TÜRKİYE CUMHURİYETİ ZİRAAT BANKASI A.Ş.

INDEPENDENT AUDITOR'S LIMITED REVIEW REPORT

To the Board of Directors of
T.C. Ziraat Bankası A.Ş.
Ankara

1. We have performed a limited review of the accompanying balance sheet of T.C. Ziraat Bankası A.Ş. (the "Bank") as at June 30, 2007 and related statements of income, changes in shareholders' equity and cash flows for the period then ended. These financial statements are the responsibility of the Bank's management. As independent accountants our responsibility is to issue a report based on the limited scope review performed on these financial statements.
2. We conducted our review in accordance with the accounting rules and policies, and the accounting and auditing standards, set out as per the Banking Act No: 5411. Those standards require that we plan and perform the review to obtain limited assurance as to whether the financial statements are free of material misstatement. Since a review is principally limited to reviewing financial statements by applying analytical procedures, inquiring as to the integrity of the financial statements and making inquiries of management to obtain information, it is substantially less in scope than an audit and therefore provides a lesser assurance. We have not performed a full scope audit and accordingly we do not express an audit opinion.
3. Based on our limited review, we are not aware of any material modifications that should be made to the financial position, the results of its operations and cash flows of T.C. Ziraat Bankası A.Ş. for the period ended June 30, 2007 for them to be in conformity with the prevailing accounting principles and standards set out as per the Article No: 37 of the Banking Act No: 5411, and other regulations and pronouncements in respect of accounting and financial reporting made by Banking Regulation and Supervision Agency.

SECTION III: ACCOUNTING POLICIES

I. BASIS OF PRESENTATION (6)

- a. **Financial statements, related notes and explanations in this report are prepared in accordance with the Turkish Accounting Standards and Communiqué on “Banks’ Accounting Practice and Maintaining Documents”:**

According to Article 37 of the Banking Act No:5411, consulting the associations of institutions and the Turkish Accounting Standards Board, banks should apply uniformity in their accounting systems in line with the principles and procedures based on the international standards established by the Banking Regulation and Supervision Agency (BRSA); correctly record all their transactions; and timely and correctly prepare their financial reports in a style and format that will meet the requirements of providing information, that is clear reliable and comparable and suitable for auditing, analysis and interpretation. Besides, as also stated in 1st Provisional Article of the related Act, “Any legislation, which has been put into force, based on repealed provisions and the provisions, shall remain in force and effect before any decrees, regulations and communiqués shall be put into effect in accordance with the related Act that are not in conflict herewith”.

In this context; the Bank’s unconsolidated financial statements are prepared in accordance with the Communiqué on “Procedures And Principles Regarding The Accounting Practices And Documentation of Banks” published in the Official Gazette No: 26333 on November 1, 2006, the Turkish Accounting Standards (TAS) and Turkish Financial Reporting Standards (TFRS) effective by the Turkish Accounting Standards Board. The Bank’s accounting records are filed in accordance with the Banking Act, Turkish Commercial Code and Turkish Tax Legislation.

Balance sheet and statement of off balance sheet items is presented comparatively with the December 31, 2006 audited balances, while income statement, cash flow statement and statement of shareholder’s equity is presented comparatively with the June 30, 2006 reviewed balances.

Unless otherwise specified, all balances in the financial statements and footnotes are expressed in Thousand of New Turkish Lira (TRY).

SECTION III: ACCOUNTING POLICIES (cont'd)

I. BASIS OF PRESENTATION (6) (cont'd)

c. Accounting Policies Followed:

Accounting policies used in preparing financial statements are defined and applied according to the principles of TAS. In this scope, accounting policies used for the true understanding of these financial statements are explained in this section. The Bank, used to provide 100% of provision for liabilities related to retirement and termination payments within the context of the Communiqué No:10 on “Recognition of Former Employee Benefits” in the prior periods. In accordance with the Turkish Accounting Standard “Employee Benefits” (TAS 19) put into effect by the BRSA on 1 November 2006, liabilities arising from retirement and termination payments are re-calculated by discounting them and March 31,2006 financial statements are restated in accordance with the related standard. On the other hand, foreign exchange differences from associates, subsidiaries and entities under common control are followed under the shareholders’ equity. In addition to these, accounting principles used during the preparation of prior period financial statements are also used in the June 30, 2007 financial statements without any changes.

d. Different accounting policies applied to financial statement items during the preparation of the consolidated financial statements and their proportions to the total amount of the related accounts in the consolidated financial statements:

The Bank does not prepare consolidated financial statements in accordance with the following provision of the paragraph 5 (Requirement for Preparing Consolidated Financial Statements) of Article 5 of the Communiqué on “Preparation of Consolidated Financial Statements of Banks” published in the Official Gazette No: 26340 on 8 November 2006: “If total assets of a subsidiary or entity under common control qualified as a loan or financial institution is less than 1% of the Parent Bank’s total assets and if total of shares of a subsidiary or entity under common control qualified as a loan or financial institution below that limit does not exceed 5% of the Parent Bank’s total assets, those entities may be excluded from consolidation under the consideration of the materiality principle”.

SECTION III: ACCOUNTING POLICIES (cont'd)

**II. EXPLANATIONS ON STRATEGY OF USE OF FINANCIAL INSTRUMENTS
AND FOREIGN CURRENCY TRANSACTIONS (6.2.a)**

Main activity of the Bank comprises banking services, such as; launching all kinds of cash and non-cash loans in terms of Turkish Lira and foreign currencies, performing transactions in local, international money and capital markets, supporting agricultural sector financially and collecting deposits in Turkish Lira and foreign currencies. The Bank's main funding source is Turkish Lira deposits, shareholders' equity and funds transferred from the budget, ministerial offices and other public resources by means of legislative and administrative decisions to the Bank. The Bank directs these funds to assets with high return and low risk. These assets include predominantly government securities and loans. The Bank's liquidity structure covers the financing of all liabilities at due date. Although most of the sources in the Bank's balance sheet are with fixed interest rate, rate of return of some of the securities in assets is variable. Since the remaining time of the source re-pricing is short, cost of sources is repriced in short periods based on the market conditions. Moreover, the Bank adopts high return principle for its long-term placements.

Loans and securities are in activities from which the Bank gains above the average return calculated for its fields of activity. Letter of guarantees, commercial letter of credits, checks and expense limit commitments for credit cards are the most important risk areas in the off-balance sheet.

Foreign currency risks are restricted by imposing foreign exchange position, daily and position loss limit to render service to customers applying competitive pricing and to obtain market yield from the short-term price movements.

Since the Bank's total debt to the market is low among its total liabilities, the Bank can borrow easily from short-term markets, such as; İstanbul Stock Exchange repo, Central Bank of the Republic of Turkey, Money Market or Interbank Money Market in case of need. In case of a liquidity crisis, the deposit base of the Bank is not presumed to be significantly affected due to the Bank being a public bank with an extensive branch network.

Cost and return of foreign currency assets are subject to a close follow up. Positive margin of profit is sustained by adjusting deposit rates in line with the market rates.

SECTION III: ACCOUNTING POLICIES (cont'd)

**II. EXPLANATIONS ON STRATEGY OF USE OF FINANCIAL INSTRUMENTS
AND FOREIGN CURRENCY TRANSACTIONS (6.2.a) (cont'd)**

Gains and losses arising from foreign currency operations are recognized at the transaction date. At period- ends, foreign currency asset and liability balances are valued at the Bank's period end buying rates and translated to Turkish currency and the resulting exchange differences are recognized as a foreign exchange gain or loss.

Assets and liabilities of the abroad branches of the Bank are translated into TRY according to the Bank's prevailing buying rates at the balance sheet date while, profit and loss are translated based on the average rates. Resulting differences from translation are followed under equity as other profit reserves.

In addition to that, exchange rate differences arising from the translation foreign currency investments of associates, subsidiaries and entities under common control to TRY, are accounted for under equity as other profit reserves.

**III. EXPLANATIONS ON FORWARD AND OPTION CONTRACTS AND
DERIVATIVE INSTRUMENTS (6.2.b)**

The derivative instruments of the Bank are formed of currency swaps and foreign currency forward agreements. The Bank has no embedded derivative instruments separated from the host contract.

The derivative instruments of the Bank are classified as trading or hedging instruments in accordance with Turkish Accounting Standard on "Financial Instruments: Recognition and Measurement" (TAS 39). The Bank has no hedging derivative instruments during the balance sheet period. Accordingly, the Bank is not subject to conditions whether derivative instruments satisfy the determination criteria of classification of hedging instruments or whether such derivative transactions are finalized through sale, term expiry or fulfillment of obligations under the contract.

(Amounts expressed in Thousand of the New Turkish Lira (TRY) unless otherwise noted.)

SECTION III: ACCOUNTING POLICIES (cont'd)

III. EXPLANATIONS ON FORWARD AND OPTION CONTRACTS AND DERIVATIVE INSTRUMENTS (6.2.b) (cont'd)

Acquisition cost is used in the initial recognition of derivative transactions. Liabilities and receivables arising from derivative transactions are recognized at their contractual amounts in the off-balance sheet accounts. Derivative transactions are carried at fair value subsequent to initial recognition. The Bank uses its period-end foreign exchange buying rates in determining fair value of foreign exchange future contracts and swaps on the assumption that current market foreign exchange rates are the best estimate of the present value of the forward exchange rates. When fair value difference is positive, fair value differences arising from the valuation are shown in the balance sheet as “Held for Trading Derivative Financial Assets” and when fair value difference is negative, fair value differences arising from the valuation are shown in the balance sheet as “Held for Trading Derivative Financial Liabilities” and they are recognized under “Profit/Loss from Capital Market Transactions” in the income statement.

As of June 30, 2007, net fair value of the Bank’s derivative instruments is TRY 158 thousand.

IV. EXPLANATIONS ON INTEREST INCOME AND EXPENSES (6.2.c)

Interest income and expenses are recognized on an accrual basis using the effective interest method in conformity with TAS 39 “Financial Instruments: Recognition and Measurement. In accordance with the Communiqué on “Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions” came into force after being published in the Official Gazette No: 26333 dated November 1, 2006, no interest accrual is calculated for non-performing loans. Realized interest accruals calculated for non-performing loans and recognized as income although not collected are reversed and interest income related to these loans is recognized as an interest income only when they are collected.

V. EXPLANATIONS ON FEES AND COMMISSION INCOME AND EXPENSES (6.2.d)

Commissions and income from banking services are recognized as income in the period they are collected. Whereas, loan fee and commission expenses paid to other financial institutions, and income obtained through contracts or consulting services and project management services provided to third parties relating to the sale/purchase of ownership shares; or the purchase of assets are recognized on an accrual basis.

SECTION III: ACCOUNTING POLICIES (cont'd)

VI. EXPLANATIONS AND DISCLOSURES ON FINANCIAL ASSETS (6.2.e)

Financial instruments comprise financial assets and liabilities and derivative instruments. They are included in the balance sheet of the Bank, if the Bank is a legal party to these instruments.

Financial instruments mainly constitute the Bank's commercial activities and operations. These instruments have the ability to expose, affect and diminish the liquidity, credit and interest rate risks in the financial statements.

Financial assets held for trading are securities that are either acquired for generating a profit from short-term fluctuations in price or dealer's margin, or are securities included in a portfolio with a pattern of short-term profit taking.

Trading securities are initially recognized at cost including the transaction costs and carried at fair value in the financial statements.

Government bonds and treasury bills included in held for trading portfolio traded in Istanbul Stock Exchange (ISE) are carried at weighted average ISE prices effective as of the balance sheet date. Government bonds and treasury bills included in held for trading portfolio traded in ISE but not subject to purchase or sale in ISE as of the balance sheet date are carried at prices calculated adding a daily interest on weighted average ISE prices effective on the most recent transaction date. Those securities that are not traded in ISE are carried at prices of the Central Bank of Republic of Turkey.

The difference between the cost and fair value of such marketable securities is accounted for as an interest, income accrual or impairment loss for marketable securities account. Interest received from securities held for trading is reflected under interest income, and dividends received from such securities are reflected under dividend income.

Financial assets held to maturity include securities where there is an intention of holding until maturity and the relevant conditions for fulfillment of such intention, including the funding ability, and available for sale non-derivative assets except for bank loans and receivables.

Loans and receivables represent financial assets other than those held for trading or held for sale in a short period generated through providing cash, or rendering services to the debtor.

Financial assets available for sale include all securities other than loans and receivables, and those held to maturity and held for trading.

(Amounts expressed in Thousand of the New Turkish Lira (TRY) unless otherwise noted.)

SECTION III: ACCOUNTING POLICIES (cont'd)

**VI. EXPLANATIONS AND DISCLOSURES ON FINANCIAL ASSETS (6.2.e)
(cont'd)**

Financial assets are classified as securities held-to-maturity, loans and receivables or financial assets available for sale at their acquisition dates.

Securities held-to-maturity, financial assets available for sale, and loans and receivables are initially carried at cost.

Held to maturity securities are subsequently measured at amortized cost using the internal rate of return method, less impairment loss, if any.

The Bank does not have any financial instruments that are previously classified as held-to-maturity investments but prohibited to be classified as held-to-maturity investments for two years because of incompliance with the principles of securities classification.

Interests received from securities held to maturity are recognized as an interest income.

Financial assets available for sale are subsequently measured at amortized cost using the internal rate of return method, and they are accounted for allocating impairment loss or applying rediscount. Fair and amortized values of those securities are subject to comparison and the difference is presented under shareholders' equity as a "revaluation fund". Amortized values and costs are also compared and the difference is recognized as an interest income/expense for impairment loss.

Securities sale and purchase transactions are accounted for at the settlement dates.

Loans originated by the Bank are to be measured at amortized cost using internal rate of return method. As short-term and long-term TRY loans are classified as open or guaranteed, FC loans are recognized with fixed price and at period-ends revalued by the exchange buying rate of the Bank.

The Bank set specific and general provisions for loans and other receivables in accordance with the regulations stated by the Communiqué published on the Official Gazette No. 26333 dated November 1, 2006 on "Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions". Allocated provisions are deducted from the income of the year. If the loans for which provisions were set in the previous year are collected, provision for allowances are released and recognized as income under "Other Operating Income" account. Releases of current year provisions are made by the reversal of the amount from the "Provision for Decrease in Value of Loans and Other Receivables" account.

SECTION III: ACCOUNTING POLICIES (cont'd)

VII. EXPLANATIONS ON IMPAIRMENT OF FINANCIAL ASSETS (6.2.f)

A financial asset or a group of financial asset is subject to impairment loss only if there is an objective indication that the occurrence of one or more than one event (“loss event”) subsequent to the initial recognition of that asset has an effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group.

If revalued amounts of fair value of securities through profit/loss is less than the prior revalued amount, initially value of prior records regarding the value increase are adjusted according to the recent value and if the impairment loss is more than the prior value increase, difference is reflected to “Expenses for Value Loss of Securities”. If there is an increase in value, initially recognized impairment loss is reversed to income.

If securities available for sale are subject to permanent impairment, the amount is charged to “Valuet Loss Expenses for Securities” account in accordance with the related Turkish Accounting Standard.

Loans and other receivables are classified in accordance with the Communiqué on “Methods, Principles on Determining the Nature of Loans, Other Receivables, and Allocation of Provisions” published in the Official Gazette numbered 26333 and dated November 1, 2006. However, the Bank does not limit the provision amount with the minimum rates defined in related regulation and allocates 100% of specific provision for such loans and they are recognized in the statement of income. Collections made related to those loans are offset against the capital and interest collections are recognized under the “Interest Received from Non-performing Loans” item of the income statement.

In accordance with the provisions of the above-mentioned legislation, the Bank allocates general loan provisions for loans and its receivables in addition to specific provisions.

VIII. EXPLANATIONS ON OFFSETTING FINANCIAL ASSETS AND LIABILITIES (6.2.g)

Financial assets and liabilities shall be offset and the net amount presented in the balance sheet when, and only when a party currently has a legally enforceable right to set off the recognized amounts or intends either to settle on a net basis or to realise the asset and settle the liability simultaneously.

SECTION III: ACCOUNTING POLICIES (cont'd)

IX. EXPLANATIONS ON SECURITIES COLLATERALISED FOR SALES AND REPURCHASE AGREEMENTS (6.2.h)

Marketable securities subject to repurchase agreements are classified under “Securities held for trading”, “Securities available for sale” and/or “Securities held-to-maturity” and they are valued based on the valuation principles of the related portfolios.

Registered total costs of securities sold under repurchase agreements amount to TRY 984,479 Thousand. Funds obtained against these agreements are followed under the “Funds from Repurchase Transactions” account in the balance sheet and interest expense accrual is calculated by the internal rate of return method. Reverse repo transactions are recognized under the “Receivables from Reverse Repo Transactions” account. Corresponding portion for the period arising from the difference between the repurchase and resale prices determined is calculated using the internal rate of return method. As of June 30, 2007 the Bank has no reverse repo transactions.

As of the balance sheet date, there are no loaned securities.

X. EXPLANATIONS ON TANGIBLE FIXED ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS (6.2.i)

The Bank has no discounted operations. Tangible assets acquired in consideration of receivables are accounted for in accordance with the requirements of the Communiqué on “Methods and Principles for Purchase and Sale of Precious Metal and Sale of Goods and Immovables obtained in Return of Receivables” published in the Official Gazette numbered 26333 and dated November 1, 2006 and these assets are by no means subject to revaluation.

The Bank’s immovables acquired amount to TRY 1,364 Thousand consisting of TRY 1,021 Thousand on its trade receivables and TRY 343 Thousand on its agricultural receivables. Total disposable assets together with its movables amounting TRY 156 thousand equal to TRY 1,420 Thousand. Total depreciation expense is TRY 40 Thousand for these assets.

(Amounts expressed in Thousand of the New Turkish Lira (TRY) unless otherwise noted.)

SECTION III: ACCOUNTING POLICIES (cont'd)

**XI. EXPLANATIONS ON GOODWILL AND OTHER INTANGIBLE ASSETS
(6.2.j)**

As at the balance sheet date, the Bank has no goodwill.

Other intangible assets are carried at historical costs and are amortized by using the straight-line method based on their useful lives.

Useful lives of other intangible assets are determined by evaluating some considerations, such as; expected usage life of asset, maintenance costs incurred to obtain expected economical benefit from assets and technical, technological or any other type of obsolescence. Amortization method used in the current period is not subject to any change. Annual depreciation rate is 20% (5 years) for establishment/formation expenses and leasehold improvements with uncertain leasing period and depreciation rate is proportional with period for those with certain leasing period.

The Bank recognizes its software costs incurred under the intangible assets-intangible rights account and they are subject to amortization for 3 years to by adding constructive expenses to the initial cost of software considering their useful lives.

XII. EXPLANATIONS ON PROPERTY, PLANT AND EQUIPMENT (6.2.k)

Property, plant and equipment are carried at cost and they are not subject any revaluation process. Since the application of inflation accounting applied in the banking system is ceased as of 1 January 2005, based on the view stated in the BRSA's circular No:5 issued on 28 April 2005 that the indicators of hyperinflationary period are eliminated to a large extent, the Bank's Property, plant and equipment are carried at restated cost in the balance sheet before 31 December 2004 and its Property, plant and equipment that are purchased subsequent to 1 January 2005 are valued at historical cost in accordance with the BRSA's degree No:1623 dated 21 April 2005. Subsequent to recognition, property, plant and equipment are showed in financial statements at cost less any accumulated depreciation and impairment loss, if any. Property, plant and equipment are amortized by using the straight-line method over their useful lives. No changes made in the current period regarding depreciation method.

Estimated depreciation rates of property, plant and equipment are as follows:

Buildings	: 2% – 10%
Vehicles, Furniture and Fixtures	: 2% - 50%

Gain or loss arising from the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of that asset and is recognized in profit or loss.

SECTION III: ACCOUNTING POLICIES (cont'd)

**XII. EXPLANATIONS ON PROPERTY, PLANT AND EQUIPMENT (6.2.k)
(cont'd)**

Ordinary maintenance and repair expenses of property, plant and equipment items are recognized as expenses. Investment expenditures that increase the future benefit by enhancing the capacity of tangible assets are included to the cost of tangible asset.

There are no mortgages, pledges or similar precautionary measures on property, plant and equipment, or commitments given for the purchase or any restrictions designated for the use of those property, plant and equipment.

XIII. EXPLANATIONS ON LEASING TRANSACTIONS (6.2.l)

The Bank, as the lessee, recognizes its leasing operations in accordance with the requirements of the Turkish Accounting Standards (TAS17) "Leases". Fixed assets that are acquired under financial leasing are amortized with respect to the rates used for directly acquired assets that have similar nature. Assets held under financial leases are recognized under the property, plant and equipment account and are depreciated on annual and monthly bases with respect to their useful lives. Principal paid for leasing is charged to the liability account, whereas interest is recognized in deferred financial leasing expenses account as a debit account under liabilities and to other interest expenses.

As of the balance sheet date, the Bank has no financial leasing operations as a lessor.

**XIV. EXPLANATIONS ON PROVISIONS AND CONTINGENT LIABILITIES
(6.2.m)**

In case of an existing liability (legal or confidential) as a result of an incident that took place in the past, the possibility of disposal of assets that bring economic benefit and the liability is measurable, the Bank provides provision.

Provisions other than the ones for loans, other receivables for private and public and provisory liabilities are accounted in accordance with "Provisions, Provisory Liabilities and Provisory Assets Corresponding Turkish Accounting Standard"(TAS 37).

For transactions that can affect financial structure, provisions are provided by using the existing data if they are accurate, otherwise by using the estimates.

(Amounts expressed in Thousand of the New Turkish Lira (TRY) unless otherwise noted.)

SECTION III: ACCOUNTING POLICIES (cont'd)

**XIV. EXPLANATIONS ON PROVISIONS AND CONTINGENT LIABILITIES
(6.2.m) (cont'd)**

Since the Bank has no centralized database for the outstanding lawsuits, summary of the number and amount of those lawsuits cannot be obtained from the application system. However, no provision is provided for the individual lawsuits over TRY 100 Thousand with total of TRY 123,198 Thousand due to the fact that these are not deemed to have material effect over financial statements. For receivables that will be settled, the Bank allocates 100% of provision. These provisions are followed under the specific provisions account.

As of the balance sheet date, there are no probable contingent liabilities resulting from past events whose amount can be reliably measured.

XV. EXPLANATIONS ON EMPLOYEE BENEFIT LIABILITIES (6.2.n)

Employee benefits liabilities are recognized in accordance with the Turkish Accounting Standard (TAS 19) "Employee Benefits" and the Bank provides provision for retirement and termination liabilities by estimating the net present value of future payments of the Bank arising from the retirement of employees and reflects this provision amount in the financial statements.

Under the Turkish legislation as supplemented by union agreements, lump sum payments are made to all employees who retire or whose employment is terminated without due cause. According to the related legislation, depending on the status and position of the employee in the Bank and social security institution, retirement pay provision is calculated in two ways; if the employee is a state employee, the calculation is based on retirement pension for the working period of the state employee, and if the employee is a blue-collar worker the calculation is based on the final salary at the date of retirement or leave (to the extent that the payments and/or salary amount does not exceed the Retirement Payment Provision ceiling).

The Bank could not provide data on the unused vacation time in electronic form. The legislation requires 10 days of paid leave to be used at a minimum, unused vacation liability is calculated based on the assumption that 12 days of paid vacation used deducted from the earned vacation time.

As of June 30,2007 , provision allocated for all employee benefit liabilities is TRY 423,300 Thousand. The Bank is not in favor of employing its personnel by means of limited-period contracts.

Bank employees are members of T.C. Ziraat Bankası and T. Halk Bankası Çalışanları Emekli Sandığı Vakfı (T.C. Ziraat Bankası and T. Halk Bankası A.Ş. Employees Pension Fund) which was established by Social Security Agency' (SSK) no 506 of 20th provisional article.

In accordance with 23rd provisional clause of the Banking Act No: 5411, the pension fund is expected to be transferred to the Social Security Agency with three years following the declaration of the Banking Act No: 5411.

SECTION III: ACCOUNTING POLICIES (cont'd)

XV. EXPLANATIONS ON EMPLOYEE BENEFIT LIABILITIES (6.2.n) (cont'd)

The audited technical balance sheet report as of December 31,2006 which is prepared in accordance with the principles in the Council of Ministers decision 2006/11345 declared in the Official Gazette dated December 15,2006 numbered 26377, which defines the principles of such transfer, with the technical interest rate of 10.24% concludes no technical deficit arises in the above mentioned fund. Also, by the Article 58 and provisional article 7 of the Banking Act, the banks are restricted from transferring any funds to the pension funds in order to compensate the actuarial deficits effective from January 1, 2008.

XVI. EXPLANATIONS ON TAXATION (6.2.o)

Corporate Tax:

In accordance with Article 6 "Taxation and Payment Of Tax Payers - Determination of Tax Base" and Article 32 "Corporate Tax and Temporary Tax Rates" of the Corporate Tax Law No: 5220, corporate tax is calculated based on the net corporate income of tax-payers in an accounting period by using 20% of tax rate.

In accordance with the requirements in Income Tax Act (by taking non-allowable charges, discounts and exceptions and provisions of the Tax Procedure Law on revaluation into account), corporate tax-payers pay provisional tax which is calculated with the current tax rate and will be offset against the current period's corporate tax.

Corporate tax returns are delivered to related tax administration in the period between the 1st and the 25th days of the fourth month subsequent to the end of accounting period and paid in full before the end of the related month. Nevertheless, the tax audit authorities can investigate accounting records in 5-year period and the corporate tax payable amount may subject to a change in case of any false entry.

In case of tax base calculation on accounting profit, provision is allocated for Corporate and Income Tax liability based on the results of the current period activities.

Deferred Tax Liability/Asset:

In accordance with the Turkish Accounting Standard (TAS 12) "Income Tax", the Bank calculates and recognizes deferred tax for temporary differences between tax base calculated based on the accounting policies used and valuation principles and that calculated under the tax legislation.

SECTION III: ACCOUNTING POLICIES (cont'd)

XVI. EXPLANATIONS ON TAXATION (6.2.o) (cont'd)

Deferred Tax Liability/Asset: (cont'd)

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and are accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences, and deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of a deferred tax asset is reviewed at each balance sheet date. Carrying amount of a deferred tax asset can be reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized and reflected in the statement of income as expense or income. Moreover, if the deferred tax is related with items directly recorded under the equity in the same or different period, deferred tax is also associated directly with equity.

XVII. ADDITIONAL EXPLANATIONS ON BORROWINGS (6.2.p)

The Bank accounts for its debt instruments in accordance with the Turkish Accounting Standard (TAS 39) "Financial Instruments: Recognition and Measurement". In the following periods, financial liabilities are valued at amortized cost by using the internal rate of return method. Hedging techniques are not used for borrowings and hedge accounting is not applied in accounting and valuation of debt instruments and the liabilities that represent the borrowings.

The Bank has issued no convertible bonds and has no instruments representing its own borrowings.

XVIII. EXPLANATIONS ON SHARES AND SHARE ISSUE (6.2.r)

Since the Bank does not have issued shares, there are no transaction costs related to share issue in the current period.

XIX. EXPLANATIONS ON BILL GUARANTEES AND ACCEPTANCES (6.2.s)

Commitments regarding bill guarantees and acceptances of the Bank are presented in the “Off Balance Sheet” accounts.

XX. EXPLANATIONS ON GOVERNMENT INCENTIVES (6.2.t)

There are no government incentives utilized by the Bank as of the balance sheet date.

XXI. EXPLANATIONS ON SEGMENT REPORTING (6.2.u)

The Bank has operations in individual banking, corporate and commercial banking, agricultural banking, treasury transactions and international banking areas.

Known as having the most extensive branch network in the individual banking sector, the Bank renders services, such as; deposits, consumer loans, loans originated from funds whose risk does not belong to the Bank, credit cards, automatic payment, cheques and notes, money order, foreign exchange transactions, internet banking, mobile banking, safe-deposit box and insurance. Moreover, new banking instruments are created in order to benefit from services undertaken as being a state bank in increasing the profitability of the Bank. By changing its data processing system from “Bank 2000” that has a dispersed structure to Finart system, which is working in a centralized manner, the Bank reaches the technical infrastructure required by modern banking to meet its clients’ needs.

In the context of corporate and commercial banking, the Bank gives loans for operations, middle and long-term investment loans, foreign trade financing loans in Turkish Lira and foreign currencies; renders other corporate financing, foreign exchange transactions and banking services to large-scale corporate clients and middle-small scale enterprises.

SECTION III: ACCOUNTING POLICIES (cont'd)

XXI. EXPLANATIONS ON SEGMENT REPORTING (6.2.u) (cont'd)

As the Bank is the main financial institution that meets the financing needs of agricultural sector, it gives agricultural operations and investment loans from its own sources for vegetable and animal production, fishery products and agricultural mechanization directly to producers and agricultural credit corporations. Besides, it gives support to entities and enterprises having operations in agricultural sector by acting as an intermediary for loans originated from funds.

Treasury operations are conducted by the Fund Management and Fund Management Middle Office Departments. By foregoing departments, the Bank's liquidity is used for Turkish Lira, foreign exchange and securities transactions in local and international organized and over-the-counter markets, and sources in Turkish Lira and foreign currencies are provided according to the needs of the Bank. The Bank acts as an intermediary for transaction of securities and Eurobonds by the related departments, for transaction of shares and public offerings as an agency of Ziraat Yatırım Menkul Değerler A.Ş. and for transaction of investment funds founded by the Bank and Ziraat Yatırım Menkul Değerler A.Ş. and keeps records of these financial instruments. Repo/reverse repo transactions are also performed.

The Bank performs its international banking operations via one each branch in New York, London, Skopje, Sofia and Tbilisi, 4 branches in the Turkish Republic of North Cyprus and representative offices in Afghanistan, Pakistan and Iran. Moreover, the Bank operates in Germany, France, Bosnia Herzegovina, Russia, Kazakhstan, Azerbaijan, Turkmenistan and Uzbekistan via equity participation investments abroad.

As of June 30, 2007, due to the disabilities of the application system, Bank is not able to prepare segment reporting.

SECTION IV: INFORMATION RELATED TO FINANCIAL POSITION OF THE BANK

I. EXPLANATIONS RELATED TO THE CAPITAL ADEQUACY STANDARD RATIO (7)

1. The Bank's unconsolidated capital adequacy ratio, reasons and anticipated solutions in case the ratio is lower than the amount pre-determined by the Communiqué:

The Bank's unconsolidated capital adequacy ratio calculated in accordance with the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks" is 23.72%.

2. The risk measurement methods used for capital adequacy ratio:

Capital Adequacy Standard Ratio calculated in accordance with the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks", which was published in the Official Gazette numbered 24657 on January 31, 2002 is 39.55% as of December 2006. The stated Communiqué was replaced by the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks" published in the Official Gazette numbered 26333 and dated November 1, 2006. Capital Adequacy Standard Ratio is calculated according to this legislation starting from November 2006 and it is 23.72% for June 2007.

In the computation of capital adequacy standard ratio, information prepared in accordance with the statutory accounting requirements is used. Additionally, the market risk amount is calculated in accordance with the Communiqué on the "Measurement and Assessment of Capital Adequacy of Banks" and is taken into consideration in the capital adequacy standard ratio calculation.

Amounts deducted from the capital in the calculation of shareholders' equity are not considered in the calculation of risk-weighted assets, non-cash loans and contingent liabilities. Assets subject to depreciation and depletion among risk-weighted assets are included in the calculations over their net book values after deducting the relative depreciations and provisions.

In the calculation of the amounts subject to credit risk regarding the transactions on the non-cash loans, the net receivable amount from the counter parties is calculated by deducting the specific provision amount set in accordance with the Communiqué on "Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions", if any, and the net amount is multiplied by the conversion rates presented in Clause 2 in Article 5 of the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks". Then the risk ratios declared in the Capital Adequacy Analysis Form are used to weight the resulting amount.

To calculate the loan amount subject to loan risk for foreign exchange and interest rate transactions, receivables from counter parties are multiplied by the conversion rates stated in Clause 2, Article 5 of the Communiqué on "Measurement and Assessment of Capital Adequacy of Banks" and weighted by risk weights declared in the Capital Adequacy Analysis Form.

SECTION IV: INFORMATION RELATED TO FINANCIAL POSITION OF THE BANK (cont'd)

II. EXPLANATIONS RELATED TO THE MARKET RISK (9)

1. Whether measures are taken for market risk hedge under the framework of the Bank's risk management policies, measures taken for the risk management by the Board of Directors when the Bank is exposed to market risks, methods used to measure market risk and timing of market risk measurement:

The Bank has established market risk management operations and taken the necessary measures in order to hedge market risk within its financial risk management purposes, in accordance with "Measurement and Assessment of the Capital Adequacy of Banks" issued in the Official Gazette numbered 26333 and dated November 1 2006.

On a monthly period basis, interest rate risk, exchange rate risk, common stock risk, barter risk, commodity risk and specific risks are computed according to the "Standard Method" and total market risk amount is calculated accordingly. This amount is included in the calculation of Bank's Standard Capital Adequacy Ratio.

The Bank's policy is to avoid having positions in foreign currency management. In addition to monthly and 3-monthly reports related with the market risk, exchange risk analysis is prepared on a weekly basis for each foreign exchange type and this report is given to the Banking Regulation and Supervision Agency.

Daily Value at Risk forecasts are made based on financial instruments with different risk factors and portfolios in the Bank and for the purpose of providing information those are reported to the related units.

II. EXPLANATIONS RELATED TO THE MARKET RISK (9) (cont'd)

b) Average market risk table calculated at the end of each month during the period:

Not presented in accordance with Article 25 Communiqué on “Financial Statements to be Publicly Announced and the Accompanying Policies and Disclosures”.

III. EXPLANATION RELATED TO THE OPERATIONAL RISK(10)

a) The method used in calculating the operational risk and the interval in which the market risk measurement is done :

The bank’s operational risk is calculated annually in respect to the Basic Indicator Method. Such method is one of the methods specified within Basel II – Revised International Capital Framework. In this method, the parameter which determinates the operational risk is the gross income. The gross income however generally is the sum of the net interest and noninterest income, and excludes the calculation of some income and expense items in this calculation. In calculating the gross income, income statements and trial balances of the years 2004, 2005 and 2006 are used and the averages of the three years are taken.

b) The Bank does not apply standard method.

IV. EXPLANATIONS RELATED TO THE CURRENCY RISK (11)

a) Whether the Bank is exposed to foreign currency risk, whether the effects of this matter are estimated, whether limits for the daily followed positions are determined by the board of directors:

The Bank’s policy is to avoid carrying positions by means of foreign currency management. Therefore, the Bank is not exposed to significant currency risks. Risks are monitored by the currency risk tables prepared based on the standard method. Besides, Value at Risk (VAR) is calculated for daily foreign exchange position and reported to the related departments.

Moreover, dealer’s positions and limits are, for foreign exchange transactions, under the authorization of the Board of Directors.

b) Hedge against foreign exchange debt instruments and net foreign exchange investments by hedging derivative instruments, if material:

The volume of these transactions is very low, when compared to the size of balance sheet.

SECTION IV: INFORMATION RELATED TO FINANCIAL POSITION OF THE BANK (cont'd)

V. EXPLANATIONS RELATED TO THE INTEREST RATE RISK (12)

a) Measurement of interest rate sensitivity of assets, liabilities and off-balance sheet items:

Interest rate sensitivity of assets and liabilities is followed to the management periodically by applying various analysis methods.

b) Effects of interest rate fluctuations in the market on financial position and cash flow of the Bank, expectations on interest income, limitations on daily interest rates by the Bank's Board of Directors:

To eliminate the negative effects of interest rate fluctuations in the market on the balance sheet of the Bank, Assets-Liabilities Committee follows interest margin and monitors its effects on profitability on a consistent basis. The committee makes interest rate arrangements especially for sources and defines the maximum interest rates considering the interest rate risk.

c) Measures taken for the current interest rate risk of the Bank and expected effects on the following periods' net income and shareholders' equity:

In the current period, the Bank is not exposed to any interest rate risk that requires structural changes in its positions or take necessary measures.

BANK (cont'd)**

VI. EXPLANATIONS RELATED TO THE LIQUIDITY RISK (13)

- a) **Sources of the liquidity risk of the Bank and whether the necessary measures taken, and limitations imposed by the Bank's Board of Directors on fund sources that can be used in payment of matured debts and can meet the immediate liquidity need:**

When funding and liquidity sources are considered, the Bank covers majority of its liquidity need through deposits. The Bank's deposits do not fluctuate considerably depending on the broadly diversified customer network. Besides, internal and external sources that can be used to meet the immediate liquidity need are monitored periodically. Borrowing limits of the Bank from organized markets and other financial institutions can cover the corresponding liquidity gaps with different maturities.

- b) **Consistency of payments with the assets and liabilities and the interest rates, measurement of the probable effects of the actual inconsistency on profitability:**

The Bank follows the consistency of payments with the assets and liabilities and the interest rates regularly and there is no inconsistency is detected.

- c) **Internal and external sources for short and long-term liquidity needs of the Bank, unused significant liquidity sources:**

Although the average maturity of the Bank's assets is long, coupon securities constituting majority of the securities portfolio supply significant liquidity for the Bank. Besides, volume of deposits forming the majority of the liabilities is not subject to significant changes. The Bank also provides funds by repurchase agreements, however, volume of these transactions are relatively limited.

- d) **Evaluation of amount and sources of the Bank's cash flows:**

The Bank's major source is deposits, and funds are invested to securities portfolio, other banks and loan placements. Since most significant cash inflows are originated from securities portfolio, this reduces the liquidity risk of the Bank. Besides, period payments of loans, which are used within the context of consumer loans, plays a role in compensating the Bank's source.

2. Derivative financial instruments: (cont'd)

The Bank has no derivative instruments for hedging purposes and as of the balance sheet date, information on the Bank's forward transactions is given below. There are no unrealized transactions (those are estimated in the prior period and recognized based on this assumption however; it is clear that those transactions would not be realized) or expense and income from agreements in the income statement in the current period.

3. Information on contingent liabilities and assets:

Provision is allocated for transactions with complete and accurate data that may have an effect on the financial structure of the Bank and otherwise, provision is provided based on the estimations.

The Bank's liability resulting from the cheques given to its customers amounts to TRY 646,597 Thousand and this amount is recognized under the off-balance sheet commitment accounts. If cheques that are paid to beneficiaries qualify as bad cheques, the Bank may have an obligation to pay up to TRY 410 for the portion of bad cheques amount.

Since the Bank has no centralized database for the outstanding lawsuits, summary of the number and amount of those lawsuits cannot be obtained from the application system. However, no provision is provided for the individual lawsuits over TRY 100 Thousand with total of TRY 123,198 Thousand due to the fact that these are not deemed to have material effect over financial statements.

As of the balance sheet date, there are no probable contingent liabilities resulting from past events whose amount can be reliably measured.

4. Services supplied on behalf of others:

Not presented in interim financial statements in accordance with Article 25 Communiqué on "Financial Statements to be Publicly Announced and the Accompanying Policies and Disclosures".
