**CONVENIENCE TRANSLATION INTO ENGLISH OF THE
INDEPENDENT AUDITOR’S REPORT
ORIGINALLY PREPARED AND ISSUED IN TURKISH**

To the Board of Directors of Türkiye Cumhuriyeti Ziraat Bankası A.Ş.

Report on the Unconsolidated Financial Statements

We have audited the accompanying unconsolidated balance sheet of Türkiye Cumhuriyeti Ziraat Bankası A.Ş. (“the Bank”) as at 31 December 2016 and the related unconsolidated statement of income, unconsolidated income and expense items under shareholders’ equity, unconsolidated statement of changes in shareholders’ equity, unconsolidated statement of cash flows for the year then ended and a summary of significant accounting policies and other explanatory notes.

Management’s Responsibility for the Unconsolidated Financial Statements

Bank management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with the “Banking Regulation and Supervision Agency (“BRSA”) Accounting and Reporting Legislation which includes “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette no.26333 dated 1 November 2006, other regulations on accounting records of Banks published by BRSA, circulars and interpretations published by BRSA, and Turkish Accounting Standards for the matters not regulated by the aforementioned legislations and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditor’s Responsibility

Our responsibility is to express an opinion on these unconsolidated financial statements based on our audit. Our audit was conducted in accordance with the “Regulation on Independent Audit of Banks” published by the BRSA on the Official Gazette No.29314 dated 2 April 2015 and Independent Auditing Standards that are part of Turkish Standards on Auditing published by the Public Oversight Accounting and Auditing Standards Authority (“POA”). Those standards require that ethical requirements are complied with and that the audit is planned and performed to obtain reasonable assurance whether the financial statements are free from material misstatement.

An independent audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on independent auditor’s professional judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to error or fraud. In making those risk assessments, the independent auditor considers internal control relevant to the bank’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the bank’s internal control. An independent audit includes also evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by bank’s management, as well as evaluating the overall presentation of the financial statements.

We believe that the independent audit evidence we have obtained during our audit is sufficient and appropriate to provide a basis for our audit opinion.

Basis for the qualified opinion

As mentioned in Section II. Note 7.d1 of Explanations and Notes to the Unconsolidated Financial Statements; as of the balance sheet date, the accompanying unconsolidated financial statements include a free provision amounting to TL945.000 thousand (TL295.400 thousand of this provision amount was reversed from the income statement in the current year), provided by the Bank management in line with the conservatism principle considering the circumstances that may arise from any changes in the economy or market conditions.

Qualified Opinion

In our opinion, except for the effect of the matter described in the “Basis for the qualified opinion” paragraph above, on the unconsolidated financial statements, the accompanying unconsolidated financial statements present fairly, in all material respects, the financial position of Türkiye Cumhuriyeti Ziraat Bankası A.Ş. as at 31 December 2016 and its financial performance and its cash flows for the year then ended in accordance with BRSA Accounting and Reporting Legislation.

Report on Other Responsibilities Arising From Regulatory Requirements

In accordance with subparagraph 4 of Article 402 of the Turkish Commercial Code No. 6102 (“TCC”); no significant matter has come to our attention that causes us to believe that the Bank’s bookkeeping activities for the period 1 January - 31 December 2016 are not in compliance with TCC and provisions of the Bank’s articles of association in relation to financial reporting.

In accordance with subparagraph 4 of Article 402 of the TCC; the Board of Directors submitted to us the necessary explanations and provided required documents within the context of audit.

Additional Paragraph for Convenience Translation

The effects of differences between accounting principles and standards explained in detail in Section Three and accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

SECTION ONE

GENERAL INFORMATION ABOUT THE BANK

I. HISTORY OF THE BANK INCLUDING ITS INCORPORATION DATE, INITIAL LEGAL STATUS AND AMENDMENTS TO LEGAL STATUS, IF ANY

The foundation of Türkiye Cumhuriyeti Ziraat Bankası A.Ş. (“Ziraat Bankası” or “the Bank”) is based on Government Funds established in 1863. In 1883, Government Funds were replaced with Benefit Funds. The Bank was officially established by the re-organization of the Benefit Funds in 1888, to grant loans to farmers, to accept interest-bearing deposits and to act as a moneylender and an intermediary for agricultural operations. The Bank, which was given the authority to perform all the banking activities, has its head office located in Ankara and all shares of the Bank belong to the Treasury. While all of the shares of the Bank that are entitled to carry out all kinds of banking activities belong to The Undersecretariat of Treasury (“the Treasury”) of the Prime Ministry of Turkish Republic, all of the Bank's shares have been transferred to the Turkey Wealth Fund in accordance with the decision of the Council of Ministers dated January 24, 2017 and with decree no. 2017/9756. The head office of the Bank is in Ankara.

II. EXPLANATION ABOUT THE BANK’S CAPITAL STRUCTURE, SHAREHOLDERS OF THE BANK WHO ARE IN CHARGE OF THE MANAGEMENT AND/OR AUDITING OF THE BANK DIRECTLY OR INDIRECTLY, CHANGES IN THESE MATTERS (IF ANY) AND THE GROUP THE BANK BELONGS TO

While the only shareholder of the Bank is the Treasury, all of the Bank's shares have been transferred to the Turkey Wealth Fund in accordance with the decree of the Council of Ministers dated 24 January 2017 and numbered 2017/9756.

GENERAL INFORMATION ABOUT THE BANK (Continued)

V. SUMMARY INFORMATION ON THE BANK’S ACTIVITIES AND SERVICES

The purpose of activity of the Bank is stated in articles of association as to perform all kinds of banking activities including acceptance of deposits. For this purpose, the Bank can perform all sorts of operations, without prejudice to the provisions of the banking regulations and other legislations, such as launching all kinds of cash and non-cash loans in terms of Turkish Lira and foreign currencies, acting as an intermediary in trade and issue of the financial instruments that are used in local and international markets, performing investment banking transactions, forwards dealing in domestic and foreign futures markets, providing funds from interbank money market, domestic and foreign markets, making all kinds of capital market transactions, acting as an intermediary in export and import transactions, acting as an agency for insurance and other financial institutions, participating in all sort of partnership that is founded by domestic or foreign banks or participated by them within the terms of the related legislation or establishing new partnerships for this purpose, performing all kinds of conservative transactions, such as; acquiring limited real and personal claims like all kinds of movable and immovable goods, industrial and intellectual properties, right of usufruct, easement, superficies and disposing and transferring acquired properties and rights, placing pledge and mortgage on those properties and rights, releasing pledged and mortgaged items and declaring leasing agreements and sale commitments to the Registry Office.

As of 31 December 2016, Bank carries its activities with a grand total of 1.814 branches; 1.786 domestic branches including 20 corporate branches, 79 entrepreneurial branches, 76 dynamic entrepreneurial branches, 1.606 branches and 5 mobile branches (31 December 2015: 1.786 domestic branches including 1.596 branches, 22 corporate branches, 80 entrepreneurial branches, 83 dynamic entrepreneurial branches, 5 mobile branches) and 27 branches abroad including 22 branches and 5 sub branches (New York branch in United States, London branch in England, Tbilisi branch and Batumi, Marneuli sub branches in Georgia, Baghdad and Arbil branches in Iraq, Athens, Komotini, Xanthi and Rhodes branches in Greece, Sofia branch and Plovdiv, Kardzhali and Varna sub branches in Bulgaria, Jeddah branch in Saudi Arabia, Pristina in Kosovo, Bahrain in Bahrain, Lefkoşa, Girne, Güzeyurt, Gazimağusa, Gönyeli, Akdoğan, Near East University, Karaoğlanoğlu, Karakum and İskele sub branches in Turkish Republic of Northern Cyprus). The Bank also has a representative office in Tehran, Iran.

The Bank signed a contract with T. İş Bankası A.Ş. on 22 January 2007 to provide longer installment plan and bonus points to their credit card users and benefit from all the advantages within Maximum credit card at merchants that are a part of Maximum plan. Also with this contract the Bank has the right to register members for Maximum. Transactions between the two banks are administered by Interbank Card Center.

Başakkart is a bank card through which demand deposit accounts and agricultural loan accounts can be linked. Bank can associate Başakkart with enterprise loans below TL 100 and agricultural loan limits in line with the demands of the customers. All limits of loan accounts assigned to the Başakkart can be used via POS machines of the Bank in Başakkart Member Business points for the purchase of agricultural inputs (feed, grain, fuel, etc.). According to preferences of customers, maximum 90% of cash limits of loan accounts can be used through the branches/ATMs of the Bank. Repayments regarding the transactions with Başakkart can be made through the branches of the Bank. Agricultural products/services obtained by using Başakkart are repaid without any interest charge within the time periods defined by the Bank.

VI. EXISTING OR POTENTIAL, ACTUAL OR LEGAL OBSTACLES TO IMMEDIATE TRANSFER OF SHAREHOLDERS’ EQUITY, OR REPAYMENT OF DEBT BETWEEN THE BANK AND ITS SUBSIDIARIES

None.

⁽¹⁾ Profit distribution is approved by the Ordinary General Assembly. As of the date of the preparation of financial statements, the meeting for Ordinary General Assembly has not been held.

⁽²⁾ The profit distribution table for the prior period becomes definite with the decision of Ordinary General Assembly after the publishing of 31 December 2015 audited financial statements. It is rearranged in this direction.

The accompanying explanations and notes form an integral part of these financial statements.

**CONVENIENCE TRANSLATION OF PUBLICLY ANNOUNCED
UNCONSOLIDATED FINANCIAL STATEMENTS ORIGINALLY ISSUED IN
TURKISH, SEE NOTE I. OF SECTION THREE**

TÜRKİYE CUMHURİYETİ ZİRAAT BANKASI A.Ş.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES

I. BASIS OF PRESENTATION

The unconsolidated financial statements are prepared within the scope of the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” related with Banking Law numbered 5411 published in the Official Gazette no.26333 dated 1 November 2006 and other regulations related to reporting and accounting principles on accounting records of Banks published by Banking Regulation and Supervision Agency (“BRSA”) and circulars and interpretations and in case where a specific regulation is not made by BRSA, Turkish Accounting Standards “TAS” and Turkish Financial Reporting Standards (“TFRS”) and related appendices and interpretations (all referred as “BRSA Accounting and Financial Reporting Legislation” or “BRSA Principles”) put into effect by Public Oversight Accounting and Auditing Standards Authority (“POA”).

The format and content of the publicly announced unconsolidated financial statements and notes to these statements have been prepared in accordance with the “Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements”, published in the Official Gazette No. 28337, dated 28 June 2012 and amendments to these Communiqué. The Bank maintains its books in Turkish Lira in accordance with the Banking Law, Turkish Commercial Code and Turkish Tax Legislation.

The unconsolidated financial statements have been prepared in thousands of Turkish Lira (TL), under the historical cost convention as modified in accordance with inflation adjustments applied until 31 December 2004, except for the financial assets and liabilities carried at fair value.

Balance sheet and statement of off-balance sheet commitments as of 31 December 2016 are presented comparatively with independently audited balances as of 31 December 2015.

Unless otherwise specified, all balances in the financial statements and footnotes are expressed in Thousand Turkish Lira (“TL”).

The preparation of financial statements requires the use of certain critical estimates on assets and liabilities reported as of balance sheet date or amount of contingent assets and liabilities explained and amount of income and expenses occurred in related period. Although these estimates rely on the management’s best judgment, actual results can vary from these estimates. Judgements, estimates and the effects of the changes are explained in related notes.

The amendments of TAS and TFRS which have entered into force as of 1 January 2016 have no material impact on the Bank’s accounting policies, financial position and performance. The amendments of TAS and TFRS, except TFRS 9 Financial Instruments, is predicted no impact on the accounting policies, financial condition and performance of the Bank. The Bank conducts the preparations in line with TFRS 9 Financial Instruments Standard, which will have entered into force as of 1 January 2018.

The accounting policies and valuation principles applied in the preparation of these financial statements are defined and applied in accordance with TAS. Those accounting policies and valuation principles are explained in Notes II. to XXIV. below.

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

I. BASIS OF PRESENTATION (Continued)

Additional paragraph for convenience translation into English:

The differences between accounting principles, as described in the preceding paragraphs, and accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying unconsolidated financial statements. Accordingly, these unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

II. EXPLANATIONS ON STRATEGY OF USING FINANCIAL INSTRUMENTS AND FOREIGN CURRENCY TRANSACTIONS

Main activity of the Bank comprises of banking services, such as; launching all kinds of cash and non-cash loans in terms of Turkish Lira and foreign currencies, performing transactions in local, international money and capital markets, supporting agricultural sector financially and collecting deposits in Turkish Lira and foreign currencies. The Bank’s main funding source consists of Turkish Lira deposits, repurchase agreements, issued securities, and shareholders’ equity. The Bank directs these funds to assets with high return and low risk. These assets include predominantly domestic government bonds and loans. The Bank’s liquidity structure covers the financing of all liabilities at due date. Although most of the sources in the Bank’s balance sheet are with fixed interest rate, some of the securities in assets have floating interest rate. Since the remaining time to re-pricing date of sources is short, cost of sources is repriced in short periods based on the market conditions. Moreover, the Bank adopts high return principle for its long-term placements.

Loans and securities are instruments from which the Bank gets returns above the average returns within its lines of activity. Letter of guarantees, bank loans, commercial letter of credits, repayment commitments for cheques and commitments for credit card limits are the most important risk areas within the off-balance sheet accounts.

Since the Bank’s total debt to the market is low among its total liabilities, the Bank can borrow easily from short-term markets, such as; Borsa Istanbul (“BIST”), Central Bank of the Republic of Turkey, Money Market or Interbank Money Market in case of need. In case of a liquidity crisis, the deposit base of the Bank is not presumed to be significantly affected from such a case since the Bank is a public bank with an extensive branch network.

Cost and return of foreign currency assets are subject to a close follow up. Positive margin of profit is sustained by adjusting deposit interest rates in line with the market interest rates.

Foreign currency operations are recognized at transaction date and valued by Bank’s prevailing counter currency buying rate. At period ends, foreign currency asset and liability balances are valued at the Bank’s period end counter currency buying rates and translated to Turkish currency and the resulting exchange differences are recognized as a “foreign exchange gain or loss”.

Foreign currency capital amounts transferred to the equity participations operating abroad are evaluated and presented on the financial statements with the exchange rate on the date of the transfer.

Assets and liabilities and income statement items of the abroad branches of the Bank are translated into Turkish Lira with the Bank’s prevailing counter currency buying rates at the balance sheet date.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES, SUBSIDIARIES AND JOINT VENTURES

Based on the TAS 27 “Turkish Accounting Standard for Consolidated and Separate Financial Statements”, Turkish Lira denominated investments in associates and subsidiaries are accounted at cost value and are reflected to the unconsolidated financial statements after clarifying the impairment, if any.

Investments related to subsidiaries and joint ventures operating abroad in foreign currency are followed by their fair values. For these subsidiaries, fair value is determined by valuation reports, TL equivalents of investments related to subsidiaries are fixed as of revaluation date and revaluation differences added to subsidiaries’ values are recognized in “Marketable Securities Value Increase Fund” under shareholders’ equity.

IV. EXPLANATIONS ON FORWARD TRANSACTIONS, OPTION CONTRACT AND DERIVATIVE INSTRUMENTS

The Bank’s derivative transactions mostly include cross currency swaps, currency and precious metal swaps, long term financing operations, full indemnity options and foreign currency forward contracts. The Bank has no embedded derivative instruments separated from the articles of association.

The derivative instruments of the Bank are classified as trading or hedging instruments in accordance with Turkish Accounting Standard on TAS 39 “Financial Instruments: Recognition and Measurement”. The Bank has no derivative instruments for hedging purposes as of the balance sheet date. Accordingly, the Bank is not subject to conditions whether derivative instruments do not meet the determination criteria for being classified as hedging instruments or whether such derivative transactions are finalized through sale, term expiry or fulfillment of obligations under the contract.

Derivative instruments are recognized at fair value on contractual date and subsequently re-valued at their fair values and associated with the income statement. If the fair value of derivative financial instruments is positive, it is disclosed under the main account “Financial Assets at Fair Value Through Profit or Loss” in “trading derivative financial assets” and if the fair value difference is negative, it is disclosed under “financial liabilities at fair value through profit or loss” in “trading derivative financial liabilities”. Fair value changes are recorded under “Derivative Financial Transactions Gains/Losses” in income statement.

The fair values of the derivative financial instruments are calculated using quoted market prices or by using discounted cash flow models.

Liabilities and receivables arising from the derivative instruments are followed in the off-balance sheet accounts from their contractual values.

V. EXPLANATIONS ON INTEREST INCOME AND EXPENSE

Interest income and expenses are recognized on an accrual basis using the internal rate of return method in conformity with TAS 39 “Financial Instruments: Recognition and Measurement”. In accordance with the Communiqué on “Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions” came into force after being published in the Official Gazette numbered 26333 dated 1 November 2006, no interest accrual is calculated for non-performing loans. Realized interest accruals calculated for non-performing loans and recognized as income although not collected are reversed and interest income related to these loans is recognized as interest income only when collected.

VI. EXPLANATIONS ON FEE AND COMMISSION INCOME AND EXPENSE

Commission income from banking, agency and intermediary services is recognized as income on the date they are collected. Whereas, commission income from individual, corporate and entrepreneurial cash loans are recognized on an accrual basis by using internal rate of return method and transferred to the income statement in accordance with the matching principle. Other fees and commission expenses are recorded as expense on the date they are paid.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VII. EXPLANATIONS ON FINANCIAL ASSETS

Financial instruments comprise financial assets and liabilities and derivative instruments. They are included in the balance sheet of the Bank, if the Bank is a legal party to these instruments.

Financial assets mainly constitute the Bank’s commercial activities and operations. These instruments have the ability to expose, affect and diminish the liquidity, credit and interest rate risks in the financial statements.

Financial assets are classified as investments held-to-maturity, bank loans and receivables, financial assets available for sale or held-for-trading at initial recognition.

Sale and purchase transactions of financial assets are accounted for using the settlement date basis.

a. Financial assets at fair value through profit or loss:

Financial assets, which are classified as “financial assets at fair value through profit or loss”, are trading financial assets and are either acquired for generating profit from short-term fluctuations in the price or dealer’s margin, or are the financial assets included in a portfolio in which a pattern of short-term profit making exists independent from the acquisition purpose.

Trading securities are initially recognized at cost. The cost of the securities is recognized as fair value. Subsequently, trading securities are carried at fair value in the financial statements.

Government bonds and treasury bills included in held for trading and available for sale portfolios traded in BIST are carried at weighted average exchange prices of BIST as of the balance sheet date and those securities that are not traded in BIST are carried at prices of the Central Bank of the Republic of Turkey. Eurobonds are carried at prices in the over the counter markets. The positive difference between the cost and fair value of held for trading securities is accounted under “Other Interest and Income Accrual” and the negative difference is accounted under “Impairment Loss for Marketable Securities” account. The positive difference between the cost and amortized cost is accounted under “Interest income” account, the negative difference is accounted as impairment loss. The positive difference between the fair value and amortized cost is accounted under “Profit from Capital Market Operations” account and the negative difference is accounted under “Loss from Capital Market Operations” account.

b. Held-to-maturity financial assets:

Investments held to maturity include financial assets other than Bank loans and receivables and those where there is an intention of holding until maturity and the relevant conditions for fulfillment of such intention, including the funding ability, and where there are fixed or determinable payments with fixed maturity. Marketable securities classified as Financial Assets Held to Maturity may subject to exchange-repurchase bids or refundment transactions within the scope of early redemption.

Investments held to maturity are subsequently measured at amortized cost with internal rate of return, and they are accounted by setting forth provision for impairment loss (impairment loss expense) or by posting interest income accrual.

There are not any financial assets that are previously classified as investments held-to-maturity but prohibited to be classified in this portfolio for two years because of incompliance with the principles of financial assets classification.

Interests received from investments held to maturity are recognized as an interest income.

Held to maturity assets are initially recognized at cost value.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VII. EXPLANATIONS ON FINANCIAL ASSETS (Continued)

c. Loans and receivables:

Bank loans and receivables represent financial assets other than those held for trading or held for sale in a short period generated through providing cash, assets or rendering services to the debtor.

Bank loans and receivables are initially carried at cost value. Bank loans are measured at amortized cost with internal rate of return. Short-term and long-term loans are grouped as open or guaranteed; FC loans are recognized with fixed price and at period-ends revalued by the counter foreign exchange buying rate of the Bank. Foreign exchange indexed loans are used as TL by the valid counter foreign exchange buying rate of the Bank at usage date. Repayments of these loans are collected as calculated TL value by the valid counter foreign exchange selling rate of Bank at installment date.

The Bank sets specific and general provisions for loans and other receivables in accordance with the regulations stated by the Communiqué published on the Official Gazette numbered 26333 and dated 1 November 2006 on “Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions”. In addition to this, in the related Regulation and the interpretations of BRSA does not include any clause which prevents to reflect excess provisions than the required level. Allocated provisions are deducted from the income for the period. If the receivables for which provisions were set in the previous years are collected, provision for allowances are released and recognized as income under “Other Operating Income” account. Releases of current period provisions are made by the reversal of the amount from the “Provision for Impairment of Loans and Other Receivables” account.

d. Available-for-sale financial assets:

Available-for-sale financial assets are defined as financial assets other than the ones classified as “Loans and Receivables”, “Held-to-Maturity Assets” or “Financial Asset at Fair Value Through Profit or Loss”.

Available for sale assets are initially recognized at cost value. The cost of the securities is recognized as fair value.

Available-for-sale financial assets are subsequently re-measured at fair value in financial statements.

The difference between fair value and cost of available for sale financial assets is booked as interest income accruals or impairment provision. Furthermore, amortized cost using the effective interest method and cost value is compared and the difference is booked as interest income or impairment expense. Fair value and amortised cost of these securities are compared and the difference is recognized in shareholders’ equity as “Marketable Securities Value Increase Fund”. When these financial assets are disposed of or impaired the related fair value differences accumulated in the shareholders’ equity are transferred to the income statement.

When there is no price quotation in an active market for price formations to constitute the basis of the fair value or in such a situation when the reasonable value is not measured confidentially; the fair value of the available-for-sale financial assets are carried at amortised cost using the effective interest method or appropriate valuation methods.

Regarding the banking operations of Ziraat Bank, there exist ineffective shares of Kredi Garanti Fonu, Central Bank of the Republic of Turkey and Milli Reasürans T.A.Ş. The related investments are classified under available-for-sale financial assets and are carried out at book value. The reason to explain the necessary action is the inability to reliably measure the subject asset type at fair value.

**CONVENIENCE TRANSLATION OF PUBLICLY ANNOUNCED

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VIII. EXPLANATIONS ON IMPAIRMENT OF FINANCIAL ASSETS

A financial asset or a group of financial assets is subject to impairment loss only if there is an objective indication that the occurrence of one or more than one event (“loss event”) subsequent to the initial recognition of that asset has an effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group.

If revalued amounts of financial assets at fair value through profit/loss is less than the prior revalued amounts, initially, value of prior records regarding the value increase are adjusted according to the recent value and if the impairment loss is more than the prior value increase, difference is reflected to “Impairment Expense for Marketable Securities”. If there is an increase in value, initially recognized impairment loss is reversed.

If financial assets available for sale are subject to permanent impairment, the amount is charged to “Impairment Expense for Marketable Securities” account in accordance with the related Turkish Accounting Standard.

If subsidiaries, associates, entities under common control and assets held to maturity are subject to permanent impairment, the amount is charged to “Impairment Expense for Subsidiaries, Associates, and Assets Held to Maturity”.

The principles for the accounting of provisions for loans are explained in detail in Note VII. of this section.

Loans and other receivables are classified in accordance with the Communiqué on “Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions” published in the Official Gazette numbered 26333 and dated 1 November 2006.

IX. EXPLANATIONS ON OFFSETTING OF FINANCIAL ASSETS AND LIABILITIES

Financial assets and liabilities shall be offset and the net amount presented in the balance sheet when, and only when the Bank currently has a legally enforceable right to set off the recognized amounts or intends either to collect/settle on a net basis or to realize the asset and settle the liability simultaneously.

X. EXPLANATIONS ON SALES AND REPURCHASE AGREEMENTS AND SECURITIES LENDING TRANSACTIONS

Securities subject to repurchase agreements are classified under “held for trading”, “available for sale” and/or “held-to-maturity” portfolios and they are valued based on the revaluation principles of the related portfolios. Funds obtained by these agreements are followed under the “Funds from Repurchase Agreements” account in the balance sheet and interest expense accrual is calculated using the internal rate of return method.

Funds given against securities purchased under agreements (“Reverse Repo”) to resell are accounted under “Receivables from Reverse Repurchase Agreements” on the balance sheet and interest income accrual is calculated using internal rate of return method.

As of the balance sheet date, there are no securities lending transactions.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XI. INFORMATION ON ASSETS HELD FOR SALE AND RELATED TO DISCONTINUED OPERATIONS AND EXPLANATIONS ON LIABILITIES RELATED WITH THESE ASSETS

Tangible assets acquired in consideration of receivables are accounted for in accordance with the requirements of the Communiqué on “Methods, Principles for Purchase and Sale of Precious Metal and Sale of Goods and Immovables obtained in Return of Receivables” published in the Official Gazette numbered 26333 and dated 1 November 2006 and these assets are subject to revaluation by no means.

A discontinued operation is a part of the Bank’s business classified as sold or held-for-sale. The operating results of the discontinued operations are disclosed separately in the income statement.

The Bank has no discontinued operations.

XII. EXPLANATIONS ON GOODWILL AND OTHER INTANGIBLE ASSETS

As at the balance sheet date, the Bank has no goodwill within the financial statements.

Other intangible assets are measured at cost on initial recognition and any directly attributable costs of setting the asset to work for its intended use are included in the initial measurement. Subsequently, intangible assets are carried at historical costs after the deduction of accumulated depreciation and the provision for value decreases.

Other intangible assets are amortized by using the straight line method based on their useful lives. Useful lives of other intangible assets are determined by the consideration of items as; useful life of asset, maintenance costs incurred to obtain expected economic benefit from assets and technical, technological or any other type of obsolescence. Amortization method used in the current period is not subject to any change. Depreciation period is 5 years (20% annual depreciation rate) for establishment/formation expenses for other intangible assets with uncertain leasing period or leasing period over 5 years and depreciation rate is proportional with period for those with certain leasing period.

The Bank recognizes its software costs incurred under the intangible assets-intangible rights account and the expenses that do qualify as development are added to software’s initial costs and amortized over 3 years considering the useful lives. The Bank has determined estimated useful lives of the intangible assets between 3 and 15 years and it applies depreciation rates between 6,67% to 33,3 %.

XIII. EXPLANATIONS ON PROPERTY AND EQUIPMENT

Property and equipment is measured at its cost when initially recognised and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement. The Bank’s tangible fixed assets purchased before 1 January 2005 are carried at inflation adjusted cost in the balance sheet before 31 December 2004 and its tangible fixed assets that are purchased subsequent to 1 January 2005 are valued at historical cost. As of 31 January 2014 the Bank has changed its accounting policies and has decided to pursue the real estates registered in its portfolio at fair values. In this context, for all real estates registered in the Bank’s inventory, appraisal study was carried by independent expertise companies, and from 1 January 2014 valuation results are reflected in the accounting records. As a result of the fair valuation of the real estates which is included in tangible fixed assets, TL 4.177.866 revaluation difference is followed under shareholders’ equity as of 31 December 2016. As of 30 January 2014, the net book amount of real estates of the tangible assets before valuation was TL 816.950.

Property, plant and equipment (except for immovable assets) are presented in the financial statements over their remaining cost after deducting accumulated depreciation from cost amounts, if any, and after deducting accumulated depreciation from their fair values. Tangibles are depreciated over their estimated useful lives using the straight-line method. The amortization method applied in the current period has not been changed.

**CONVENIENCE TRANSLATION OF PUBLICLY ANNOUNCED

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XIII. EXPLANATIONS ON PROPERTY AND EQUIPMENT (Continued)

Applied depreciation rates are as follows;

Buildings	: 2%
Vehicles and Fixtures	: 2 - 20%

Gains or losses emerging from the disposal of tangible assets are recognized in the profit or loss account as difference between net revenue of a related intangible asset and its net book value.

Ordinary maintenance and repair expenses of tangible fixed assets items are recognized as expenses. Investment expenditures that increase the future benefit by enhancing the capacity of tangible assets are capitalized. The investment expenditures include the cost components which are used either to increase the useful life or the capacity of the asset or the quality of the product or to decrease the costs.

There are no mortgages, pledges or similar precautionary measures on tangible fixed assets or commitments given for the purchase or any restrictions designated for the use of those tangible fixed assets.

XIV. EXPLANATIONS ON LEASING TRANSACTIONS

Financial Lease

The Bank, as the lessee, recognizes its leasing operations in accordance with the requirements of TAS 17 “Leases”. Fixed assets that are acquired under financial leasing are amortized with respect to the rates used for directly acquired assets that have similar nature. Assets held under financial leases are recognized under the tangible fixed assets account and are depreciated on annual and monthly basis with respect to their useful lives. Principal and installment paid for tangible fixed assets that are acquired under financial leasing are charged to liability account “Finance Lease Payable”, whereas interests are recognized in “Deferred Financial Leasing Expenses” account. At installment payments, principal and interest amount of installment amount are debited to “Financial Lease Payable” account, whereas interest is credited in “Deferred Financial Leasing Expenses” account and recorded to the “Other Interest Expenses”.

The Bank does not perform financial operations as “Lessor”.

Operational Lease

Leases, in which the majority of risk and return of property belongs to lessor, are classified as operating lease. Payments that are made as operating leases are accounted in income statements with linear method during the lease period.

XV. EXPLANATIONS ON PROVISIONS, CONTINGENT ASSET AND LIABILITIES

Provisions other than the specific and general provisions set for loans and other receivables and provisory liabilities are accounted in accordance with TAS 37 “Turkish Accounting Standard on Provisions, Contingent Liabilities and Contingent Assets Corresponding”.

The Bank provides provision in case of an existing liability (legal or implicit) as a result of an incident that took place in the past, there is possibility of disposal of assets that bring economic benefit and the liability is measurable. When a reliable estimate of the amount of obligation cannot be made, it is considered that a “contingent” liability exists and it is disclosed in the related notes to the financial statements.

For transactions that can affect financial structure, provisions are provided by using the existing data if they are accurate, otherwise by using the estimates.

As of the balance sheet date, there are no probable contingent liabilities resulting from past events whose amount can be reliably measured.

**CONVENIENCE TRANSLATION OF PUBLICLY ANNOUNCED
UNCONSOLIDATED FINANCIAL STATEMENTS ORIGINALLY ISSUED IN
TURKISH, SEE NOTE I. OF SECTION THREE**

TÜRKİYE CUMHURİYETİ ZİRAAT BANKASI A.Ş.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XV. EXPLANATIONS ON PROVISIONS, CONTINGENT ASSET AND LIABILITIES (Continued)

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements in which the change occurs.

XVI. EXPLANATIONS ON OBLIGATIONS RELATED TO EMPLOYEE RIGHTS

a. Employment Termination and Vacation Benefits

The Bank recognizes its liabilities of employment terminations and vacation benefits in accordance with TAS 19 “Employee Benefits” and estimates the net present value of future liabilities arising from employment terminations and vacation benefits and reflects this provision amount in the financial statements.

Under the Turkish legislation as supplemented by union agreements, Employment Termination Benefit payments are made in case of retirement or resignation depending on the arise of the legal conditions or employment termination. According to the related legislation, depending on the status and position of the employee in the Bank and social security institution, Employment Termination Benefit Provision is calculated based on the final salary at the date of retirement or leave (to the extent that the payments and/or salary amount does not exceed the Employment Termination Benefit Provision ceiling).

The Bank uses independent actuaries in determining liability, and also makes assumptions relating to the discount rate, future salary increases, and the employee turnover. These assumptions are reviewed on an annual basis. Retirement benefit obligation is 690.189 TL (31 December 2015: 683.269 TL).

	Current Period	Prior Period
Discount Ratio (%)	11,40	10,70
Expected Inflation Rate (%)	8,00	7,00

Communiqué on “Turkish Accounting Standard (TAS 19) about Benefits for Employee (No:9)” published in Official Gazette by Public Oversight Accounting and Auditing Standards Authority (“POA”) on 12 March 2013 numbered 28585, was entered into force for the account periods starting after 31 December 2012 on accounting treatment of actuarial profit and loss resulting from changes in actuarial assumptions or differences between actual and actuarial assumptions. Actuarial loss amounting to TL 78.342 was classified as “Other Comprehensive Expense” in the financials (31 December 2015: 85.078 TL actuarial loss).

In every year the unused vacation liability is calculated based on number of unused vacation days which is calculated by subtracting cumulative summation of used vacation days of all personnel from legally deserved vacation days.

The Bank is not employing its personnel by means of limited-period contracts.

b. Liability of T.C. Ziraat Bankası and T. Halk Bankası Members Pension and Relief Fund (TZHEMSAN)

Some of the Bank’s personnel are the members of T.C. Ziraat Bankası and T. Halk Bankası A.Ş. Employees Pension Fund (“Fund”) which was established by 20th provisional article of Social Security Law Act numbered 506. As of 31 December 2016 the number of personnel who benefit from the Fund, excluding dependents, is 22.221 (31 December 2015: 21.347). 18.450 of these members are active while 3.771 are passive members. (31 December 2015: 17.644 active members, 3.703 passive members).

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XVI. EXPLANATIONS ON OBLIGATIONS RELATED TO EMPLOYEE RIGHTS (Continued)

In accordance with 23rd provisional clause of the Banking Law numbered 5411, the pension fund established within Social Security Law is expected to be transferred to the Social Security Institution by three years following the declaration of the Banking Law numbered 5411. Procedures and principles of the transfer are determined by the decision of Council of Ministers numbered 2006/11345 dated 30 November 2006. However, the 1st paragraph of the 1st article of the 23rd provisional clause of Banking Law numbered 5411 allowing pension funds to be transferred to Social Security Institution (“SSI”) is annulled following the resolution of Constitutional Court declared in the Official Gazette dated 31 March 2007 numbered 26479 E.2005/139, K.2007/13 and K.2007/33.

With the publication of the reasoning of the decision, the Grand National Assembly of Turkey (“GNAT”) started to work on new legal arrangements regarding the transfer of the fund members to SSI and the related articles of the “Law Regarding the Changes in Social Insurance and General Health Insurance Law and Other Related Laws and Regulations” No 5754 (“the New Law”) regulating the transfer of the funds were approved by the GNAT on 17 April 2008. The New Law was published in the Official Gazette dated 8 May 2008, numbered 26870 and came into force.

According to the new law Bank pension funds participants and salaried members or the rightful owners would be transferred to Social Security Institution and would be subject to its legislation within three years beginning from the date of publication without any required transaction. Three years transfer period would be extended by two years at most with the decision of Council of Ministers. In accordance with the related legislation, as of the transfer date, the cash value of the liabilities will be calculated by considering the income and expenses of the transferred funds by the insurance branches and by using the actuarial interest rate of 9.80%. Moreover, the unfulfilled other social rights and payments existed in the settlement deeds of the subjected pension funds of the transferred participants, members or the rightful owners will be continued to be fulfilled by the employer entities of the funds and its participants.

In accordance with 58th article and 7th provisional article of the Banking Law, restricting banks from transferring any funds to the pension funds in order to compensate the actuarial deficits effective from 1 January 2008, has been delayed up to 5 years.

Based on the Council of Ministers’ decree numbered 2011/1559 and issued in the Official Gazette numbered 27900, dated 9 April 2011, and 20th provisional article of law numbered 506, the deadline for transferring banks, insurance and reinsurance companies, chambers of commerce, chambers of industry, exchange markets and the participants of the funds that were founded for the personnel constituting these entities and the ones having salary or income and the right holders of them to Social Security Institution has been extended for two years.

Besides, the phrase of “two years” in Clause (2), Article 1 of the temporary 20th provision of the law numbered 5510 is revised as “four years” with the law numbered 6283 amending on the Social Insurance and General Health Insurance Law, published in the Official Gazette numbered 28227, dated 8 March 2012.

Based on the Council of Ministers’ decree numbered 2014/6042 and issued in the Official Gazette numbered 28987 dated 30 April 2014, the participants of the funds that were founded for the personnel constituting these entities and the ones having salary or income and the right holders of them to Social Security Institution has been extended for one year.

Lastly, 51st article of Law No.6645 dated 23 April 2015, published on Official Gazette and the first paragraph of the transient 20th article of Law No.5510 related to the transfer of Bank and Insurance Funds to Social Security Institution; “Council of Ministers is the authority to determine the date of transfer of banks, insurance and reinsurance companies, boards of trade, chambers of industry and stock markets or the participants of funds established for their constitute union personnel and the ones that were endowed salary or income and their beneficiaries within the scope of transient 20th article of Law No.506. As from the transfer date, the participants are considered as insured within the scope of clause (a), first paragraph and 4th article of this Law.

The technical balance sheet report as of 31 December 2016 which is prepared in accordance with the new law and the rate determined as 9,80%, concluded no technical deficit arises in the above mentioned fund. Since the Bank has no legal right to hold the present value of any economic benefits available in the form of refunds from Pension Fund or reductions in future contributions to Pension Fund, no asset is recognized in the Bank’s financial statements.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XVII. EXPLANATIONS ON TAXATION

a. Current Tax

"Corporate Tax Law" ("New Tax Law") No. 5520 was taken into effect after being published in the Official Gazette dated 21 June 2006 No.26205. Many clauses of the "New Tax Law" are effective from 1 January 2006. According to the New Tax Law, the corporate tax rate in Turkey is payable at the rate of 20% as of 1 January 2006. The corporate tax rate is calculated on the total income of the Bank after adjusting for certain disallowable expenses, exempt income (like affiliation privilege) and other allowances. No further tax is payable unless the profit is distributed.

Dividends paid to non-resident corporations, which have a place of business or permanent attorney in Turkey or to resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as profit distribution and no withholding tax incurs in such a case.

Corporations are required to pay advance corporate tax quarterly at a rate of 20% on their corporate income. Advance tax is declared by the 14th and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations for the current period is credited against the annual corporation tax calculated on the annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be refunded or used to offset any other financial liabilities to the government.

A 75% portion of the capital gains derived from the sale of equity investments and immovable properties held for at least two years is tax exempt, if such gains are added to paid-in capital in accordance with Corporate Tax Law or held in a special account under shareholders' equity for five years.

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments with tax authorities. Tax returns are required to be filled and delivered to the related tax office until the evening of the 25th of the fourth month following the balance sheet date and the accrued tax is paid until the end of the same month. Tax returns are open for 5 years from the beginning of the year following the balance sheet date and during this period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

b. Deferred tax

In accordance with TAS 12 "Turkish Accounting Standards Relating to Income Tax", the Bank calculates and recognizes deferred tax for temporary differences between the bases calculated based on the accounting policies used and valuation principles and that calculated under the tax legislation.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and are accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences. However, deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such assets and liabilities are not recognized as deferred tax liability or asset if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of a deferred tax asset is reviewed at each balance sheet date. Carrying amount of a deferred tax asset can be reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to be applied in the period in which the liability is settled or the asset realized and reflected in the statement of income as expense or income. Moreover, if the deferred tax is related with items directly recorded under the equity in the same or different period, deferred tax is associated directly with equity.

The calculated deferred tax asset and deferred tax liability are presented as net in these financial statements.

The deferred tax benefit is not taken into account in profit distribution in accordance with the relevant circular of BRSA.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XVIII. EXPLANATIONS ON BORROWINGS

The Bank accounts its debt instruments in accordance with TAS 39 "Financial Instruments: Recognition and Measurement". In the following periods, all financial liabilities are carried at amortized cost by using the internal rate of return method. The Bank has no borrowings that require hedging techniques for accounting and revaluation of debt instruments and liabilities representing the borrowings.

If required, the Bank borrows from domestic and foreign real people and entities with debt instruments such as bill/bond issuance. These transactions are recognized at fair value including acquisition costs at the transaction date while accounted with effective interest rate method over their discounted costs in the following periods.

The Bank has issued no convertible bonds and has no instruments representing its own borrowings.

XIX. EXPLANATIONS ON ISSUANCE OF SHARE CERTIFICATES

Since the Bank does not have issued shares, there are no transaction costs related to share issue in the current period.

XX. EXPLANATIONS ON AVALIZED DRAFTS AND ACCEPTANCES

Commitments regarding bill guarantees and acceptances of the Bank are presented in the “Off-Balance Sheet” commitments.

XXI. EXPLANATIONS ON GOVERNMENT GRANTS

There are no government incentives utilized by the Bank as of the balance sheet date.

XXII. CASH AND CASH EQUIVALENTS

Cash and cash equivalents are cash on hand, demand deposits and other highly liquid short-term investments with maturities of 3 months or less following the date of acquisition, which is readily convertible to a known amount of cash, and does not bear the risk of significant amount of value change. The book values of these assets represent their fair values. Cash equivalents and balances regarding banks are valued by the period end counter foreign currency buying rate of the Bank.

For the purposes of the cash flow statement, “Cash” includes cash, effectives, cash in transit, purchased cheques and demand deposits including balances with the Central Bank; and “Cash equivalents” include interbank money market placements and time deposits at banks with original maturity periods of less than three months.

XXIII. EXPLANATIONS ON SEGMENT REPORTING

Information about operating segments which are determined in line with TFRS 8 “Turkish Accounting Standard about Operating Segments” together with organizational and internal reporting structure of the Bank, are disclosed in Note IX. of Section Four.

XXIV. EXPLANATIONS ON OTHER MATTERS

In accordance with the decision taken in the General Assembly of the year 2015, which was carried out on 30 March 2016, from TL 5.162.470 net profit, which is subject to distribution, TL 258.124 is transferred to first legal reserve and TL 24.200 is transferred to second legal reserve TL 220.000 was paid to employees and TL 231.200 is distributed to Treasury after deducting withholding tax of 15% (TL 40.800) in cash. In this context, TL 4.388.146 of the profit is preserved; dividend payment made to Treasury on 15 April 2016, and TL 186.788 was paid to employees as an additional premium. With respect to the decision of the Board of Directors the remaining amount of additional premium to employees, which amounts 33.212 TL has been transferred to the “Profit Reserves” account.

SECTION FOUR

EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK

I. EXPLANATIONS ON THE COMPONENTS OF SHAREHOLDERS' EQUITY

Total capital and Capital adequacy ratio have been calculated in accordance with the "Regulation on Equity of Banks" and "Regulation on Measurement and Assessment of Capital Adequacy of Banks".

As of 31 December 2016 Bank's total capital has been calculated as TL 41.061.245, capital adequacy ratio is 14,55%. As of 31 December 2015, Bank's total capital amounted to TL 34.995.187, capital adequacy ratio was 15,08% calculated pursuant to former regulations. This ratio is well above the minimum ratio required by the legislation.

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

**EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK
(Continued)**

I. EXPLANATIONS ON THE COMPONENTS OF SHAREHOLDERS’ EQUITY (Continued)

a) Information Related to the Components which Subject to Temporary Implementation in the Calculation of Equity:

None.

b) Necessary explanations in order to reach an agreement between the statement of shareholders’ equity and balance-sheet amounts:

The difference between Total Capital and Equity in the consolidated balance sheet mainly arises from the general provision. In the calculation of Total Capital, general provision up to 1,25% credit risk is taken into consideration as Tier II Capital. On the other hand, in the calculation of the Total Capital, improvement costs for operating leases followed under tangible assets in the balance sheet, intangible assets and net book value of immovables that are acquired against overdue receivables and retained more than five years, other items defined by the regulator are taken into consideration as amounts deducted from Total Capital.

II. EXPLANATIONS ON THE CREDIT RISK

Credit risk is the possibility of loss that the bank may be exposed due to the partial or complete default of the debtor by not complying to the obligations of the agreement made, or due to the decrease in credit worthiness.

The limits of the credit customers are identified, after combined assessment of various factors like the financial and non-financial information of the credit customers, credit requirements, sectoral and geographical features and, in conformity with the legal legislation, in line with the credit authorization limits of the branches, Regional Managements, Group Presidencies, Department Presidencies, Assistant General Management, General Manager, Credit Committee and Board of Directors.

The average limits identified related the credit portfolio are approved by the Board of Directors and revised when required. The identified limits are allocated by related departments on Regional Managements basis by considering the factors like portfolio structure, potentials of the customers and credit, regional and sectoral characteristics, competencies of the personnel.

In order to prevent the risk intensity on the commercial loan portfolio, limits are determined and followed on the basis of group companies, private and public firms, and different debtor groups. Similarly, in determining the limits of the agricultural loan portfolio the structures of the regions are considered. The bank’s credit authority limits on given consumer loans are defined with the separation of type and guarantee and these limits are updated according to economic conjuncture and demands of Regional Managements/Branches.

In line with the budgeted targets, TL/FC Cash/Non-Cash Corporate/Commercial/Entrepreneurial loan placements are issued and followed on sectoral and regional basis.

The loans issued by the branches are periodically analyzed on the basis of the limits, subjects, guarantees, maturities, accounts followed, outstanding balances, numbers of the customers, and followed on customer and regional basis.

After the opening of the lines of the commercial loans, the firms are continued to be monitored and the changes at the financial structures and market relations of the credit firms are followed. The credit limits are identified and approved for one year and renewed in case of no negative change in the situation of the customer (financial structure, market, guarantee, etc.).

The Bank is assessing credibility of the customer as the essential factor in issuing credits and creditors’ credit worthiness are ascertained during credit application and limit allocation/renewal. Documents to be obtained during the application are evidently mentioned in regulations and appropriateness of the documents obtained during application is controlled by internal audit departments. The Bank considers guarantees as important in minimization and elimination of the risk. As a result of policies and process based on obtaining reliable and robust guarantees, the Bank’s credit risk significantly declines.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

**EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK
(Continued)**

II. EXPLANATIONS ON THE CREDIT RISK (Continued)

On January 2011 the Bank started applying internal ratings processes as a decision support system for analysing credit worthiness and determining credit allocation for Corporate/Commercial/Entrepreneurial consumer loans.

The Bank is not engaging in credit transactions that are not defined at the legislation and not put into the practice.

The Bank makes provision in conformity with the “Communiqué on Methods and Principles for Determining the Nature of Loans and Other Receivables and Allocation of Provisions”.

Identification of limits for domestic and foreign banks are done by rating which is determined by considering the needs of clients and departments together with financial and economic conditions of the banks and their countries. When banks and/or countries are financially or economically risky, identified limits can be restricted with maturity, amount or type of transaction or use of credit is called off.

Since the Bank’s abroad lending operations have no significant effect on the financial statements, and operations and transactions are diversified via the use of different financial institutions in various countries, the Bank is not believed to be exposed to a significant credit risk as a result of these operations.

Foreign financial institution and country risks of the Bank are generally taken on financial institutions and countries which are rated by international rating institutions. Treasury operations are executed in the frame of pre-determined authorization and limits, these authorization and limits are monitored. Client transactions within the context of Fund Management are done in the frame of general loan limits determined for the clients

The Bank engages in foreign currency swaps and forward transactions considering its asset-liability balance and legal limits. These are not considered to generate material risk given the amount of these transactions in the balance sheet.

In line with the regulation on provisions, if the cash risk of a customer classified as nonperforming, the non-cash is classified as nonperforming under the same group where the cash risks were already followed and specific provision is reserved.

Restructured and rescheduled loans are also booked in line with procedures and under accounts defined by the related regulation. Furthermore, they are monitored by the bank in line with credit risk policies. In this context, financial situation and commercial operations of related customers are analyzed and in terms of restructured plan, whether principal and interest payments have been paid is being checked and necessary measures are taken.

The percentage of top 100 and top 200 cash loans in the total cash loan portfolio is 26% and 31% respectively (31 December 2015: 24% and 29%).

The percentage of top 100 and top 200 non-cash loans in the total non-cash loan portfolio is 57% and 67% respectively (31 December 2015: 57% and 68%).

The percentage of top 100 and top 200 cash and non-cash loans in the total cash and non-cash loan portfolio is 27% and 34% respectively (31 December 2015: 32% and 38%).

General provision made by the Bank for the credit risk is TL 3.921.625 (31 December 2015: TL 2.844.184).

Grades of Fitch Ratings International Rating Agency are used in determining risk weights for risk classes being used rating grade of risk classes indicated in article 6 of Communiqué on "Measurement and Assessment of Capital Adequacy of Banks". Additionally, grades of Fitch Ratings International Rating Agency were used for receivables from central government and central bank of our country and counter parties abroad. Counter parties resident are accepted as "gradeless" and take risk weight suited for "gradeless" category in relevant risk class.

For determination of risk weight regarding items that export or issuer rating not included to purchase/sale accounts is firstly considered to export rating, and also issuer's credit rating is considered in the absence of export rating.

Exposures by risk weights:

	Risk Weights	0%	10%	20%	35%	50%	75%	100%	150%	200%	250%	1250%	Deductions from Equity

IV. EXPLANATIONS ON THE CURRENCY RISK

- a) **Whether the Bank is exposed to foreign currency risk, whether the effects of this matter are estimated, whether limits for the daily followed positions are determined by the Board of Directors:**

The Bank’s policy is to avoid carrying significant position by means of foreign currency management. Therefore, the Bank is not exposed to significant currency risks. Risks are monitored by the currency risk tables prepared based on the standard method. Besides, VAR (Value at Risk) is calculated for daily foreign exchange position and reported to the related departments. VAR based currency risk limit is also daily followed which was approved by Board of Directors.

Moreover, dealer’s positions and limits for foreign exchange transactions are determined by of the Board of Directors.

- b) **Hedge against foreign exchange debt instruments and net foreign exchange investments by hedging derivative instruments, if material:**

None.

- c) **Management policy for foreign currency risk:**

“Liquidity Gap Analysis”, “Repricing Gap Analysis” and “Structural Liquidity Gap Analysis” which takes into account historical repricing rates of foreign currency accounts, are prepared periodically in order to define liquidity and interest rate risks at US Dollar and Euro, which are mainly used by the Bank in its operations. Also, daily VAR analysis for following the currency risk and within the context of legal reporting, Foreign Currency Net General Position/Shareholders’ Equity Ratio and Foreign Currency Liquidity Position are also monitored regularly.

- d) **Current foreign exchange bid rates of the Bank for the last 5 business days prior to the financial statement date:**

	USD	EUR	AUD	DKK	SEK	CHF	CAD	NOK	GBP	SAR	100 JPY
23.12.2016	3,4990	3,6519	2,5088	0,4913	0,3791	3,4074	2,5833	0,4013	4,2845	0,9330	2,9814

**EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK
(Continued)**

VI. EXPLANATIONS ON THE POSITION RISK OF EQUITY SECURITIES

1. Equity securities position risk derived from banking books:

a. Comparison with the market value if the market value is significantly different from the fair value for balance sheet, fair and market values of equity shares:

There is no significant difference between balance sheet value, fair value and market value of investments in equity instruments.

b. The breakdown of capital requirements on the basis of related investments in equity instruments depending on the method of the calculation of capital requirement which is chosen by Bank among approaches that are allowed to be used within the Communiqué regarding Credit Risk Standard Method or the Calculation of Counterparty Credit Risk based upon Interior Rating Approaches:

The investments in equity instruments, partaking in banking accounts according to the credit risk standard method, are amounted TL 118.153 and 100% of them are risk weighted.

VII. EXPLANATIONS ON THE LIQUIDITY RISK MANAGEMENT AND LIQUIDITY COVERAGE RATIO

General principles of liquidity and financial emergency management and the related application procedures are considered in the scope of “Regulation for Liquidity Risk and Liquidity and Financial Emergency Management”.

The Bank performs “Remaining Maturity Analysis” for the observation of the maturity structure of the balance sheet, “Liquidity Gap” and “Structural Liquidity Gap Analysis” for the monitoring of the liquidity and between periods and Liquidity Stress Test for the evaluation of the Bank’s liquidity and in the worst case scenario and the loss associated with it. The renewal of deposits which constitutes the Bank’s most crucial funding resource is monitored on a daily basis. Besides, in order to compare the Bank’s level of liquidity risk with the sector, average remaining maturity balances of Bank-Sector and legal liquidity rates are monitored.

1) Liquidity Risk

a) Explanations on the Bank related to the liquidity risk management including the Bank’s risk capacity, responsibilities and structure of liquidity risk management, reporting of liquidity risk in internal banking, the strategy of liquidity risk and how to provide the communication of policies and implementations with board of directors and business lines:

The Bank’s risk capacity, risk appetite, responsibilities and tasks of liquidity risk management and share issues of points related liquidity risk management with bank network are explained in “Regulations of Risk Management, Stress Test Program and İsedes Regulations” of the Bank. In this context, liquidity risk strategies and policies are published in periodically on weeks, months and years with all of the departments and the board directors of the Bank. Moreover, analyses done and reports are handled in the Assets-Liability Commission Conferences, Board of Director is informed by Audit Commission.

**EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK
(Continued)**

**VII. EXPLANATIONS ON THE LIQUIDITY RISK MANAGEMENT AND LIQUIDITY COVERAGE RATIO
(Continued)**

b) Liquidity management and the degree of centralization of fund strategies, the information about the procedure between bank and the partners of bank:

Continuously the information exchange is actualized about the liquidity need and surpluses between the Bank and its partners, the compulsory directions and treats are moderated by Treasury Management and International Banking Assistant General Management to direct liquidity risk and surpluses in effective way.

c) Explanation related to policies regarding fund resources times variations of funding strategy of bank:

The Bank’s fundamental funding resources are deposits, the strategy of preserving the common base structure of deposits are sustained. Moreover, within the diversification strategy of resources structure, long-term and appropriate costed resources rate that are out of deposits are aimed to be raised. In the resources out of deposits; repurchase agreements, post finance, syndication credits, credits assured by international finance associations, exported securities, capital market transactions and credits taken by bilateral agreements are placed.

d) Explanation related to liquidity management as currencies forming at least 5 percentage of aggregate liabilities of the Bank:

The Bank’s total liabilities are consisted of mostly TL, USD and EUR currencies. Besides these currencies, valid for other currencies, daily and long-term cash flows are pursued and liquidity management is formed in effective way by some projections are being performed regarding future.

e) Information related to the techniques about the reduction of current liquidity risk:

The Bank’s source of funds is mainly formed of deposits. The Bank’s deposits do not fluctuate considerably in line with the broadly dispersed customer network. Besides, in order to increase the fund range and decrease the maturity gap between assets and liabilities, giving weight to liabilities other than deposits such as bond/bill issuance, repo and funds borrowed. As for the asset side of the Bank, within the scope of reformatting short-term cash cycle, dissonance reducing the maturity of asset and liability, the policy for shortening the average maturity on loans being pursued.

f) Explanation regarding the usage of the stress test

In the presence of unexpected negative circumstances, stress tests being done in order to test the endurance of the bank. These actions have been shared with key management and all related units for the purpose of taking necessary precautions. Additionally, stress tests also taken into consideration on subjects like the Bank’s estimated financial position for the next period, the progress of legal ratios and the liquidity need in short and long term as part of budget practices.

g) General information on liquidity urgent and unexpected situation plan:

The internal and external sources which can be used in an emergency case to satisfy the liquidity need are periodically followed and the borrowing limits of the Bank from organized market and other banks are on the level where they meet the structural liquidity deficits on different maturity segments. The Bank lines off its exposition to liquidity risk by limits that are approved from Board of Directors and within the frame of Regulation on Risk Management, Stress Test Program and the Bank’s Internal Capital Adequacy Assessment Process (“ICAAP”).

TÜRKİYE CUMHURİYETİ ZİRAAT BANKASI A.Ş.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

**EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK
(Continued)**

**VII. EXPLANATIONS ON THE LIQUIDITY RISK MANAGEMENT AND LIQUIDITY COVERAGE RATIO
(Continued)**

2) Minimum statements concerning liquidity coverage ratio by Banks

a) Important points affecting the results of liquidity coverage ratio and the changes of the considered items in the course of time to calculate this ratio:

Bank deposit, which has not a fluctuant structure, together with constituting an important part of its sources and liquidity coverage ratio, in proportion to other deposits, public deposits can cause periodic changes within total deposits. In line with the prior period, the percentage of the total deposit in financial statement follows a stable pattern of change with an increasing trend.

As well as its low turn into cash ratio, since the non-cash loans have a remarkable extent in proportion to financial statement, they have an influence on the calculation of liquidity coverage ratio. In compared with the prior periods there exists a tendency of increase on the non-cash loans.

As a guarantee for the repo transactions a portfolio of securities which includes T-Bills and government bonds is being used. The securities which have been used for the repo transactions lose their flexibility. Hence as a result of the usage method of the securities as a guarantee the liquidity coverage ratio is effected.

b) High quality liquid assets are comprised to which items:

All of the high-quality liquid assets of the calculation of Liquidity Coverage Ratio are First Quality Liquid Assets. The subject includes; cash, the accounts in Central Bank, reserve requirements and securities from the portfolio (The important part of bonds and T-bills issued by Republic of Turkey Prime Ministry Undersecretariat of Treasury, other bonds).

c) Funds are comprised of which items and their volume in all funds:

The major part of the resources of funds in the Bank is comprised of deposits, the remaining is divided according to their share in the balance sheet as repo, borrowings, and issued securities.

d) Information about cash out-flows arising from derivative operations and margin operations likely to processing:

Derivative operations in Bank are carried out on the purpose of protection from the risks that may exist or occur in the balance sheet, liquidity management, or meet customer demand. Customer operations are carried out under the “Framework Agreement on Purchase and Sale of Derivative Instruments” or ISDA (International Swaps and Derivatives Association) and CSA (Credit Support Annex) with additional, as well as operations performed by the banks is performed again ISDA and CSA contracts signed. Operations performed under the said contracts in the determined periods are subject to daily market valuation and additional collateralization as cash. Operations could create additional collateral input or output depending on market valuation.

e) The concentration limits regarding collateral and counterparty and product based fund resources:

For the counterparty and product based concentration limits are determined under “Regulations of Risk Management, Stress Test Program and the Bank’s Internal Capital Adequacy Assessment Process (ICAAP)” with the approval of Senior Management. These limits are followed in particular frequency. Besides, it has reported to the relevant units and Senior Management. There is no excess regarding the limits during operating period.

f) Liquidity risk and needed funding on the basis of the bank itself, the branches in foreign countries and the partnerships consolidated by considering operational and legal factors preventing liquidity transfer:

The needed and surplus of liquidity of the branches in foreign countries of the bank and partnerships consolidated are followed and managed regularly. There is no constraint of operational and legal factors preventing liquidity transfer. In the analysis made, it is observed that the impact of the foreign branches and subsidiaries on the Bank’s liquidity structure remain limited comparing to the size of the balance sheet. The need and surplus of the liquidity is encountered properly between partnerships, as well as the branches abroad.

VIII. EXPLANATIONS ON LEVERAGE

Explanations on the subjects caused a gap between prior and current period leverage: The Bank's leverage calculated by force of the regulation "Regulation on Measurement and Assessment of Leverage Ratios of Banks" is 8,20% (31 December 2015: 8,47%). The change on leverage results heavily from the increase on risk amounts of balance sheet assets. The regulation sentenced the minimum leverage as 3%.

Balance sheet assets	Current Period (*)	Prior Period (*)
On-balance sheet items (excluding derivative financial instruments and credit derivatives but including collateral)	346.632.324	298.737.007
(Assets deducted in determining Tier 1 capital)	(1.692.335)	(1.483.856)
Total on-balance sheet risks (sum of lines 1 and 2)	344.939.989	297.253.151
Derivative financial instruments and credit derivatives

Capital and total risks		
Tier 1 capital	36.997.585	32.261.636
Total risks	451.799.035	381.083.527
Leverage ratio		
Leverage ratio %	8,20	8,47

(*) Three month average of the amounts in the table are taken.

IX. EXPLANATIONS ON RISK MANAGEMENT

This section contains notes and explanations regarding the "Communiqué on Disclosures about Risk Management to be Announced to Public by Banks" released by the Banking Regulation and Supervision Agency (BRSA), published in the Official Gazette no. 29511 on 23 October 2015 and became effective as of 31 March 2016.

As part of its controlling activities, the Risk Management Group Presidency conducts controls on Risk Management Explanations. Two different control processes, e.g. Calculation of Capital Adequacy process and other Risk Management processes, are conducted by the relevant unit periodically in line with capital adequacy control points and guidelines as well as control points for other Risk management field of activity and guideline.

Furthermore, as part of legislation compliance controls, compliance of all activities, new transactions and products planned by the Bank with relevant laws, legislation, internal Bank policies and banking practices is controlled.

Accordingly, compliance of legislative regulations regarding Risk Management Explanations with internal Bank practices is also controlled.

Controlling activities conducted by the Head Office Units are performed in line with the control periods determined by considering functions of Units and risks they bear, job definitions of the Units and their impact on the Bank's balance sheet. Control processes by the Head Office Units are performed based on control points determined according to processes, duties and powers of unit's field of activity and control techniques are elaborated in the head office control guideline.

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

**EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK
(Continued)**

IX. EXPLANATIONS ON RISK MANAGEMENT (Continued)

1. Explanations on Risk Management and Risk Weighted Amount

a) Bank's Risk Management Approach

- i. It has to do with how the business model determines the Bank's risk profile; how it interacts with it (e.g. key risks related to the business model and how each of these risks is reflected on explanations); and how the Bank's risk profile interacts with the risk appetite approved by the board of directors**

While risk appetite determines the Bank's risk level, risk capacity determines its risk appetite and, therefore, risk profile. Local and international conjuncture is also considered to determine the risk level. Establishment of forward-looking strategies and policies is also considered in this regard. The Bank's risk level is restricted to the limits consistent with its risk appetite.

Risk limits are determined in accordance with the level of risks that may be assumed by the Bank, its activities, size and complexity of its products and services. The limits are revised and, if needed, updated regularly in line with the developments in market conditions, the Bank's strategy and risk appetite.

Critical thresholds (signal and limit values) indicating that limits are approached due to internal or external developments have been identified. In the event that these values are approached or exceeded, relevant units take required actions.

Parameters regarding signal and limit structure as well as limit values of parameters are determined in coordination with the relevant units and implemented upon approval of the Audit Commission and Board of Directors.

Signal and limit values based on risk weighted assets are monitored by the Bank's Risk Management Group Presidency regularly and actual values are reported periodically to the Bank's Top Management.

- ii. Risk management structure: Responsibilities distributed at the Bank (e.g. supervision and delegation of authority); segregation of duties by risk type, business unit, etc.; relations between structures included in risk management processes (e.g. board of directors, top management, separate risk committee, risk management unit, compliance and internal audit function)**

The Bank's Top Management and relevant units perform their risk management duties, authorities and responsibilities in line with the relevant legal legislation and internal Bank regulations.

Structure of the Bank's risk management is consistent with the Regulation on Internal Systems and Internal Capital Adequacy Assessment Processes of Banks. Accordingly, internal system units consisting of the Inspection Board Presidency, Internal Control and Compliance Group Presidency and Risk Management Group Presidency report to the Audit Committee and Board of Directors through the Vice President who is responsible for internal systems and operates separate from executive units.

Risk measurement and monitoring activities are conducted as part of risk management and the results are considered in strategic decision-making process by relevant units and bodies. Risk management operations are conducted in accordance with the Regulation on the Internal Systems and Internal Capital Adequacy Assessment Processes of Banks, issued by the BRSA, within the scope of Regulation on Risk Management, Stress Test Program and the Bank's Internal Capital Adequacy Assessment Process ("ICAAP") approved by the Bank's Board of Directors.

**CONVENIENCE TRANSLATION OF PUBLICLY ANNOUNCED

TÜRKİYE CUMHURİYETİ ZİRAAT BANKASI A.Ş.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

**EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK
(Continued)**

IX. EXPLANATIONS ON RISK MANAGEMENT (Continued)

Organizational structure of the Bank's Risk Management Group Presidency consists of credit risk management, market risk management, operational risk management and statement risks management units. Duties of risk management:

- Ensuring identification, measurement, reporting, monitoring and control of risks exposed through policies, practices and limits established to monitor, control and revise, when necessary, the risk-return structure of the Bank's cash flows in the future, quality and level of its associated activities
- Conducting stress tests and scenario analyses
- Establishing and maintaining a system that will ensure determination of capital required to cover significant risks exposed or possible risks and assessment of capital adequacy/requirement level in line with the strategic goals
- Preparing ICAAP reports periodically.

ICAAP analyses and activities are validated by a team that reports to the Audit Committee independently from the team that develops and implements the methodology of such activities. The same team issues a Validation Report as well. Analyses and activities conducted within the process, including validation activities are reviewed by the Inspection Board Presidency and a Review Report is issued for the results.

iii. Channels used for disseminating and implementing risk culture within the Bank (e.g. codes of conduct, manuals including operational limits or procedures to be performed when risk thresholds are exceeded, procedures for identifying and sharing risk issues between business units and risk units)

The Bank exercises maximum efforts to perceive both risks and returns accurately during its activities and maintain its perspective for disseminating risk culture across the Bank. Accordingly, goals, vision and strategic approaches are shared in large group meetings held by the Bank's Top Management with employees.

Signal and limit structure established based on risk weighted assets is one of the channels used to disseminate risk culture within the Bank. Parameters for signal and limit structure and limit values of parameters are determined by risk management by consulting the relevant units and approved by the Board of Directors.

It is ensured that risk signal and limit structure is forwarded to relevant units in the Bank and the structure is understood by the staff. Usage levels for signal and risk parameters are subject to reports submitted to the Top Management.

If limits are exceeded, the Bank's Top Management is notified. In such a case, matters such as risk mitigation, risk transfer or risk-averse, increasing collaterals and so on can be considered as part of required actions. If limits are exceeded, forward-looking strategies and policies of the Bank—including budget figures—can be reviewed or,, where necessary, revised.

Another channel used to disseminate the risk culture is in the scope of ICAAP activities. It is essential to include assessment results for capital adequacy in the ICAAP Report covering all significant risks of the Bank. The report is prepared in coordination with risk management and with participation from other relevant units. Similarly, the Bank's budget goals for the upcoming years are also established with the participation of relevant units. The Bank's Top Management and relevant units conduct their ICAAP duties, authorities and responsibilities in line with the Bank regulations and relevant legal legislation.

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

**EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK
(Continued)**

IX. EXPLANATIONS ON RISK MANAGEMENT (Continued)

iv. Principal elements and scope of risk measurement systems

The Bank's risk measurement system functions in line with the best practices, legal regulations, fields of activity and product ranges in a consistent, reliable and integrated way. Regarding the inclusion of risk measurement results in decision-making processes, reports are elaborated with extensive explanations and assumptions to avoid any misinterpretation that may arise from errors and deficiencies.

Required activities are performed to engage in design, selection, implementation and pre-approval processes for risk measurement models; review accuracy, reliability and performance of models regularly through various methodologies and make required revisions accordingly; and report results of analyses conducted with such models.

The Bank's capital adequacy ratio is calculated in accordance with the Communiqué on Measurement and Assessment of Capital Adequacy of Banks, Communiqué on Credit Risk Mitigation Techniques and other relevant legal regulations.

Counter parties/operations related to the credit risk are separated on the basis of risk classes mentioned in Appendix-1 of the Communiqué on Measurement and Assessment of Capital Adequacy of Banks, and each of them is assigned by the weight of risk in line with the matters specified for relevant risk class. Then, they are subject to risk mitigation in accordance with the principles of Communiqué on Credit Risk Mitigation Techniques and weighted based on the risk weights.

After deduction of specific provisions in accordance with Communiqué on Methods and Principles for the Determination of Loans and Other Receivables to be Reserved for and Allocation of Reserves, non-cash loans and commitments are included in the calculation of credit-risk-weighted amount with loan conversion rates presented in article 5 of Communiqué on Measurement and Assessment of Capital Adequacy of Banks.

Trading accounts and the values deducted from the capital base in the shareholders' equity computation are excluded from calculation of credit risk-weighted assets.

Calculations regarding to the counter party credit risk are made for repurchase agreement and derivative transactions. These transactions are added to the calculations after applying the rates presented in the amendments of the Communiqué on Measurement and Assessment of Capital Adequacy of Banks and Communiqué on Credit Risk Mitigation Techniques.

Calculations regarding counter parties credit risks are made with the basic financial collateral method and extensive collateral method for banking accounts and trading accounts respectively.

The amount subject to the total market risk is calculated through the standard method. Furthermore, value at risk forecasts are made on a daily basis and backward testing is performed so as to measure performance of the model.

Liquidity Coverage Ratio and Liquidity Risk Analysis reports for the liquidity risk are prepared in accordance with the relevant regulations. Furthermore, stress test is performed to assess maturity mismatch between sources and uses, contractual maturities as well as behavioral maturities of assets and liabilities, the Bank's liquidity requirement in a worst case scenario and relevant damages that may be incurred based on scenario and sensitivity analysis activities.

Control of interest rate risk on banking accounts entails monitoring rate and maturity mismatch between sources and uses of fixed and variable interest rates, contractual maturities as well as behavioral maturities assets and liabilities and the effects of the usual and unusual changes in interest rates which is possibly uptrend and downtrend.

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

**EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK
(Continued)**

IX. EXPLANATIONS ON RISK MANAGEMENT (Continued)

v. Explanations provided to the board of directors and top management on risk reporting processes, particularly scope and main contents of reporting

It is essential to inform the Top Management about developments and results of the analysis and activities conducted in order to achieve efficiency in risk management. Accordingly, a reporting system for informing Top Management is established and required measures are taken for healthy functioning of the system.

Informing process as part of reporting should be based on the most current data available on a periodical basis. Reports issued contain, at minimum, information on risk amount and development, legal capital requirement, legal ratios for liquidity and interest rate risks, stress test analysis results, effect of such results on capital adequacy level and ratios, realization level of risk limits and limitations, and assumptions of risk measurement method used.

As part of the reporting system, an information systems infrastructure is established for external reporting and required actions are taken to fulfill legal obligations fully in a timely manner in this regard.

vi. Explanations on stress test (e.g. assets subject to stress test, scenarios applied, methodologies used and the use of stress test in risk management)

Stress test is intended to pre-assess the effect of negative developments in specified risk factors on amounts subject to risk and capital adequacy/requirement level.

Conducting the stress test periodically is essential, and test result must be included in internal reporting and considered in strategic decision-making process or capital management. Results of stress test analysis are considered while establishing risk management policies.

In stress test activities, shock is applied to risk factors determined (factors specific to debtor or transaction or macroeconomic variables such as exchange rate, price, interest and so on), and the effects of results on risk-weighted asset amount and capital adequacy ratio are identified. Accordingly, risk factors are identified first and then assumptions to be implemented are determined and possible losses in the future are estimated. Stress test activities include creating scenarios, which are unlikely, if not impossible, and which may affect the Bank's risk level significantly.

The results of stress test are subject to internal Bank reporting and ICAAP Report. The results of stress test may be used in processes to determine the Bank's risk appetite or risk limits and identify new and current business strategies as a planning instrument and their effect on capital utilization.

Analyses of credit risk based on internal and external risk factors, counter party credit risk, liquidity risk, interest rate risk and market risk are conducted in the case of stress tests which are subject to internal reporting.

The Board of Directors is responsible for assessing the results of the Stress Test Program and taking actions based on the results. Accordingly, actions such as revision of risk appetite, strategy and risk limits or restriction of activities to specific sectors or portfolios can be taken.

The Bank performs risk mitigation with a simple financial method. Credibilities of guarantors are monitored and assessed in the scope of credit revision maturity.

(Continued)**

IX. EXPLANATIONS ON RISK MANAGEMENT (Continued)

vii. The Bank's risk management, aversion and mitigation strategies and processes based on business model and monitoring processes for continuous efficiency of safeguards and mitigants

Amounts subject to credit risk can be mitigated by using one or more risk mitigation techniques in line with the legal regulations.

Funded or unfunded credit safeguard instruments are considered while using the risk mitigation technique. Whether credit safeguard instruments meet minimum compulsory conditions specified in legal regulations is checked via the system.

All Bank employees are responsible for control and mitigation of operational risks based on their job definitions and business processes. All Bank units are obliged to take risk mitigation measures for mitigation of operational risks that may occur in their respective fields of activity through insurance and other risk transfer mechanisms.

The Bank's market risk is mitigated through derivatives or other financial products by considering current conjuncture and risk appetite, risk capacity and risk level. Long term liabilities are obtained and the interest rate risk arising from liquidity and banking accounts is limited through the transactions performed.

Diversification of resources is deemed important for managing the liquidity risk that may occur. While the Bank's fundamental funding resources are deposits, the strategy of preserving the common base structure of deposits is sustained. Besides, liabilities other than deposits such as bond/bill issuance, repo and credits are deemed important for increasing the fund range and decreasing the maturity gap between assets and liabilities. As for the asset side of the Bank, policies intended to reduce average credit maturity are pursued as part of measures to improve short term cash cycle and minimize maturity mismatch between assets and liabilities. As part of management of interest rate risk, measures are taken to reduce repricing maturity mismatch of interest sensitive assets and liabilities.

c) Explanations on differences between risk amounts and valued amounts in accordance with the Turkish Accounting Standards

There is no significant difference between financial statement values of assets and liabilities and values included in capital adequacy calculation.

2. Credit Risk Explanations

1) General explanations on credit risk

a) General qualitative information on credit risk

i. Transformation of bank's business model into components in credit risk profile

The banks must allocate risk limits approved by board of directors of the banks and monitor limit utilization pursuant to Article 38 of the Regulation on the Internal Systems and Internal Capital Adequacy Assessment Processes of Banks issued by the BRSA and published in the Official Gazette no. 29057 dated 11 July 2014. Furthermore, pursuant to paragraph 5 of the same article, it is expected to establish a signal structure that will serve as an early warning mechanism in addition to the limit structure.

Additionally, principle 5 of the Guideline for Counter Party Credit Risk Management announced to the public by the BRSA with the Agency Decision no. 6827 dated 31 March 2016 states that banks must allocate a limit for counter party credit risk (CCR).

Pursuant to aforementioned regulations, to what extent the Bank gets closer to allocated limits approved by the board of directors or to what extent these levels were exceeded must be monitored by the risk management unit which was structured independent from executive units. This practice that was included in monitoring function of the risk management unit is significant as it presents a legal obligation and it helps optimization of resource utilization.

As part of the variation in customer segmentation due to changing organizational structure of the Bank, credit risk signal and limit parameters were determined on the basis of corporate, entrepreneur and personal segment in line with the customer segment structure and they are updated according to the changes in the segmentation structure. Signal and limit values for counter party credit risk transactions were determined separately for banking accounts and trading accounts based on portfolio type. Calculations were made based on ratio of risk weighted asset amounts calculated for relevant parameters to total credit and market risk weighted asset amounts and they are reported to the Bank's Top Management periodically through relevant units.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

**EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK
(Continued)**

IX. EXPLANATIONS ON RISK MANAGEMENT (Continued)

In an attempt to prevent significant effects of unfavorable developments in the portfolio subject to market risk, it is essential to restrict risk level to the limits in line with the Bank's risk appetite. Market risk limits were determined as interest rate risk and currency risk limits. Current values for such limits are calculated on a daily basis with market data and reported to the Bank's Top Management through relevant units. Market risk signal and limit values are monitored dynamically in the light of market developments and, if necessary, updated based on the developments in the Bank's strategy and risk appetite.

ii. Criteria and approach adopted for determining credit risk policy and credit risk limits

As part of credit risk management, the Bank's risk management team conducts the functions of identification, measurement, monitoring and controlling of credit risk in line with the structure, size, complexity and growth rate of products and activities and reports the analysis, including stress test, and its results to the Bank's Top Management.

In an attempt to prevent significant effects of unfavorable developments in the portfolio subject to credit risk, credit risk level was restricted to the limits in line with the Bank's risk appetite. The limits are revised and, if needed, updated regularly in line with the developments in market conditions, the Bank's strategy and risk appetite.

There is a signal and limit structure in place, indicating that credit risk limits are almost reached as a result of internal and external developments. Parameters for signal and limit structure and limit values of parameters are determined by risk management by consulting the relevant units. The approval of Audit Committee and Board of Directors is sought in order to implement parameters and signal/limit threshold values within the Bank. It is ensured that risk signal and limit structure is forwarded to relevant units in the Bank and the structure is understood by the relevant staff. Actual values are monitored closely by the risk management. Actual values regarding signal and limit parameters are reported to the Bank's Top Management.

iii. Structure and organization of credit risk management and control function

The Bank's internal system units consist of the Inspection Board Presidency, Internal Control and Compliance Presidency and Risk Management Group Presidency. Credit risk management is one of the four services under the Risk Management Group Presidency.

Activities conducted at the credit risk management unit, which is subject to inspection and controlling activities periodically, aim to establish and maintain a credit risk management infrastructure that is structured enough to meet legal obligations and flexible enough to accommodate the best practices. Accordingly, capital amount that should be reserved for credit risk is calculated; risk mitigation techniques are implemented; stress tests are conducted; credit risk signal and limit structures are monitored; activities are conducted to calculate credit risk with advanced methods and developments that may affect the Bank's credit risk are monitored. Analyses conducted are reported to the Top Management and relevant units periodically.

iv. Relationship between credit risk management, risk control, legal compliance and internal audit functions

Risk Management Group Presidency goes through inspection and control activities periodically. In case of any findings, they are reported and required activities are performed.

Furthermore, inspection and control units involve in the process also for the ICAAP activities that constitute a significant part of risk management activities. Accordingly, ICAAP analyses and activities are validated by Internal Control and Compliance Group Presidency that reports to the Audit Commission independent from the team that develops and implements the methodology of the ICAAP analyses. The same team issues a Validation Report as well. The entire ICAAP process is subject to an inspection by the Inspection Board Presidency and reported through Examination Report issued.

(Continued)**

IX. EXPLANATIONS ON RISK MANAGEMENT (Continued)

v. Scope and main content for reporting to top management and board members on credit risk management function and credit risk exposed

It is essential to inform the Bank's Top Management about developments in credit risk management and results of the analysis and activities conducted in order to achieve efficiency in risk management. Accordingly, a reporting system for informing the Bank's Top Management on credit risk management is established and required measures are taken for healthy functioning of the system.

Informing process as part of reporting should be based on the most current data available on a periodical basis.

Reports issued contain, at a minimum, information on risk amount and development, legal capital requirement, stress test analysis results, effect of such results on capital adequacy level, actualization level of risk limits and limitations and assumptions of risk measurement method used.

b) Credit Quality of Assets

	Defaulted	Non-defaulted	Allowances/amortisation and impairments	Net values
Loans	4.217.097	232.392.086	3.965.648	232.643.535
Debt Securities	-	71.096.788	2.030.580	69.066.208
Off-balance sheet exposures	-	102.668.757	150.916	102.517.841
Total	4.217.097	406.157.631	6.147.144	404.227.584

c) Changes in the Defaulted Receivables and Debt Instruments

1	Defaulted loans and debt securities at end of the previous reporting period	3.140.524
2	Loans and debt securities that have defaulted since the last reporting period	2.383.943
3	Returned to non-defaulted status	245.111
4	Amounts written off	-
5	Other changes	(1.552.481)
6	Defaulted loans and debt securities at end of the reporting period (1+2-3-4±5) definitions	4.217.097

d) Additional explanations on credit quality of assets

i. Differences between definitions and explanations of "deferred" receivables and receivables for which "provision was allocated", and definitions of "deferred" and "provision of allocation", if any

The Bank classifies its credits and other receivables and allocates specific and general provisions pursuant to the "Communiqué on Methods and Principles for Determining the Nature of Loans and Other Receivables and Allocation of Provisions" published in the Official Gazette no. 26333 dated 1 November 2006. The term "Deferred Receivables" is used for credits named "Loans under Close Monitoring" whose maturity is deferred for up to 90 days as of the end of period without any impairments as well as for credits named "Non-Performing Loans" whose maturity is deferred for more than 90 days or subject to impairment. In practice, the Bank sets general provisions for credits classified as "Standard Credits" and "Under Close Monitoring" and specific provisions for credits classified as "Non-Performing Loans".

ii. The portion that is not considered within the scope of "allocation of provision" among deferred receivables (over 90 days) and reasons for this practice

The Bank transfers credits whose maturity is deferred for more than 90 days automatically to monitoring accounts pursuant to the classification provisions of Regulation on Provisions, and allocates provision of respective class; whereas it does not allocate specific or general provisions for fund-based credits classified as "Non-Performing Loans" pursuant to Article 13 "Exceptions" of the Regulation on Provisions as the relevant risk is not assumed by the Bank.

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

**EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK
(Continued)**

IX. EXPLANATIONS ON RISK MANAGEMENT (Continued)

iii. Definitions of methods used for determining provision amount

Pursuant to provisions of the Regulation on Provisions, the Bank allocates a General Provision of at least one percent (1%) of total standard cash loans and at least two percent (2%) of total cash loans under close monitoring (deferred for less than 90 days) and it calculates general provision by applying general provision rates applicable to cash loans (e.g. 1% for standard loans and 2% for loans under close monitoring) over risk amount calculated pursuant to the provisions of "Communiqué on Measurement and Assessment of Capital Adequacy of Banks" for non-cash loans, commitments and derivative financial instruments. While it is determined in the Regulation on Provisions that specific provision of at least 20%, 50% and 100% must be allocated for loans in groups 3, 4 and 5, respectively, which are classified as non-performing loans (deferred for more than 90 days), a specific provision of 100% is allocated for all loans under follow-up groups of receivables, regardless of their collaterals, pursuant to the precautionary principle.

iv. Definitions of restructured receivables

Real/legal persons using credit may, from time to time, face usual risks of business life such as failure to include the excessive cost increases in sales prices, loss of market share and turnover, unexpected expenses, problems in collection of receivables due to some factors that are beyond reasonable control of its own businesses or other businesses worked with. They may therefore have temporary liquidity difficulties. It involves setting new loan repayment maturities in line with cash flows for businesses which have no significant problem in credit worthiness and sustain their income-generating activities but fail, or priorly imply failure, to make their loan repayment in a timely manner due to temporary liquidity problems.

v. Breakdown of receivables by geographic regions, sectors and remaining maturity; receivable amounts subject to allocation of provision by geographic regions and sectors and their respective provisions; amounts removed from the assets

	Loans and Receivables	Loans Under Follow-Up	Specific Provisions	Total

b) Credit risk mitigation techniques - Overview

	Unsecured receivables: Amount assessed pursuant to TAS	Receivables secured by guarantee	Collateralized portions of collateralized receivables	Receivables protected by financial guarantees	Collateralized portions of receivables protected by financial guarantees	Receivables protected by credit derivatives	Collateralized portions of receivables protected by credit derivatives
Loans	224.806.421	6.943.684	1.220.992	893.430	610.373	-	-
Debt Securities	69.066.208	-	-	-	-	-	-
Total	293.872.629	6.943.684	1.220.992	893.430	610.373	-	-
Of which defaulted	4.217.097	-	-	-	-	-	-

3) Credit risk if standard approach is used

a) Qualitative explanations on ratings used by the banks while calculating credit risk with standard approach

i. Names of Credit Rating Agencies (CRA) and Export Rating Agencies (ERA) used by the Bank and the reasons in case of any change during the reporting period

The Bank uses ratings of Fitch Ratings International Rating Agency while calculating the amount subject to credit risk through standard approach.

ii. Risk classes using CRA and ERA ratings

Grades of Fitch Ratings International Rating Agency are used for receivables from central government and central bank of our country as well as for foreign-based counter parties. Resident counter parties are accepted as "gradeless" and take risk weight appropriate for "gradeless" category in relevant risk class.

Rating grades are used in risk classes of Receivables from Central Governments or Central Banks and Receivables from Banks and Brokerage Houses.

iii. Explanation on how credit rating of debtor is used for other assets of debtor in banking accounts

For determination of risk weight regarding items included in banking accounts which are subject to issue or issuer rating, issue rating is considered first, and issuer's credit rating is considered in the absence of issue rating.

While the rating assigned by Fitch Ratings International Rating Agency corresponds to credit quality level 3 in the risk class "Receivables from Central Governments or Central Banks", ratings used for the risk class "Receivables from Banks and Brokerage Houses" match with different credit quality levels.

iv. Matching rating grades on the basis of risk

Rating grade assigned by a credit rating agency that is not listed in the BRSA's matching table is not used in calculations.

TÜRKİYE CUMHURİYETİ ZİRAAT BANKASI A.Ş.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

**EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK
(Continued)**

IX. EXPLANATIONS ON RISK MANAGEMENT (Continued)

4) Credit risk under Internal Ratings-Based (IRB) Approach

Standard approach is used in the Bank's credit risk calculations.

3. Counter Party Credit Risk Explanations

a) Qualitative explanations on counter party credit risk

i. Risk management goals and policies for CCR

As part of the Bank's counter party credit risk management, the functions of identification, measurement, monitoring and controlling of counter party credit risk are conducted in line with the structure, size, complexity and growth rate of products and activities, and the analysis, including stress test, and its results are reported to the Top Management.

As part of capital adequacy ratio calculations, activities for counter party credit risk are an integral part of planning, monitoring and controlling of total risk profile, and counter party credit risk management is integrated to periodic risk management process.

In the scope of counter party risk management, it is aimed to meet legal obligations and to establish and maintain counter party credit risk management infrastructure that is flexible and structured enough to accommodate the best practices. Accordingly, it is planned to conduct stress test activities, improve counter party credit risk signal and limit structure and conduct relevant monitoring function.

ii. Operational limit allocation method specified in the scope of internal capital calculated for CCR and CCP risks

Critical thresholds (signal and limit values) indicating that limits are approached due to internal or external developments have been identified. In the event that these values are approached or exceeded, relevant units take required actions.

Parameters for signal and limit structure and limit values of parameters are determined by consulting the relevant units and implemented at the Bank upon approval of the Audit Committee and Board of Directors.

Internal limits are determined by considering the Bank's budget, strategy and expectations for upcoming years, developments in Turkey and abroad and historical realization of risks.

iii. Policies for establishing guarantee and other risk mitigation and CCR, including CCP risk

In an attempt to identify the counter party credit risk that the Bank may face, risk measurement and monitoring activities are performed and their results are considered in strategic decision-making process.

Our risk management structure involves activities to ensure that counter party credit risk measurement system functions and is maintained in line with the best practices, legal regulations, fields of activity and product ranges in a consistent, reliable and integrated way.

As part of counter party credit risk management, stress test scenarios were created by anticipating any unfavorable developments in macroeconomic conditions and the Bank's balance sheet. Results of stress test analysis are considered while establishing risk management policies.

Amount subject to counter party credit risk is calculated with appraisal method based on its fair value in accordance with the Communiqué on Measurement and Assessment of Capital Adequacy of Banks and provisions in Appendix-2, and reported on a monthly basis. Accordingly, replacement cost and potential counter party credit risk amounts are calculated. Furthermore, capital obligation is also calculated for credit appraisal adjustment for all derivatives.

Additionally, compliance of transactions posing counter party credit risk with thresholds within signal and limit structure is monitored and research is conducted for counter party credit risk calculations with advanced methods.

IX. EXPLANATIONS ON RISK MANAGEMENT (Continued)

iv. Rules for countertrend risk

Boasting a strong lending and collateralization structure, the Bank avoids collateralization in positive correlation with the debtor's credibility and activities in connection with risk mitigation techniques are performed by considering qualitative criteria specified in legal legislation for calculation of amount subject to credit risk.

v. Amount of additional collateral that the Bank must submit in case of a decline in credit rating

As the Bank has no transactions in connection with credit rating, there is not any additional collateral amount it must pay.

b) Evaluation of counterparty credit risk in accordance with the measurement methods

5. Explanations on Market Risk

a) Qualitative information to be disclosed to public on market risk

i. The Bank's process and strategies: A disclosure on the Bank's strategic goals for trading activities is made in a manner that includes processes for identification, measurement, monitoring and controlling of the Bank's market risks, hedging processes and strategies/processes for monitoring continuity of hedging efficiency

For the purposes of market risk aversion in line with financial risk management, the Bank has identified market risk management activities in accordance with the Communiqué on Measurement and Assessment of Capital Adequacy of Banks and the Regulation on the Internal Systems and Internal Capital Adequacy Assessment Processes of Banks and has taken required precautions.

The Bank's market risk management policies and implementation procedures have been specified in the scope of the Regulation on Risk Management, Stress Test Program and ICAAP approved by the Board of Directors.

The Bank ensures that measurement, monitoring, limiting, stress test and scenario analysis activities are conducted in line with the structure and complexity of its positions for market risk management and their results are reported periodically.

TÜRKİYE CUMHURİYETİ ZİRAAT BANKASI A.Ş.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

**EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK
(Continued)**

IX. EXPLANATIONS ON RISK MANAGEMENT (Continued)

Activities sustained are conducted over a trading portfolio specified by the Bank's Treasury Management and other activities subject to market risk.

The amount subject to market risk is calculated and monitored with standard method and advanced measurement method at the Bank. Furthermore, scenario analysis and stress tests are also conducted periodically.

ii. Organization and structure of market risk management function: Definition of market risk management structure established for implementation of the Bank's strategies and processes as mentioned in line i) and definition of communication mechanism and relationship between different parties involved in market risk management

Market risk management is a subunit of Risk Management Group Presidency, one of internal systems units established independently from executive units of the Bank.

Market risk management activities are conducted in line with the Regulation on Risk Management, Stress Test Program and ICAAP approved with the Board Decision no. 15/18 dated 28 April 2015 and performed by aiming the best practices in this structure.

The Bank's trading activities and transactions subject to market risk are monitored and measured regularly and required practices are performed for risk management. Required reports on market risk are submitted to relevant units and the Bank's Top Management regularly.

iii. Structure and scope of risk reporting and/or measurement systems

The amount subject to the Bank's market risk is calculated on a monthly basis with the standard method and included in the Bank's capital adequacy ratio.

Apart from the standard method, Value at Risk (VaR) estimations are made for trading accounts on a daily basis and reported to relevant units. VaR calculated with Historical Simulation Method is used in daily reporting and limit measurement with a confidence level of 99%. VaR can be calculated with Parametric and Monte Carlo Methods in addition to Historical Simulation Method. Backward testing is performed so as to measure performance of used model and monitor market realization. Also, the Bank performs stress tests and scenario analyses on a daily and monthly basis so as to observe the effect of excessive market fluctuations that are not covered in the models on the Bank's financial position. Scenario analysis and stress test activities are reviewed and improved regularly in line with the market dynamics.

The market risk exposure is restricted with VaR-based limits (interest rate and currency risk limit) within the context of the Regulation on Risk Management, Stress Test Program and ICAAP. Market risk limits are determined by the Bank's Board of Directors.

b) Standard approach

		RWA

**EXPLANATIONS RELATED TO THE FINANCIAL POSITION AND RISK MANAGEMENT OF THE BANK
(Continued)**

IX. EXPLANATIONS ON RISK MANAGEMENT (Continued)

Standart method is being used by the Bank to calculate the risk of the sector.

7. Explanations on the Operational Risk

In the Bank, Amount subject to Operational Risk is calculated with Basic Indicator Approach based on yearly. The parameter which determines the amount subject to operational risk in Basic Indicator Approach is gross revenue. Yearly gross revenue is calculated by adding net interest incomes to net fees and commission income, dividend income obtained from shares excluding shares of subsidiaries and associates, trading profit/loss (net) and other operating incomes and also by deducting profit/loss gained from sale of assets monitored out of purchase-sale account, extraordinary incomes, operating expense made against support service and amounts compensated from insurance.

Within the scope of the performances for modeling with the Advanced Measurement Approach of operational risk, based on the data in Operational Risk Loss database, Operational Value at Risk (OpVAR) measurements are calculated using Monte Carlo Simulation within the scope of Loss Distribution Method.

	31.12.2013	31.12.2014	31.12.2015	Total/PositiveYear	Rate (%)	Total
Gross Income	8.638.823	9.806.263	11.937.403	10.127.496	15	1.519.124
Amount Subject to Operational Risk						18.989.055

8. Explanations on the Interest Rate Risk for Banking Accounts

Banking accounts interest rate risk management strategy policy and implementation procedures are determined within the context of “Regulation on Risk Management, Stress Test Program and the Bank’s Internal Capital Adequacy Assessment Process (“ICAAP”)”.

Bank performs scenario analysis with measurements that are suitable for structure and complexness of positions related to the market risk management, limiting, scenario analysis and stress test and also reports the findings cyclically. Bank’s perform analysis related to interest rate risks for the entire balance sheet. New products and services are also evaluated from the point of interest rate risk that is originated from banking accounts.

In the risk management, the following methods are followed at minimum level: The follow-up of rate and maturity mismatch between sources and uses of fixed and variable interest rates, the analysis and follow-up of the effects of the usual and unusual changes in interest rates which is possibly uptrend and downtrend on the interest margin and on the current value of assets and liabilities, the analysis and follow-up of contractual maturities as well as behavioral maturities assets and liabilities, monitoring closely of interest margins for provided Turkish Liras and foreign currency, the follow-up of the effects of interest rate changes on Bank’s economic value and capital requirement, the follow-up of potential impacts of valuation methods, the calculation and the determination of the size of interest rate shock in Bank’s internal applications, the follow-up of yield curve, basis risk and option risk. Also, in order to limit the impact of interest rate changes on Bank’s financial structure, the interest rate risk limit arising from banking accounts which is approved by the Board of Directors is followed monthly.

Type of Currency	Shock Applied (+/- x basis point)	Gains/ (Losses)	Gains/Equity- (Losses)/Equity
1. TL	500	(5.973.447)	(14,55%)
2. TL	(400)	5.897.170	14,36%
3. EUR	200	100.055	0,24%
4. EUR	(200)	(65.175)	(0,16%)
5. USD	200	(1.075.912)	(2,62%)
6. USD	(200)	1.337.975	3,26%
Total (of negative shocks)		7.169.970	17,46%
Total (of positive shocks)		(6.949.304)	(16,92%)

X. EXPLANATIONS ON OPERATIONAL SEGMENTS

Organizational and internal reporting structure of the Bank is determined in line with TFRS 8 “Turkish Accounting Standard about Operating Segments”.

The Bank is operating in consumer banking, corporate and entrepreneurial banking, specialized banking, investment banking and international banking areas.

Known as having the most extensive branch network in retail (consumer) banking sector, the Bank renders services, such as; deposits, consumer loans, loans originated from funds whose risk does not belong to the Bank, credit cards, automatic payment, cheques and notes, money transfer order, foreign exchange transactions, internet banking, mobile banking, safe-deposit box and insurance brokerage services. Moreover, existing instruments are improved and new banking instruments are created in order to benefit from services undertaken as being a state bank in increasing the profitability of the Bank. By “Finart” system, which is working in a centralized manner, the Bank has the technical infrastructure required by modern banking sector to meet its clients’ needs.

In the context of corporate and entrepreneurial banking, the Bank gives loans for operations, mid-term and long-term investment loans, foreign trade financing loans, letter of credits and guarantees in Turkish Lira and foreign currencies; renders project financing, other corporate finance related services, foreign exchange transactions and banking services to large-scale corporate clients and middle-small scale enterprises.

As the Bank is the main financial institution that meets the financing needs of agricultural sector in Turkey, it extends agricultural operations and investment loans from its own sources for vegetable and animal production, fishery products and agricultural mechanization directly to producers and The Central Union of Turkish Agricultural Credit Cooperatives. Besides, it gives support to entities and enterprises having operations in agricultural sector by acting as an intermediary for loans originated from funds.

Treasury transactions and international banking activities; national and international organisation, over-the-counter money, spot and forward Turkish Lira, foreign currency, precious metal, securities, trading of derivative instruments are executed by Treasury Management and International Banking Assistant General Management. Furthermore, bank’s liquidity, securities, deposits and non-deposit equity management activities are carried out.

Besides, studies are being conducted to present and market treasury products to our customers in our branches and distribution channels and finance of companies’ foreign trade transactions. By the authority of the Service Unit, for the trade of the securities, the mercantile agent of Ziraat Yatırım Menkul Değerler A.Ş. undertaken an intermediary role for the public offering of securities and also an intermediary role for the trade of the investment funds managed by Ziraat Portföy Yönetimi A.Ş. and the other asset management firms. The recognition, storage of the mentioned financial derivatives and individual portfolio management services are provided by the discussed subdivision of the Bank. On the other hand, to provide long term financing for the banks and the international finance organizations and diversify the methods of financing on this direction to issue domestic and foreign T-bills and government bonds and as well as to sustain corresponding bank relations and the relation of our Bank with the international investors is on the objectives of the Service Unit.

Besides, the Bank has commission revenue from insurance and other finance institutions by rendering agency services through its branches.

As of 31 December 2016 explanations on segment reporting as shown on the following page are in line with Communiqué on “Financial Statements to be Publicly Announced and the Accompanying Policies and Disclosures”.

XI. EXPLANATIONS ON THE FAIR VALUE REALIZATION OF FINANCIAL ASSETS AND LIABILITIES

a) Information regarding the fair value of financial assets and liabilities:

	Book Value		Fair Value	
	Current Period	Prior Period	Current Period	Prior Period
Financial Assets	303.926.626	255.186.093	304.338.015	255.742.675
Due from Interbank Money Market	-	-	-	-
Banks	3.901.674	4.446.792	3.901.674	4.446.792
Available-for-sale Financial Assets	58.631.953	53.782.308	58.631.953	53.782.308
Held-to-maturity Investments	8.749.464	10.144.142	9.160.853	10.700.724
Loans	232.643.535	186.812.851	232.643.535	186.812.851
Financial Liabilities	255.149.392	213.619.872	255.149.392	213.619.872
Bank Deposits	12.059.950	9.727.301	12.059.950	9.727.301
Other Deposits	210.958.984	176.742.134	210.958.984	176.742.134
Funds Borrowed from Other Financial Institutions	22.816.736	19.542.648	22.816.736	19.542.648
Issued Marketable Securities	6.833.001	5.287.606	6.833.001	5.287.606
Miscellaneous Payables	2.480.721	2.320.183	2.480.721	2.320.183

Receivables from money markets, receivables from banks and bank deposits are of short term nature, therefore carrying values are considered as fair value.

In determination of book and fair value of available-for-sale securities, market prices are taken into consideration. If these securities are not traded in an active market, the indicator prices calculated by CBRT are taken into account.

The fair value of held to maturity financial assets is calculated by considering market prices. In cases where these prices cannot be determined, the fair value is assessed on the basis of market prices quoted for securities that have the same attributes in terms of interest, maturity and other terms.

The fair value of loans and other deposits represent the sum of the cost and the accrued interest.

b) Information on fair value measurements recognized in the financial statements:

According to TFRS 7 “Financial Instruments: Explanations” Standard, the accounts recognized with the fair value in the balance sheet should be presented and classified sequentially in the related footnotes. Respectively, such financial instruments are classified in three levels representing the importance of the data used during for the measurement of fair values. At level one, the financial instruments whose fair values are determined with the recorded prices in the active markets for the assets and liabilities with identical fair values; at level two, the financial instruments whose fair value is based on the directly or indirectly observable market indicators and at level three; the financial instruments whose fair value is not based on the directly or indirectly observable market indicators are considered. The financial instruments which are recognized with their fair values at the Bank’s balance sheet, are presented with respect to such basis of classification in the table below:

SECTION FIVE

EXPLANATIONS AND NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS

I. EXPLANATIONS AND NOTES RELATED TO ASSETS

1. a) Information on Cash and Balances with Central Bank of the Republic of Turkey:

	Current Period		Prior Period	
	TL	FC	TL	FC
Cash in TL/Foreign Currency	1.720.392	925.443	1.718.357	705.176
Central Bank of the Republic of Turkey	5.817.157	30.694.784	2.354.591	31.753.858
Other	3.775	5.546	-	3.981
Total	7.541.324	31.625.773	4.072.948	32.463.015

1.a.1) Information on Required Reserves:

Banks that are established in Turkey or performing their operations by opening new branches in Turkey are subject to Communiqué on Required Reserves of Central Bank of the Republic of Turkey's numbered 2013/15. Based on accounting standards and registration layout for banks and companies, the items specified within the Communiqué, except from liabilities to Central Bank, Treasury, Domestic banks, and head offices and branches in Turkey of the banks established by international agreements, constitute required reserves liabilities.

As of the balance sheet date, according to CBRT's Communiqué about Required Reserves No. 2016/4, the required reserves ratios for commercial banks operating in Turkey are as follows: for demand deposits, notice deposits and for deposits up to 1-month maturity, and for deposits up to 3-months maturity 10,5%; for deposits up to 6-months maturity 7,5%; for deposits up to 1-year maturity 5,5%; for deposits 1-year and longer maturity 4%; for TL liabilities other than deposits up to 1-year maturity 10,5%; for TL liabilities other than deposits between 1- and 3-years maturity 7%; for TL liabilities other than deposits more than 3-years maturity 4%; according to CBRT's Communiqué about Required Reserves No. 2016/10 for FC deposit accounts, demand deposits, up to 1-month, up to 3-months, up to 6-months and up to 1-year maturity 12,5%; for FC deposit accounts with 1-year and longer maturity 8,5%, for FC liabilities other than deposits up to 1-year maturity 24,5%; for FC liabilities other than deposits up to 2-years maturity 19,5%; for FC liabilities other than deposits up to 3-years maturity 14,5%; for FC liabilities other than deposits up to 5-years maturity 6,5%; and for FC liabilities other than deposits more than 5-years maturity 4,5%.

According to the press release of CBRT held on 21 October 2014, interest payment for Turkish Lira reserve requirement has been commenced from the November 2014 maintenance period. In addition, according to Press Release of CBRT on Remuneration of Foreign Currency Required and Free Reserves numbered 2015/35, the implementation of remuneration for US dollars denominated required reserves, reserve options and free reserves held at CBRT has been started as of 5 May 2015.

i) Information on liquidating policy of uncollectible loans and other receivables:

Execution proceedings are carried out for the collection of receivables from loan services of the Bank's. During this process, tangible guarantees constituting guarantees of receivables of the Bank and assets of the debtor(s) are realized while receivables of the Bank are also tried to be collected and liquidated by means of administrative procedures. Transactions are performed within the context of legislation agreement, which ensures the collection of receivables through administrative channels, and authorizations transferred to the Branch/Regional Management. When the debtor offers exceed authorizations transferred to the Branch/Regional Management or includes matters outside the scope of current legislation agreements and the Branch/Regional Management submit favorable opinion to the Head Office regarding this issue, receivables should be restructured on a company/debtor basis in accordance with the decisions made by the related authorities.

j) Explanations on write-off policy:

The Bank writes off the receivables from its records with the actualized circumstances of deaths of the debtor and/or the related people, refusals of the heritage by the heritors within the legal time limits, becoming legally and effectively impossible of the collection of the receivable, and the given financial accountability decision on the related personnel of the considered receivable.

Total	8.749.464	10.144.142

d) Movements of held-to-maturity investments:

	Current Period	Prior Period
Beginning Balance	10.144.142	10.021.056
Foreign Currency Differences on Monetary Assets	466.322	1.059.935
Purchases During the Year	937.047	148.236
Disposals through Sales and Redemptions	(2.798.047)	(1.085.085)
Provision for Impairment (-)	-	-
Period End Balance	8.749.464	10.144.142

Within the year 2008, the Bank has reclassified securities previously classified in available for sale portfolio with nominal values of TL 23.630.115, EUR 717.616 thousand and USD 1.483.317 thousand to held-to-maturity portfolio with fair values of TL 22.971.669, EUR 702.950 thousand and USD 1.562.742 thousand respectively which have been taken into consideration as book values after reclassification. The Bank has also reclassified securities previously classified in financial assets at fair value through profit and loss portfolio with nominal values of EUR 37.951 thousand and USD 45.501 thousand to held-to-maturity portfolio with fair values of EUR 37.178 thousand and USD 62.311 thousand respectively which have been taken into consideration as book values after reclassification in accordance with TAS 39 “Turkish Accounting Standard for Financial Instruments: Recognition and Measurement” published in the Official Gazette No. 27040 dated 31 October 2008 by the Public Oversight Accounting and Auditing Standards Authority (“POA”).

Revaluation differences of reclassified available for sale securities before deferred tax are TL 68.984, EUR (23.067) thousand and USD (15.207) thousand respectively and are recorded under shareholders’ equity. These balances will be amortized until the redemption date of related securities using straight-line method and recorded as interest income or expense. At the end of balance sheet date, negative revaluation differences which are accounted under shareholders’ equity are amounted as USD 10.547 thousand and EUR 999 thousand respectively.

As of balance sheet date, the total fair values of reclassified held for trading securities to held to maturity securities are EUR 24.246 thousand and USD 62.392 thousand respectively.

If the reclassification from the held for trading securities portfolio to the held-to-maturity portfolio had not been performed, income accrual amounting to TL 5.272 would have been recorded. As of 31 December 2016, the reclassification from held for trading securities to held-to-maturity investments has an income impact of TL 8.613 (expense).

- Information on Goodwill: None.

16. Information on deferred tax asset:

Deferred tax is recognized on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit in accordance with the Turkish Accounting Standards (TAS 12) “Income Taxes”. In the computation of deferred tax, effective tax rates as of the balance sheet date are used in accordance with the current tax legislation.

Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Calculated deferred tax assets and deferred tax liabilities are net off in the financial statements.

Information on calculated deferred tax including deductible temporary differences, financial losses, tax deductibles and tax exemptions is shown below:

	Current Period	Prior Period
Deferred Tax Assets	175.538	261.730
Deferred Tax Liabilities	(99.781)	-

TÜRKİYE CUMHURİYETİ ZİRAAT BANKASI A.Ş.

NOTES TO THE UNCONSOLIDATED FINANCIAL STATEMENTS AS OF 31 DECEMBER 2016

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

EXPLANATIONS AND NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS (Continued)

II. EXPLANATIONS AND NOTES RELATED TO LIABILITIES (Continued)

b) Information on saving deposits:

1) Amounts exceeding the deposit insurance limit:

a) Saving deposits under the guarantee of deposit insurance and exceeding the deposit insurance limit:

Saving Deposits	Under the Guarantee of Deposit Insurance		Exceeding Deposit Insurance Limit	
	Current Period	Prior Period	Current Period	Prior Period
Saving Deposits ⁽²⁾	60.568.084	52.356.589	29.701.060	25.598.381
Foreign Currency Saving Deposits ⁽²⁾	21.431.931	19.394.479	28.972.511	23.644.817
Other Deposits in the form of Saving Deposits	-	-	-	-
Deposits at Foreign Branches and under the Guarantees of Foreign Authority Insurance ⁽¹⁾	636.306	549.775	42.853	57.489
Deposits at Off-Shore Banking Regions’ and under Foreign Authorities’ Insurance	-	-	-	-

⁽¹⁾ In Bulgaria and Greece, since both real person and legal entity’s saving deposits are under the guarantee of insurance and since such balances included in insurance limit are calculated by the system, the legal entity saving deposits amounting to TL 47.282 and TL 13.226 respectively, cannot be decomposed by type and are therefore included in the table above (31 December 2015: Bulgaria and Greece, TL 57.299 and TL 7.465, respectively).

⁽²⁾ Related deposit balances do not include foreign branches.

Based on the Council of Minister’s decree dated 29 December 2003 and numbered 2003/6668, TL 940 of demand deposits is not included in the above calculation, since the Bank paid the saving deposits amount attributable to T. İmar Bank T.A.Ş.

Savings Deposit Insurance Fund premiums are calculated based on deposit amount attributable to real persons in domestic branches of the Banks. As total of capital amount and interest expense accruals of saving deposits up to TL 100 attributable to a real person is covered by the insurance, TL 514.083 of interest expense accrual is included in the above-mentioned figures in accordance with the Communiqué on Insurance Deposits and Participation Funds and Premiums Collected by the Savings Deposit Insurance Fund published in the Official Gazette dated 15 February 2013 and numbered 28560.

2) Information on saving deposits/real persons’ private current and accession accounts not related to commercial transactions in a Turkish branch of the Bank whose head office is abroad, and reasons if it is covered in where the head office is located:

The Bank’s head office is located in Turkey.

7. Explanations on provisions:

a) Information on general provisions:

	Current Period	Prior Period
General Provisions	3.921.625	2.844.184
Allocated for Group-I Loans and Receivables	3.190.815	2.459.607
Additional Provision for Loans and Receivables with Extended Maturities	233.456	121.600
Allocated for Group-II Loans and Receivables	175.700	151.763
Additional Provision for Loans and Receivables with Extended Maturities	61.127	28.425
Allocated for Non-cash Loans	465.263	163.020
Other	89.847	69.794

b) Foreign exchange loss provisions on the foreign currency indexed loans and finance lease receivables:

Foreign exchange loss provisions on foreign currency indexed loans and finance lease receivables amount to TL 327 (31 December 2015: TL 5.561).

c) Information on specific provisions for unindemnified non-cash loans:

Specific provisions for unindemnified non-cash loans amount to TL 150.916 (31 December 2015: TL 55.629).

d) Information on other provisions:

1) Information on free provisions for possible risks:

These financial statements include a free provision which is not in accordance with BRSA Principles amounting to TL 945.000 (TL 295.400 of this provision amount was reversed from the income statement in the current year), provided by the Bank management in line with the conservatism principle considering the circumstances that may arise from any changes in the economy or market conditions. Moreover, the provision of TL 19.700 and other provision of TL 244 exist for cash transfers made by Bank officials.

	Current Period	Prior Period
Provisions for Possible Risks	964.944	1.257.419

2) The names and amounts of sub-accounts of other provisions exceeding 10% of the total provision amount:

Based on the information provided by the legal department, lawsuits against the Bank over TL 100 amounts to TL 65.095. Full provision has been provided in these financial statements for law suits ended against the Bank but not finalized yet, amounting to TL 35.709.

Based on the decision of the Bank management, provision amounting to TL 60.400 is provided for the consumer loans followed under standard loan portfolio that also have amounts in the non-performing loan portfolio in compliance with the Act on Preservation of Consumers numbered 4077. The provision is made in accordance with the "Communiqué on the Methods and Principles for Determining the Nature of Loans and Other Receivables and Allocation of Provisions", published in Official Gazette numbered 26333, dated 1 November 2006 and considering the conservatism principle without taking into consideration the guarantees of these loans.

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira (“TL”).)

EXPLANATIONS AND NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS (Continued)

II. EXPLANATIONS AND NOTES RELATED TO LIABILITIES (Continued)

The Bank also provided provisions amounting to TL 150.916 (31 December 2015: TL 55.629) for unindemnified non-cash loans, and TL 41.728 (31 December 2015: TL 28.436) for other provisions. As a result of the provisions mentioned above, the other provision balance on the Bank’s balance sheet amounts to TL 1.253.697 (31 December 2015: TL 1.464.843).

e) Liabilities on reserve for employee termination benefits

1) Employment termination benefits and unused vacation rights

The Bank accounts for its vacation and retirement pay obligations in accordance with the TAS 19 “Employee Benefits”. The vacation and retirement pay obligations recognized in the balance sheet represent the present value of the defined benefit obligation. As of 31 December 2016, unpaid vacation liability amounted to TL 187.500 (31 December 2015: TL 168.600) and employment termination amounted to TL 690.189 (31 December 2015: TL 683.269) are presented under the “Employee Benefits Provision” in the financial statements.

Movement of employment termination benefits liability in the balance sheet:

	Current Period	Prior Period
As of 1 January	683.269	666.464
Current Service Cost	55.867	46.701
Interest Cost	73.999	46.244
Severance Pay	(114.314)	(93.519)
Payment/Abating Benefits/ Gain (Loss) in consequence of Layoff	(212)	(76)
Actuarial Gain (Loss)	(8.420)	17.455
Balance at period end	690.189	683.269

2) Pension Rights

The technical balance sheet reports which are prepared in accordance with the principles Act numbered 5754 declared in the Official Gazette dated 8 May 2008 numbered 26870, by using a technical interest rate of 9,80%, concluded that no technical deficit arises in the mentioned fund as of 31 December 2016 and 2015.

The liability related to Bank’s benefits to be transferred to SSI as of the balance sheet date is expected payment to be made to SSI during the transfer. Actuarial parameters and results used in calculation of this amount reflects the Act’s, numbered 5754 declared in the Official Gazette dated 8 May 2008 numbered 26870, principles related to pension and health benefits to be transferred to SSI (9,80% real discount rate, etc.).

According to related Actuary Report, the Fund’s surplus is TL 2.835.975 as of 31 December 2016 (31 December 2015: TL 2.284.502).

	Current Period	Prior Period
Present value of funded obligations	1.197.092	911.002
-Pension benefits transferable to SSI	361.635	212.216
-Post employment medical benefits transferable to SSI	835.457	698.786
Fair value of plan assets	1.638.883	1.373.500
Actuarial Surplus	2.835.975	2.284.502

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

EXPLANATIONS AND NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS (Continued)

II. EXPLANATIONS AND NOTES RELATED TO LIABILITIES (Continued)

d) Information on additions from capital reserves to capital in the current period:

There is no share capital amount included in capital.

e) Capital commitments in the last fiscal year and continue until the end of the following interim period, general purpose of these commitments and estimated resources required for these commitments:

The Bank has no capital commitments.

f) Indicators of the Bank's income, profitability and liquidity for the previous periods and possible effects of future assumptions based on the uncertainty of these indicators on the Bank's equity:

In the current period, the Bank follows its operations in line with the previous periods. The Bank's balance sheet has been managed with precaution by being affected by the interest, rate of exchange and credit risks at the minimum level. This helps to reduce the effects of fluctuations in the market to the Bank's performance and contributes to the profitability structure to be sustainable.

g) Information on preferred shares representing the capital:

The Bank has no preferred shares.

h) Information on marketable securities value increase fund:

3. Explanations on contingent assets and liabilities:

Provision is allocated for transactions with complete and accurate data that may have an effect on the financial structure of the Bank and otherwise, provision is provided based on the estimations.

The Bank's liability resulting from the cheques given to its customers amounts to TL 3.138.916 (31 December 2015: TL 3.076.439).

As of the balance sheet date, there are no probable contingent liabilities resulting from past events whose amount can be reliably measured.

4. Explanations on services in the name of others:

The Bank acts as an intermediary for purchases and sales of government securities on behalf of individuals and entities, conducts repo transactions, and provides custody services. The Bank does not provide consultancy and management services.

EXPLANATIONS AND NOTES RELATED TO UNCONSOLIDATED FINANCIAL STATEMENTS (Continued)

V. EXPLANATIONS AND NOTES RELATED TO CHANGES IN SHAREHOLDERS' EQUITY

a) Explanations on inflation adjustment differences for equity items:

As per the BRSA's Circular numbered 5 announced on 28 April 2005, it is stated that the indicators of hyperinflationary period are eliminated to a large extent, inflation accounting applied in the banking system has been ceased as of 1 January 2005 in accordance with the BRSA decree numbered 1623 on 21 April 2005.

b) Explanations on profit distribution:

In accordance with the decision taken in the General Assembly of the year 2015, which was carried out on 30 March 2016, from TL 5.162.470 net profit, which is subject to distribution, TL 258.124 is transferred to first legal reserve and TL 24.200 is transferred to second legal reserve TL 220.000 was paid to employees and TL 231.200 is distributed to Treasury after deducting withholding tax of 15% (TL 40.800) in cash. In this context, TL 4.388.146 of the profit is preserved; dividend payment made to Treasury on 15 April 2016, and TL 186.788 was paid to employees as an additional premium. With respect to the decision of the Board of Directors the remaining amount of additional premium to employees, which amounts 33.212 TL has been transferred to the “Profit Reserves” account.

Bank is planning to distribute its profit on 2016 in accordance with its articles of association. However, as of the report date, there is no decision taken regarding the profit distribution.

c) Explanations on Available For Sale Financial Assets:

Available for sale financial assets are not included in the current income statement, until their collections, disposals, sales or losses are realized and those assets are recognized under the “Marketable Securities Revaluation Fund” under equity. In accordance with TAS 39 and due to the change in the Bank's intention to hold the previously classified as available for sale securities to maturity the Bank has reclassified the securities under available for sale portfolio to held to maturity portfolio. The valuation differences of these securities is presented under shareholders' equity as a “Marketable Securities Valuation Differences” and transferred to profit/loss with subject to redemption with proportional to the maturity of security.

Subsidiaries and jointly controlled entities domiciled and operating abroad are followed by their fair values. For such subsidiaries and entities under common control, the fair value is determined with revaluation report prepared by independent valuation firm and revaluation differences are recognized under “Marketable Securities Revaluation Fund” under equity.

d) Profit Reserves:

As of the balance sheet date, profit reserves amount to TL 22.681.245, legal reserves amount to TL 3.203.305, extraordinary reserves amount to TL 18.052.605 and other profit reserves amount to TL 1.425.335.

e) Explanations Related to Prior Period Profit/Loss

The revaluation increase in the account “Tangible Assets Revaluation Reserves” amounting to TL 746.547 related with the properties transferred as capital in kind to Ziraat Gayrimenkul Yatırım Ortaklığı A.Ş. is classified in the profit/loss of the previous year under the “TAS 16 Property, Plant and Equipment” standard.
