITY RISK

General principles of liquidity and financial emergency state management and the related application procedures are considered in the scope of “Regulation for Market and Financial Statement Risks and Liquidity and Financial Emergency State Management”.

Regulation for Market and Financial Statement Risks and Liquidity and Financial Emergency State Management consist of subjects about early warning system and process of transition to liquidity and financial emergency state management.

The Bank calculates liquidity adequacy ratio and reports to BRSA on a weekly basis in accordance with the "Measurement and Assessment of Liquidity Adequacy of Banks" issued in the Official Gazette numbered 26333 and dated November 1, 2006. The liquidity adequacy of the Bank is over the limit values specified in the mentioned regulation.

a) **Basis for the current liquidity risk of the Bank and whether the necessary measures taken, limitations imposed by the Bank’s Board of Directors on fund sources that can be used in payment of matured debts and can meet the immediate liquidity need:**

The Bank’s source of funds is mainly formed of deposits. The Bank’s deposits do not fluctuate considerably in line with the broadly dispersed customer network. Besides, internal and external sources that can be used to meet the immediate liquidity need are monitored periodically. Borrowing limits of the Bank from organized markets and other financial institutions can cover the corresponding liquidity gaps with different periods. Bank limits its liquidity risk exposure by the approval of Board of Directors in context with “Regulation for Market and Financial Statement Risks and Liquidity and Financial Emergency State Management”.

b) **Consistency of payments with the assets and liabilities and the interest rates, measurement of the probable effects of the actual inconsistency on profitability:**

The consistency of payments with the assets and liabilities and the interest rates is followed regularly by the management and no inconsistency exists.

c) **Internal and external sources for short and long-term liquidity needs of the Bank, unused significant liquidity sources:**

Although the average maturity of the Bank’s assets is long when compared with the deposits, securities with coupon payments constituting majority of the securities portfolio supply regular cash inflow for the Bank. Besides, volume of deposits constituting the majority of the liabilities is not subject to significant changes. The Bank also provides funds from repo transactions.

d) **Evaluation of amount and sources of the Bank’s cash flows:**

The Bank’s major source of funds is deposits, and these funds are invested in securities portfolio, other banks and loan placements. Since most significant cash inflows are originated from securities portfolio and cash inflows from these assets are regular, the liquidity risk of the Bank is suggested to be reduced. Furthermore, periodical collections on consumer loans have role to cover the Bank’s need of fund source.

EXPLANATIONS RELATED TO FINANCIAL POSITION OF THE BANK (Continued)

VI. EXPLANATIONS ON OPERATING SEGMENTS

Organisational and internal reporting structure of the Bank is determined in line with TFRS 8 “Turkish Accounting Standard about Operating Segments”

The Bank has operations in retail banking, corporate and commercial banking, agricultural banking, treasury transactions and international banking areas.

Known as having the most extensive branch network in retail (consumer) banking sector, the Bank renders services, such as; deposits, consumer loans, loans originated from funds whose risk does not belong to the Bank, credit cards, automatic payment, cheques and notes, money transfer order, foreign exchange transactions, internet banking, mobile banking, safe-deposit box and insurance brokerage services. Moreover, existing instruments are improved and new banking instruments are created in order to benefit from services undertaken as being a state bank in increasing the profitability of the Bank. By Finart system, which is working in a centralized manner, the Bank has the technical infrastructure required by modern banking sector to meet its clients’ needs.

In the context of corporate and commercial banking, the Bank gives loans for operations, mid-term and long-term investment loans, foreign trade financing loans, letter of credits and guarantees in Turkish Lira and foreign currencies; renders other corporate finance related services, foreign exchange transactions and banking services to large-scale corporate clients and middle-small scale enterprises.

As the Bank is the main financial institution that meets the financing needs of agricultural sector, it extends agricultural operations and investment loans from its own sources for vegetable and animal production, fishery products and agricultural mechanization directly to producers and agricultural credit corporations. Besides, it gives support to entities and enterprises having operations in agricultural sector by acting as an intermediary for loans originated from funds.

Treasury operations are conducted by the Fund Management and Fund Management Middle Office Departments. By foregoing departments, the Bank’s liquidity is used for Turkish Lira, foreign exchange and securities transactions in local and international organized and over-the-counter markets, and enables sources of funds in Turkish Lira and foreign currencies according to the needs of the Bank. The Bank acts as an intermediary for transaction of securities and Eurobonds by the related departments, for transaction of shares and public offerings as an agency of Ziraat Yatırım Menkul Değerler A.Ş. and for transaction of investment funds founded by the Bank and Ziraat Yatırım Menkul Değerler A.Ş. and keeps records of these financial instruments and the Bank performs repo/reverse repo transactions. Besides the Bank performs derivative transactions which are accounted as held for trading. As financial derivative transactions, the Bank performs foreign currency forward agreements and currency swap transactions.

Besides, the Bank has commission revenue from insurance and other finance institutions by rendering agency services through its branches.

⁽¹⁾ Trade and corporate banking column includes results of operations and total assets and liabilities of 4 corporate and 7 trade branches of the Bank. Since any trading and corporate banking operations in other branches could not be distributed; they are not included in this column.

⁽²⁾ Real estate loans transferred from Emlak Bank and agricultural loans, liabilities regarding these loans and operating income related with them are included in “Specialized Banking” column. Besides, [the current period amounts in specialized banking column include the results and the assets and liabilities of the Bank’s 7 agricultural branches opened in current period \(Income from specialized banking operations are presented at “Specialized Banking” column and since the Bank’s deposit interest expense from related operations cannot be decomposed; these amounts are presented in operating profit row within “Retail Banking” column\).](#)

⁽³⁾ For the presentation of operating income, intradepartmental interest charged between branches and Treasury is considered in order to present operations of related departments accurately. However, debtor-creditor relations arising from funds transferred between branches are not included in table since they could not be reported separately.

⁽⁴⁾ “Dividend income”, a part of operating income of the Bank, is included in the “Income from Subsidiaries” row since it could not be decomposed between segments.

⁽⁵⁾ The total of tangible and intangible assets, tax asset and tangible fixed assets held for sale is shown in “Undistributed Assets” row, whereas the total of provisions and tax liability is shown in “Undistributed Liabilities” row.
